Progress Report No. 47 - March 2019

Page 3 of 121

1. Executive Summary

1.1 General

The Monthly Progress Report (MPR) is over the month of March 2019. The Executive Summary Chapter will highlight the various developments and issues at stake in a qualitative manner whereas the remaining Chapters will provide more quantitively information and details on the activities and progress of the Month of March, 2019.

The Executive Summary will also first focus on the implementation of the 2 (two) construction Contracts for **Package-1** and **Package-2**. In this section, the Consultants activities are also addressed. Activities and issues of a more general nature will be addressed thereafter.

This Executive Summary includes an Action Log which will be updated where relevant.

1.2 Implementation of works under Package-1 and Package-2

In the current phase of the CEIP-1 Project, our focus is on progress of the construction works for Package-1 and Package-2. Other Consultants tasks are summarised separately in this Chapter.

1.2.1 Package-1 implementation

The key issues for the month of March 2019 regarding Package-1 are summarised below as follows:

- 1. The physical progress up to March 2019 is 71.17%.
- 2. Based on this we have determined that the actual progress is lagging than the revised target (74.17%) by about 3%. Hence the Contractor will be pushed to catch up the target to complete the Works within the revised time for Completion. In April 2018, the Contractor submitted his official claim for Extension of Time based on the following:
 - i) Delays due to late award of Contract on **01 November 2015**;
 - ii) Extension of time due to delays in handing over the land and possession of Site;
 - iii) Extension of time due to various disruptions to the planned progress of the Works, and
 - iv) Extension of time due to variations for increase in Quantities/Volumes.
 - The Extension of Time has been approved upto 30 June 2020 by the v) Employer vide Memo No.CEIP-1/W-01/331 dated: 18-03-2019 with the condition that no further claim will be acceptable due to this Extension of Time.

vi)

- 3. Contractor has completed 30 Nos. drainage sluices and 18 Nos. flushing sluices and has been working together with the Engineer on the handing over procedures.
- 4. Following the Mission of the Environmental Team of the World Bank, follow-up has been given to areas of improvement and continued in the month of March 2019 also. The Contractor is involved in undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist during their field visits Engineer is pushing Contractor doing so and this has resulted in improvements in March 2019.
- 5. Meetings between Contractor and Engineer were held regarding the construction of the Nalian Closure Dam. Based on discussion, the Contractor submitted a preliminary design and drawing as per contract clause no. 2.4.2 for construction of Nalian Closure Dam. The preliminary design and drawings were reviewed by the Consultant's expert and provided his comments & suggestions on these for reviewing and finalization by the contractor. The comments & suggestions of the consultants were communicated to the Contractor. The Contractor prepared the design based on the review of the expert and several discussion meetings were held between the Contractor and Engineer to finalize the design & drawings. After long discussion, the Engineer finally described to the Contractor regarding the work methodology based on the

Progress Report No. 47 - March 2019

detailed briefing of the designer of the Contractor and requested to prepare the design and drawings accordingly. Finally, the Contractor has prepared the design and drawings and submitted to the Consultants. After reviewing the design and drawings the Consultant has approved it and requested to start the work immediately. However, the Contractor has mobilized and started the work and by 31 March 2019 they have dumped about 900,000 (nine lacs) sand fill synthetic bags to prepare the foundation of the closure but their activities are not yet satisfactory.

- 6. Replacement of hard rock by CC blocks has been agreed upon in Variation Order no. 2. and materialised. An updated Variation Order no.2 was submitted with some corrections based on comments received from the World Bank but that has been again corrected as per advice of the Project Director keeping the saving amount under head "Temporary Saving" and submitted to the PMU.
- 7. The installation of gates and hoists in 19 sluices have been completed and the remaining 20 nos. are in a boost stage of completion and will speed up the expenditures and consequently the disbursements in the coming months. Corrective action is executed on some of the sluices to install support brackets and reduce the diameter of the swivel wheel.
- 8. Contractor is claiming a Variation Order No.3 for the payment of additional costs for a betterquality fill sand as instructed by the Engineer. The draft Variation Order has been reviewed by the PMU and suggested to compare the determinate rate of the Engineer with the schedule rate of Khulna O & M Circle. The Project Director has also advised to include the requirement of Additional IT & VAT upto 30 June 2019 in this Variation Order. The Variation Order No.3 has been submitted to PMU on 25 February 2019 without including additional IT & VAT as no Variation Order can be made for additional IT & VAT rather a Supplementary Contract is to be made for additional IT & VAT.
- 9. In the contract, there was provision for repairing works of 30 nos. flushing sluices out of which 15 nos. have been dropped (for falling the structures outside the alignment of retired embankment or not repairable) and out of the rest 15 nos. 3 nos. have been completed, 9 nos. are in progress and remaining 3 nos. are not yet started for want of design which has not been prepared for design data which are supposed to be supplied by the contractor. However, those will be taken up and completed during the current dry season positively without fail. There is provision for repairing works of 2 nos. drainage sluices which are in progress and will be completed by June 2019.

1.2.2 Package-2 implementation

The key issues for the month of March 2019 regarding Package-2 are summarised below as follows:

- 1. The physical progress up to March 2019 is 20.61%,
- 2. The progress of Contractor during the last financial year was highly disappointing; they failed to meet the targets set for FY 2017-2018 committed in a meeting of 12th November 2017. Main issue for poor progress was the problem of timely availability of materials but that is now (almost) solved; local resources (including labour) are controlled by local parties and Contractor is therefore limited to import resource's including labour from other polders or suppliers.
- 3. However, the present performance of the Contractor in this dry season is not yet satisfactory also. Meetings with higher Management of Contractor were held and an action plan is being prepared, however, follow-up is lacking, and Engineer is pushing the Contractor.
- 4. Following said World Bank Mission on environmental aspects of the CEIP-1 Project, The Contractor is involved in undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist during their field visit.

The Engineer discussed with Contractor about the work program for the FY 2018-19. They were advised to prepare an accelerated work program in such a way that the lapses of the progress of last FY can be coped up in this FY. According to advice, the Contractor submitted the accelerated work program which has been reviewed by the Consultants and submitted to PMU. It is, however,

Progress Report No. 47 - March 2019

HaskoningDHV

noted that the accelerated work program shows completion earlier than contractual date of completion and therefore not binding. An earlier date of completion would require a Variation Order. However, as per revised program there was target to complete 40.53% of the Physical Work by March, 2019 but the actual progress is lagging by about 20%. Hence the Contractor will be pushed strongly to catch up the revised target.

Other tasks of Consultants

The key issues for the month of March 2019 regarding the other tasks of Consultants are summarised below:

- 1. The Draft Final Reports of EIA/EMP for all 7 Polders under Package-3 have been finalized and submitted to PMU. The PMU submitted the reports to the WB for their review.
- 2. The RAP of Package-2 was prepared based on LAP & also approved by the World Bank. But due to updating of LAP the area of land has been increased based on which RAP has been updated. After review by the PMU, RAP was sent to the World Bank. The World Bank Provided some observations on the RAP and those were met and resubmitted to the World Bank. The World Bank has approved the RAP after receiving the satisfactory responses of the observations.
- 3. The Consultant supported the PMU with the missions and meetings of the World Bank delegations to the Project including site visits and various reports and recommendations.

1.3 Key challenges and risks and recommendations

1.3.1 Key challenges and risks

Key challenges and risks are listed below:

- 1. The weather conditions in March 2019 were not fully favourable for construction of civil works.
- 2. Risks related to the site situations not being available remains valid for March 2019; all stakeholders, being the Client, Client's regional offices, DC's, Contractor and Consultants, are doing their utmost efforts to organise this in a practical and pragmatic manner. It is Consultants view that progress is being made in the joint efforts in the interest of the CEIP-1 Project. This is an area which requires continued highest attention of all concerned;
- 3. The World Bank modified FIDIC Contracts which are in place stipulate specific deadlines in terms of modifications, possible claims and variations. Where it concerns approvals from higher levels within the BWDB, procedures should streamline to avoid undesirable claims from Contractors. This was noted in April 2018 and has yet to be made clear and was also discussed in above mentioned FIDIC training for follow-up actions. The division of (the FIDIC-like) roles between the Employer - Engineer - Contractor is not clear in practice and a point of concern.
- 4. Although a Modified Contract No. 2 for Consultancy Services was signed in the beginning of last year, Consultants envisage that further optimisation is urgently required to cope with the dynamics of the CEIP-1 Project to safeguard the liabilities of the Client and the Consultant. The Man months for some critical experts will be depleted soon, while the construction supervision team needs extension of at least 1.5 years for continuation of the services. As the contract variation is not possible without revision of DPP, the Consultant proposed a budget neutral adjustment (modified Contract No. 3). After several discussions with the PD, the proposal for Budget Neutral Modified Contract No-3 has still not finalized. By this time a few numbers of senior consultants both in the field and in the Head, Quarter have already been exhausted but for the interest of the services they are still working with the financial support from the Head Quarter Over Head of the Consultancy Firm. However, the proposal for Budget Neutral Modified Contract No.3 needs to be approved as soon as possible.

CEIP-1

1.3.2 Recommendations

The following recommendations are made:

- 1. When there would be a land availability issue, joint efforts of Contractors, Engineer and Employer should be enhanced to solve issues at stake. It is recommended that the Employer plays a visible role here and increased efforts should continue; less reporting and more resolving on the spot;
- 2. Modified Contract No. 3 needs immediate approval by the competent authority for smooth continuation of the services.

1.4 Action Log

In Table 1-1 below an action log is introduced to monitor actions required to be taken forward in the interest of the CEIP-1 Project. It will be updated monthly, and actions fulfilled will be deleted.

Table 1-1: Action Log

| Action No. | Description of action | By when | By whom | Done by and be deleted this Action next mo | d from n Log | Remarks |
|---------------|--|----------------|-------------------------------|--|-----------------|--|
| | | | | Date | Done | |
| Nov17- 001 | PMU-World Bank Environmental actions agreed upon on 23 rd November 2017 | Continuous | Consultants | Continuous | mostly | Consultant's report improvements done, Contractor achieved most of the requirements, EHS improvement is continued |
| Nov17- 003 | Revised Work Plan including methodology and resource planning. | 30-11-17 | Contractor | | Partly | Contractor Package-1 has submitted a draft work program based on Claim No. 2 for Extension as per recommendation given by the consultants and the submitted work program has been reviewed and sent to PMU. Contractor Package-2 has submitted an accelerated revised work program which has been reviewed by the consultants and sent to PMU. |
| Nov17- 006 | Payment in connection to land availability and instructing DC's accordingly. | 31-12- 2017 | CEIP-1 PMU, | | Partly | This is progressing but need acceleration. |
| Dec17- 002 | Agree with Contractor Package- 1 on claim for extension and increase of cost. | 09-04- 2018 | Contractor and Engineer | | | The extension of time up to June 2020 is recommended by the Consultants with judicious justifications and sent to PMU. As per instruction of the Project Director the Contractor is requested to submit the Application for Extension of Intended Completion Date, in specified Proforma, duly filled in but that not yet received from the Contractor. Rather the contractor expressed their unwillingness to submit that proforma because it would require waiving his right for claiming additional costs which is still under consideration. |
| Dec17- 003 | Prepare workshop on innovative design approaches adopted for CEIP-1 Project, | 31-01- 2018 | Consultants | | | The Workshop for new design approaches for CEIP-1 was organized in 27 May 2015.Hence |

CEIP-1
Progress Report No. 47 - March 2019

HaskoningDHV

| Action No. | Description of action | By when | By whom | Done by a be deleted this Actio next mo | from n Log onth | Remarks |
|-----------------|--|----------------|-------------------------------|--|-----------------------|--|
| | | | | Date | Done | |
| | | | | | | the action as asked for may be deleted. |
| Jan18- 001 | Advise Contractors to involve international experts in various fields. | 28-02- 2018 | Engineer | | | Contractor Package-1 has involved international experts; Contractor Package-2 is gradually involving international experts. |
| Jan18- 002 | Take measures to further increase progress of works Package-1 | 20-02- 2018 | Contractor and Engineer | | | The Contractor has submitted a draft work program following the recommended extension of time up to June 2020 and the same has been reviewed by the Engineer and sent to PMU. |
| Jan18- 003 | Take measures to further increase progress of works Package-2 | 20-02- 2018 | Contractor and Engineer | | | Meetings with higher Management of Contractor were held and an action plan is being prepared, however, follow-up is lacking, and Engineer is pushing the Contractor. The Contractor has submitted an accelerated work program which has been reviewed and sent to PMU. |
| Feb2018- 001 | Follow-up Environmental Mission World Bank February 2018 | 1-05-2018 | Consultants | | | Ongoing |
| Mar2018- 003 | Prepare guiding document for accelerating work for Package-1 and Package-2 during monsoon | 15-04- 2018 | Engineer | | | This action was implemented during the regular meetings on work progress and for preparing the updated work programs for the fiscal year 2018-2019 |
| | Submission of Contractor's Monthly Work Program with detail resources allocation | | Engineer | | | This action is impossible to execute as the monthly program is depending on many factors in terms resource allocation. |

1.5 **DDCS&PMS Contractual Tasks**

The specific objectives of the CEIP-1 Consultancy Services are described by the following tasks:

- Review and update the designs bidding documents and related environmental and social Task A plans (EIAs, EMPs, and RAPs) already prepared, related to Package-1 only during the inception phase of the Project; updates are being done regularly in LAP/RAP activities;
- Prepare detailed designs for all remaining polders and works of Package-2 and Package-3 Task B that would be included in the Project, including the Engineering and Environment and Social studies (mathematical modelling, detailed designs, EIAs, EMPs/EAPs, geotechnical investigation); this task is ongoing;
- Task C Supervise construction of all works under the Project, and do the contract management as "The Engineer", according to FIDIC rules and regulations and the World Bank Guidelines and its standard bidding documents;
- Task D Provide overall project management support (PMS) to Project Management Unit (PMU) under the BWDB agency (mainly consisting of support for reporting, mapping products, data bases, preparation of all stakeholder's meetings, establishment of minutes of meeting, special thematic reporting, joint teaming up to establish thematic reports, oral/written advice on contract management and project management of site works; and seconding and assisting WB missions to the field).

HaskoningDHV

2. Summary of Key Achievements during the reporting month

2.1 Package-1

| No. | Item | Key Achievements during the month - Package-1 |
|-----|--|--|
| 1 | Modelling | Not applicable |
| 2 | Surveys and Design | Several designs prepared and implementation of some Emergency Works have been completed and protected the Polder area from saline water intrusion and some Emergency Works are in progress. |
| 3 | Works | Construction / Re-Sectioning of Embankment: 4.18 Km (Full) & 51.49 Km (Part) Excavation / Re-Excavation of Drainage Channel: 11.14 Km Construction of Drainage Sluice: 5 no. (Full) & 8 nos. (Part) Construction of Flushing Inlet: 0 no. (Full) & 11 nos. (Part) Repair of Flushing Inlet: 0 no. (Full) & 09 nos. (Part) Embankment Slope Protection Works: 4.362 Km River Bank Protection Works: 0.35 Km Nalian Closure Dam: Foundation work 60% completed. |
| 4 | Contractor Resources | Updated by Contractor Package-1 in terms of labour and equipment. |
| 5 | RAP and status of resettlement Payment | 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in March-May 2015 of whom 820 on private land (titled) and 4,633 on government land non-titled EPs (Squatters) and among 4,633 EPs, 448 tenants and 226 were wage labourers. The final numbers of entities as of March 2019 stands at 5,347 of whom 4,619 non-titled (Squatters), 448 tenants and 280 as wage labors. It is to be mentioned here that 1 new EPs have included in Polder-35/1 for FS-4 due to reshaping the embankment alignment. BDT 5742.49 lac has been paid to the 3909 non-titled EPs (squatters) as compensation against their affected residential, fish gher, commercial, tress. Moreover, the compensation has been paid for Social Forestry (27 nos. for CPR) is BDT 16.12 lac and for removing 48 nos. electric poles an amount of BDT 12.75 lac. In total 5771.36 lac has been compensated against Package-1 upto March 2019. As of March 2019, DC office Khulna & Bagerhat have paid a total BDT 5485.68 against 2156 nos. of awardees among Titled EPs (678 nos. of Polder-32, 336 nos. of Polder-33,792 nos. of Polder-35/1 & 350 nos. of Polder-35/3). |
| 6 | LAP | 131.03 ha land was Programmed for Land Acquisition (LA) in four polders. Possession received a total of 116.57 ha land and 11.12 ha land is yet to be received. The proposal for 3.34 ha Banisanta mouza has been sent on 10/10/2018 to the MoL by DC for final approval and accordingly MoL approved 3.34 ha land on 13/1/19. Polder-35/1, revised land acquisition proposal for 6.93 ha land will be submitted to Dc office, Bagerhat through XEN, BWDB, CEIP-1, Khulna due to recent river erosion & technical reason (shifting the alignment in the Sharankhola mouza in Bagi area). |

CEIP-1 Progress Report No. 47 - March 2019

| No. | Item | Key Achievements during the month - Package-1 |
|-----|--------------------------------|---|
| 7 | Relocation | • About 97.90% of paid EPs have already been relocated. The majority (54.49%) EP has relocated on their own land; 12.13% on newly purchased land; 17.37% EP has replaced to their relative's or others' land; 12.04% have relocated temporarily at nearby area; About 2.10% of the paid EPs are yet to be relocated from the ROW. About 0.77% & 1.10% have relocated respectively in Market & Group Relocation. |
| 8 | Grievances | 151complaints/grievances have received up to March 2019 by GRC. 32 complaints/grievances have been resolved at the entry level, while 114 cases have been resolved through investigations and formal hearing by GRC. Remaining 05 lodged grievances have been trying to resolve in entry level by the GRC. All records of GRC preserved according to the guidelines of RAP policy. |
| 9 | Environment | Monitoring of safeguards measures and compliances is ongoing and amongst others the World Bank environment, health and safeguard mission have visited the project area in April 2018. |
| 10 | Value of Physical Work Done | The total value of physical work done up to March 2019 is BDT 5015.322 million and during March 2019 is BDT 287.129 million. |
| 11 | Finance | Total expenditure incurred up to IPC-16 is BDT 4233.82 million including 10% advance payment. An amount of BDT 346.16 million has been recovered from the advance payment of BDT 660.89 million . |
| | Contract Administration | The draft Variation Order No.3 was submitted to PMU and that was reviewed by the PMU and suggested to compare the determinate rate of the Engineer with the schedule rate of Barisal O & M Division. The Project Director has also advised to include the requirement of Additional IT & VAT upto 30 June 2019 in this Variation Order but as that is to be adjusted in the Contract Price the Engineer will determine and recommend the amount and the Employer will take the action to adjust the amount in the Contract Price as per GCC Sub-Clause 1.7.The determination rate of the Engineer has been compared with the schedule rate of Khulna O & M Circle and found determination rate is lower than the schedule rate of Khulna O & M Circle. Hence the Variation Order No.3 has been submitted based on the Engineer's determination rate to PMU on 25 February 2019 without including additional IT & VAT as no Variation Order can be made for additional IT & VAT rather a Supplementary Contract is to be done for additional IT & VAT. |

2.2 Package-2

| No. | Item | Key Achievements during the month - Package-2 |
|-----|--|--|
| 1 | Modelling | Not applicable. |
| 2 | Surveys and Design | Designs were completed long ago. Contractor CICO has completed some sections of pre-construction surveys of 6 Polders and subsequently shop drawings also completed based on which the physical works were executed during the first dry season period 2017-2018. The Contractor will conduct pre-construction surveys for the rest sections of the Polders and then to be followed up by making the shop drawings for the 2 nd & 3 rd dry season period 2018-2019 and 2019 -2020 respectively. Task force will be included in all survey works. |
| 3 | Works | Construction / Re-sectioning of Embankment: 0.00 Km (Full) & 12.52 Km (Part) Drainage Channel Excavation/Re-excavation: 5.98 km (F) Construction of Drainage Sluices: 19 nos. (p) Repair of Drainage Sluices: 1 no. (p) Construction of Flushing Inlets: 15 nos. (p) Repair of Flushing Inlets: 2 nos. (p) River Bank Protections: 0.27 Km (F) Embankment Slope Protection Work: 0.00 km |
| 4 | Contractor Resources | Contractor has received the full advance payment against the first instalment & had been spent the money to purchase machineries and equipment; Chinese engineers and supporting personnel have mobilized, and the same is true for the recruitment of local labour; facilities and buildings are under construction now. The 2 nd instalment is using for procurement of construction materials and other field requirements. |
| 5 | RAP and status of resettlement Payment | A total of 6693 entities have been identified of whom 1777entities are titled and 4757 are non-titled on Government land (squatters) which may fluctuate, 195 unit are identified as community properties and 59 as other institutions will be affected. A total of 864 tenants have been identified among them 801 are commercial and 63 are residential HHs. Moreover, 386 wage labours have also been identified as affected in commercial premises. 159 nos. of EPs have been deducted from recent survey and technical reason by field verification jointly by the DDCS & PMS Consultant along with LAP/RAP team. Necessary papers and documents such as Bank Account deposit slip, photocopy of national ID cards etc. have been collected from the Non-Titled EPs. ID Cards are being prepared for non-tiled EPs (squatters, tenants, wage laborers). The tenants and wage labours are not included in the current EP list. 3880 EP ID Cards have been allowed by the Project Director for issuance by the concern XEN and from the allowed card lists includes 1376 nos. of Polder-48, 160 nos. of Polder-47/2, 560 nos. of Polder-43/2C, 653 nos. of Polder-41/1 and 1131 nos. of Polder-40/2 which all has sent to the concern XEN's for issuance. Thereafter a total of 1912 EP ID cards issued by the concerned XEN which includes 890 nos. of Polder-48, 160 nos. of Polder-47/2, 296 nos. of Polder-43/2C, 181 nos. of Polder-41/1 and 385 nos. of Polder-40/2. A total of 1824 EPs have been selected for payment of compensation/Resettlement benefits under first and second indent according to the policy of Resettlement Action Plan (RAP) |

CEIP-1
Progress Report No. 47 - March 2019

| No. | Item | Key Achievements during the month – Package-2 |
|-----|--------------------------------|--|
| | | out of which 1812 EPs have been received compensation under first indent. The 2nd indent (part-2) of compensation payment under package-2 has submitted to the Project Director, CEIP-1 for his review and approval. |
| 6 | Preparation of LAP | 154.93 ha land was Programmed for Land Acquisition (LA) in four polders. The land acquisition proposal for six polders under Package -2 has been submitted to concern DC (Pirojpur, Jhalokhathi, Barguna and Patuakhali) for acquisition. 139.18 ha land has approved by MoL for polder 39/2C, 40/2, 41/1, 47/2 & 48. BWDB has been placed fund against CUL to DC, Barguna for Polder 39/2C (1 nos. of LA case), Polder-40/2 (2 nos. of L.A Cases) and Polder-41/1 (6 nos. L.A Cases). For Polder- 43/2C, issuance of notices U/S-4 for two Mouza has completed and waiting for issuance of notices U/S-4 for nine Mouza. For Polder-39/2, signature in final estimate by DC office-Pirojpur (Pirojpur Portion) is waiting, PWD has already forwarded the estimate to DC office Jhalokathi and field work is finished for estimate at Jhalokathi portion by DoF Jhalokathi and submitted the estimate to the DC office for two mouza. |
| 7 | Relocation | • The majority (49.35%) EP has relocated on their own land; 7.22% on newly purchased land; 10.77% EP has replaced to relative's or others' land; 20.30% have been relocated temporarily at nearby area; About 4.49% of the paid EPs are yet be relocated from the RoW. About 7.87% made group relocation. No market relocation made so far. |
| 8 | GRC & FGD | A total number of 45 complaints/grievances have been received up to March 2019 by GRC. 25 cases of them have been resolved in the entry level by the field investigation and remaining 20 cases under process for investigation and formal hearing by GRC. Total of 994 focus group meetings have been held with resolution. Some of the groups have been met twice or more. |
| 9 | Environment | Second version of the C-ESMPs for Package-2 have been finalized and submitted to World Bank through PMU, which is a living document that will be continuously updated and improved as and when required. |
| 10 | Value of Physical Work Done | The total value of physical work done up to March 2019 is BDT 1782.30 million and during March 2019 is BDT 297.11 million. |
| 11 | Finance | Total expenditure incurred up to IPC-06 is BDT 2096.04 mi llion including 10% advance payment. |
| 12 | Contract Administration | No change in Contract was operated. |

2.3 Package-3

| No. | Item | Key Achievements during the Month - Package-3 |
|-----|------------------------|--|
| 1 | Mathematical Modelling | Mathematical modelling to detailed design parameters of the 7 Polders of Package-3 were completed in the month of February 2018 and sent to the Superintending Engineer, Design Circle-5 for review. Very recently, the review has been completed and gave clearance for starting the detailed design. |
| 2 | Surveys and Design | Surveys were completed in 2017 and immediately after getting the clearance, the preparation of design is in process. The outcomes of the mathematical modelling are being used as input and boundary conditions for design of the structures under Package-3 with ambition to finish them by April 2019 |
| 3 | Bid Documents | Some sections of the Bidding Documents have been advanced and waiting for the preparation of BOQ yet the design and drawing of some components are to be completed. |
| 4 | RAP | Following the accomplishment of the map of alignment fixing by the DDCS & PMS Engineering Team, the LAP/RAP team has completed the Households (HHs) numbering and IoL survey in all 7 polders under Package-3 of CEIP-1. A total of 20 Community/Stakeholder Consultation meeting were held at 15 different venues of the Polders. Preparation of draft RAP is under process. |
| 5 | LAP | LAP/RAP team has submitted the draft LAP for all polders to XEN, CEIP-1 Khulna and PD office for checking & verifying as per Terms of Reference (TOR) of Acquisition & Requisition of Immovable Property Act 2017. |
| 6 | Environment | Responses on the World Bank comments on EIAs of all the 7 Polders of Package-3 have been completed and submitted to PMU for observation and submission to the World Bank for finalization. Bi-annual Environmental Monitoring Report for the period July-December, 2018 submitted to PMU for onward transmission to the World Bank. Submitted reviewed C-ESMP reports of Package-2 to PMU for forwarding to the World Bank |

1.6 DDCS&PMS Consultancy Services

| No. | Item | Key Achievements upto this Month - Consultant |
|-----|---------------------------|---|
| 1 | Construction | Package-1 physical progress is 71.17% (4 Polders). |
| | Supervision Systems/Tools | Package-2 physical progress is 20.61% (6 Polders). |
| | | Package-3 no contract, hence no site works (7 Polders). |

CEIP-1

Project Progress 3.

Task A: Update Design, Bid Documents, RAP, EIAs, etc. for Package-1 **Polders**

3.1.1 Design

The Detailed Design of Drainage Cum Flushing (D/S) Sluice, Flushing cum Drainage Sluice (F/S), Construction/Re-sectioning of Embankment, Excavation/Re-excavation of Drainage Channels, River Bank Protection, Slope Protection and Construction of Closure Dam were Completed and approved by the Competent Authority. The approved designs were updated at the time of commencement of Implementation of the Civil Works.

3.1.2 Bid Documents

The Bid Documents covering all the activities mentioned above were completed and approved by the competent authority based on which the tender of Package-1 was floated and finalized and subsequently, the contract was awarded to the lowest bidder.

3.1.3 RAP Implementation Package-1

3.1.3.1 Implementation Activities

RAP Implementation for Polders-32, 33, 35/1 and 35/3 under Package-1 is going on. Individual entitlement has been calculated based on Inventory of Losses (IoL) survey and as per PAVC recommended rate of the structures and other assets. A total of 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in March-May 2015 of whom 820 on private land (titled) and 4,633 on government land non-titled EPs (Squatters). Among 4,633 EPs, 448 tenants and 226 wage laborers were identified.

Due to the changes/adjustments of the alignment and Joint Verification Survey (JVS) conducted by respective DC offices, the total numbers of entities have been changed. As a result, some non-titled EPs became titled EPs on account of JVS by DC office and some EPs were added or deducted on account of changes/adjustments of the alignment of embankment, changing location of DS and including dockyards labourers as non-titled EPs. The final numbers of entities as of March 2019 stands at 5,347 of whom 4,619 non-titled (Squatters), 448 tenants and 280 as wage labourers. Payment of compensation, grants and resettlement benefits for four Polders under Package-1 was started in June 2016. As of March 2019, a total of BDT 5,771.36 in Lac has been paid to the 3,909 non-titled EPs (squatters), 27 nos. for social forestry and 48 electric poles as compensation, grants and resettlement benefits against their affected residential, fish gher, commercial, tress and common structures under first to ninth indent of Package-1. The Polder-wise non-titled EPs and payment of compensation as resettlement benefit is reflected in Table 3-1 below.

| | • | | | | • | |
|----------|---------------------------|---------|-------------------|-------|-------------------|--------------------------|
| Polder | Non-titled (Squatters) | Tenants | Wage Labourers | Total | No of EPs Paid | Amount paid in BDT (Lac) |
| 32 | 1251 | 86 | 23 | 1360 | 1247 | 1532.70 |
| 33 | 1462 | 157 | 75 | 1694 | 1151 | 1620.82 |
| 35/1 | 1624 | 196 | 171 | 1991 | 1252 | 2197.47 |
| 35/3 | 282 | 9 | 11 | 302 | 259 | 391.50 |
| Total | 4619 | 448 | 280 | 5347 | 3909 | 5742.49 |
| Paid for | Social Forestry for 27 | 27 | 16.12 | | | |
| Paid for | Electric Pole for 48 U | 48 | 12.75 | | | |
| Grand T | otal | 3984 | 5771.36 | | | |

Table 3-1: Updated numbers of Non-titled entities up to March 2019

Payment under 10th Indent has been submitted to the competent authority and is being processed for immediate payment. The status of the 10th indent has shown below:

Page 14 of 121

| SI No. | Polder Number | EPs | Amount in BDT |
|--------|---------------|-----|----------------|
| 1 | 32 | 7 | 20,66,011.00 |
| 2 | 33 | 51 | 1,02,56,494.00 |
| 3 | 35/3 | 2 | 2,77,628.00 |
| | Total = | 60 | 1,26,00,133.00 |

For payment of compensation and resettlement benefits to all kinds of EPs, necessary documents are being prepared as a continuous process. Progresses of activities in terms of preparation of documents are as follows:

- i. Among the total number of **5,347 non-titled** EPs, the ID numbers of all (100%) were devised;
- ii. Opening of Bank Accounts of non-titled Eps were completed for 5,346 (100%);
- iii. Preparation of EP ID Cards for non-titled EPs 5,346 (100%);
- iv. EP ID cards have been checked & verified by Resettlement Specialist is 5,346 (100%); EP ID cards have been issued by XEN 5,346 (100%).
- v. Necessary processing is under process for the newly affected 1 (one) Eps as mentioned above.

3.1.3.2 Payment of Compensation under Law (CUL)

DC office both Khulna & Bagerhat has been started the payment of compensation under Law (CUL) to the Titled EPs. As of March 2019, DC office Khulna & Bagerhat has paid a total BDT 5770.47 lac against **2156 nos**. of awardees among Titled EPs (678 nos. of Polder-32, 336 nos. of Polder-33,792 nos. of Polder-35/1 & 350 nos. of Polder-35/3). 34 nos. of EPs have been paid under the CUL **has been made in** March **2019.** The progress of payment of compensation under law (CUL) is shown in Table 3-2:

Table 3-2: Polder- wise payment made by DCs Khulna & Bagerhat till March 2019

| Polder No. | Total Awardees | No of awardees applied to DC | Total estimated amount of CUL (BDT) Lac | No. of Paid awardees | Nos. of payment cheque distributed by DC | Total paid Amount in BDT Lac | Progress in percentag e (based on 100%) |
|------------|-------------------|---------------------------------------|---|-------------------------|--|------------------------------------|---|
| 32 | 3003 | 2023 | 1615.37 | 678 | 384 | 1039.57 | 64.35% |
| 33 | 2066 | 1317 | 770.04 | 336 | 177 | 535.38 | 69.53% |
| 35/1 | 1087 | 1087 | 4525.92 | 792 | 707 | 3166.53 | 69.96% |
| 35/3 | 489 | 489 | 1510.51 | 350 | 289 | 1028.99 | 68.12% |
| Total | 6645 | 4916 | 8421.84 | 2156 | 1,557 | 5770.47 | 68.52% |

3.1.3.3 The substantial progress in payment of compensation under law (CUL) in package-1

The payment has been made for **1185** residential structures against target of 1545, paid for 62 nos. commercial structure out of 67 and paid for 909 nos. of land awardees out of 5033. Payment made for total **34** nos. titled EPs during the month of March 2019. The Polder wise progress has stated in the following Table 3-3.

CEIP-1

Table 3-3: Substantial progress report in payment of compensation under law till March 2019

| | No. of Titled Eps (Awardees) | | | | Polder Wise Payment Summary (Awardees) | | | | |
|---------------|------------------------------|----------------|------|-------|--|-------------------------------|------------------|---------------|--|
| Polder No. | Resid ence | Comme rcial | Land | Total | Paid for residence | Paid for commercial structure | Paid for land | Total Paid | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | |
| 32 | 397 | 14 | 2592 | 3003 | 273 | 14 | 391 | 678 | |
| 33 | 185 | 32 | 1849 | 2066 | 115 | 27 | 194 | 336 | |
| 35/1 | 729 | 15 | 343 | 1087 | 574 | 15 | 203 | 792 | |
| 35/3 | 234 | 06 | 249 | 489 | 223 | 06 | 121 | 350 | |
| Total= | 1545 | 67 | 5033 | 6645 | 1185 | 62 | 909 | 2156 | |

The payment of CUL from the DC office is going on. The social team identified the sloth motion of the payment procedures by the concerned DC Office. Further, consultation meeting and FGD carried on from 06-09 March 2019 in all 4 polders of Package-1 in presence of the WB official, PMU, BWDB, DDCS&PMS Consultant and LAP/RAP team and the team also met and had meeting with concerned ADC of Khulna & Bagerhat DC office for expediting the payment procedures. The LAP/RAP team has been trying to motivate the EPs by arranging the Focus Group Discussion (FGD) and Consultation meetings. They also assisting the EPs to prepare the payment documents and advising them on related matters and on the other hand, continuous persuasion is maintaining to the concerned DC office for following up the payment. The visual presentation is shown below:

3.1.3.4 Relocation Status and Assessment of Relocation in Package-1

Following the payment of compensation against the First to Ninth indents the affected people started relocating their structures by their own choice. It was disseminated to the people that if the affected people show their willingness to group relocation, the project will provide necessary civic amenities like construct entrance way to the resident, sanitation, tube well etc. BWDB, DDCS&PMS Consultant have been encouraging the AP for group relocation so that there will be little chance to come back on the embankment. But in most cases, the affected people prefer individual relocation. Selfrelocation has been started but the pace is very slow. Hopefully it will drive very swiftly within few days. A good number (57 nos.) of EPs from the total 60 nos. have not been relocated yet in polder 33 situated in Laodobe Bazar. Concern PAVC is looking for the suitable place for better market relocation. Point to be mentioned here that the construction work of the chainage is ongoing. The Project concern and RAP/LAP team are trying to arrange group relocation.

- The majority (54.49%) EPs have relocated on their own land;
- 12.13% EPs have relocated on newly purchased land;
- 17.37% EPs been staying for the time being at relative's or others' land;
- 12.04% EPs have been relocated temporarily at nearby area;
- About 2.10% of the paid EPs are yet to be relocated from the ROW.
- About 0.77% & 1.10% have relocated respectively in Market & Group Relocation.

Table 3-4: Update Relocation Status as of March 2019

| | Number of squatters relocated by Polders | | | | | | |
|---|--|--------------|----------------|----------------|-------|-------|--|
| Status of relocation | Polder 32 | Polder 33 | Polder 35/1 | Polder 35/3 | Total | % | |

CEIP-1 Progress Report No. 47 - March 2019

HaskoningDHV

3.1.4 Status of Physical and Commercial Displacement/Relocation (Non-titled)

The status of Physical displacement and Economical displacement (Relocation) of Package-1 for four Polders are given as follows:

Table 3-5: Physical displacement and Economical displacement (non-titled) of Package-1

| SI.No | Polder No. | Physical Displacement | Economical/Commercial Displacement | Total Displacement |
|-------|---------------|--------------------------|------------------------------------|--------------------|
| 1 | 32 | 860 | 387 | 1247 |
| 2 | 33 | 813 | 338 | 1151 |
| 3 | 35/1 | 897 | 355 | 1252 |
| 4 | 35/3 | 148 | 111 | 259 |
| | Total= | 2718 | 1191 | 3909 |

Relocation Status of Physical Displaced household in Package-1

It is evident from the majority of the displaced people (57.13%) relocated to self-managed land. It is very important that 15.48% people have been settled in purchased land and hope the group will be sustained.

Table 3-6: Relocation Status of Residence (Physical Displacement) in Package-1

| | Number of squatters relocated by Polders | | | | | | |
|---|--|--------------|----------------|----------------|-------|-------|--|
| Status of relocation | Polder 32 | Polder 33 | Polder 35/1 | Polder 35/3 | Total | % | |
| Relocated on own land | 461 | 521 | 475 | 96 | 1553 | 57.13 | |
| Relocated on purchased land | 103 | 35 | 241 | 42 | 421 | 15.48 | |
| Relocated on relative & other's land | 173 | 126 | 152 | 10 | 461 | 16.96 | |
| Relocated Temporarily at nearby area (Govt. Land) | 109 | 108 | | | 217 | 7.98 | |

CEIP-1

3.1.7 The substantial progress in relocation of the Titled Affected households compensated under law (CUL) in package-1

The relocation so far made for the titled affected households those of who were compensated under law are stated in the following table. The progress in relocation reveals that **1160** residential has relocated out of 1185 where progress for the month of March 2019 is **20** and **62** commercial structures relocated out of target 62 where progress for the month of March 2019 is **15**. The Polder wise progress has stated in the following table.

Table 3-8: Polder wise Number of relocated Residence and Commercial of Titled EP (Awardees) compensation under law

| Num | Number of relocated Residence and Commercial Titled EPs (Awardees)polders | | | | | | | | |
|---------------|---|-----------|--------------------|-----------|--|--|--|--|--|
| Polder No. | Residence Payment | Relocated | Commercial Payment | Relocated | | | | | |
| 32 | 273 | 267 | 14 | 14 | | | | | |
| 33 | 115 | 112 | 27 | 27 | | | | | |
| 35/1 | 574 | 565 | 15 | 15 | | | | | |
| 35/3 | 223 | 216 | 06 | 06 | | | | | |
| Total | 1185 | 1160 | 62 | 62 | | | | | |

This percentage of relocation is increasing gradually. The APs are interested for self-relocation individually. The LAP/RAP field staffs have been monitoring closely the relocation progress and recording status before and after relocation.

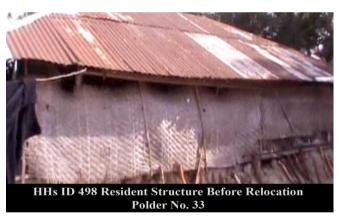

Figure 3-7: HH 498 Before relocation of Polder-33

Figure 3-19: House relocation at FS-1 in Polder 35/3

Figure 3-20: Removing house for construction of FS-1 in Polder 35/3

Group Relocation

One group Relocation is taken place at Uttar Kamarkhola in Polder-32. The relocation site is named as CEIP Village at Uttar Kamarkhola near BWDB office. LAP/RAP team is continuing effort for convincing and motivating APs for more group relocation in other places in four Polders under Package-1.

Figure 3-21: Group Relocation site: Meeting at CEIP Village, Uttar Kamarkhola under Polder-32

Business/Market Relocation of Package-1

Some businessman / shopkeepers have relocated their commercial structures by themselves. Some of them have already been selected the relocation spots/location and hope that they will shift soon. Two Bazars (Mollikerber Madrasha Bazar in Polder 35/3 & Terabeka Bazar in 35/1) have been identified for relocation and LAP/RAP team is continuing motivational effort in these areas. Progress made for March 2019 describes that another market relocation caused to happen at Joynagar Bangar at Polder 32 comprises 6 shopkeepers has made group market relocation.

Since most of the squatters are landless and some of them have arable land only which is not suitable for living. So, squatters are encouraged for purchasing of land with the compensation they are provided. It is also evident that the compensation for structure has been adequately assessed and affected people are apparently satisfied with the compensation amount they get.

Business owners are encouraged for relocating their business concerns in a cluster market at the locations nearby of the affected market. The following photographs shows the new market locations.

CEIP-1

Figure 3-22: Relocation site at Mollikerber Madrasha Bazar in Polder-35/3

Figure 3-23: Market Relocation for Joynagar Bazar at Polder 32

3.1.8 Grievance Redress Mechanism (GRM)

A total **15** Grievance Redress Committees (GRC) have been formed (**1 for each Union**) in four Polders under Package-1 with the representatives of BWDB, Union Parishad, Educational Institution, PAPs, Women representatives and LAP/RAP team. The organogram of GRC is given as follows Table 3-9:

Concern Executive Engineer, BWDB, Convenor

UP Representative Member
Representative of Educational Institution Member
Representative of Women Local Group Member
Representative of PAP Group Member
Representative of IA/LAP-RAP Team Member Secretary

Table 3-9: Organogram of GRC

A total number of **151 complaints/grievances** have been received up to March2019 by GRC in package-1. Among those, **32 cases** have been resolved at the entry level, **114 cases** have been resolved through investigation and formal hearing by GRC. It is to be mentioned here that a total of **05 lodged** grievances have been trying to resolve in entry level by the GRC and necessary actions are continuing by the Member Secretary/ LAP/RAP team and the convener of the GRC. It is mentioned that a new grievance was submitted by Salina Begum on 3rd October 2018 from Polder35/3. The LAP/RAP team, RS of DDCS&PMS Consultant along with XEN-CEIP-1, BWDB and SS & SRS of PMU reviewed the status of Salinas grievance and a final report was submitted on 20th March 2019 but further queries has been asked by the PD office to be described and cleared in the

CEIP-1

Page 22 of 121

report and accordingly the LAP/RAP team is working to fulfill the requirements for preparing the final report in compliance to the PD queries.

Table 3-10: The status of complaints/cases received and resolved by GRC

| SL No. | District | Polder no | Total Complaints/ cases | Resolved at entry level | Resolved by GRC | Newly lodged Grievances |
|-----------|---------------|--------------|-------------------------------|-------------------------|--------------------|-------------------------------|
| 1 | Khulna | 32 | 45 | 14 | 29 | 02 |
| 2 | Khulna | 33 | 14 | 8 | 06 | 0 |
| 3 | Bagerhat | 35/1 | 25 | 6 | 19 | 00 |
| 4 | Bagerhat 35/3 | | 67 | 4 | 60 | 03 |
| | | Total = | 151 | 32 | 114 | 05 |

BWDB and RAP team maintain records in detail about the complaints, procedures and the resolutions adopted in a register including intake register, resolution register and closing register followed by the policy of the RAP. Information to be noted here that some EPs are lodging the court case will fully and LAP/RAP team have been working for resolving the cases i.e collection of court case paper from the court, purchasing the advocates copy, answering the court hearing, cooperate the advocates by providing the required information etc. Sad to inform that much unseen cost has been consuming for this purpose but it is being very hard for the LAP/RAP team to afford such cost since no adequate budget for the purpose. The team is soliciting the cooperation and support from the concern office. Hence the team is trying to resolve the matter with the XEN.

3.1.9 Consultation and Participation (Citizen Engagement)

Consultation meetings are the best resolutions to bridge the gap between the APs and the primary stakeholders of the project (donors, acquiring and requiring bodies, implementing agencies etc.). Project beneficiaries and affected communities can participate directly in consultation meetings.

DDCS&PMS Consultants have been reporting community participation in the progress report in 3.1.5.5 as Focus Group Discussion mainly in Package-2: Accordingly, **227** focus group were formed in package-2 and a total **1008** FGD meetings were held till March 2019.

Regard to consultation meeting on social issues, consultation meetings as per need have been conducting by the DDCS&PMS Consultants along with the PMU experts. For example, similar consultations were organized in four Polders under package -1 in August2018 too which reported in this monthly progress report. The main objectives of those consultations were as follows:

The main Objectives of this meeting are as follows:

- > Spot resolutions for removable of obstacles to start or run construction/civil works.
- > To identify the challenges faced by the titled EPs to receive the compensation from the concerned DC offices against acquired properties.
- > To provide more clarification about the submission of necessary papers document required to submit the DC offices for receiving the compensation money.
- To find the solutions and provide proper guidelines and assistance for preparing the required documents.
- To help the Titled EPs and concerned DC offices to expedite the compensation procedures.
- > To build awareness about Environment and Social Safeguard Issues of CEIP-1 project.
- > To cooperate DC office and titled EPs.

During the month, numerous informal consultation meetings were held among DDCS & PMS Consultants, LAP/RAP Team, BWDB local affected beneficiaries and local government representatives both in package-1 and package-2.

Progress Report No. 47 - March 2019

HaskoningDHV

CEIP-1

3.1.10 Status of Land Acquisition of Package-1

The possession of land **116.57 ha** has been received for Polder-32, 33, 35/1 and 35/3. An additional Land Acquisition Plan (LAP) was submitted to the DC, Khulna & Bagerhat under Polder-33 & 35/1. A total of 14.46 ha lands are pending for procession received which is total 11.12 ha land of Polder 35/1 against three mouza (Kumarkhali, Rayenda & Sharankhola Mouza) & 3.34 ha lands of Polder 33 against one mouza (Banishanta). The proposal for 3.34 ha land in Banisanta mouza has already approved by MoL. Preparation of the final estimate of 3.34 ha. is under process with the D.C. Khulna. On the other hand, in Polder-35/1, due to recent river erosion & technical reason (shifting the alignment in the Sharankhola mouza in Bagi area). Consequently, total 6.93 ha land will be submitted to the DC office, Bagerhat though XEN, BWDB, CEIP-1, Khulna. Status of land acquisition for four Polders under Package-1 is furnished below.

Table 3-11: Status of land acquisition for four Polders under Package-1

3.1.11 Land Acquisition for Package-2

The land acquisition proposal for six polders under Package -2 of 154.93 ha. has been submitted to concern DC (Pirojpur, Jhalokhathi, Barguna and Patuakhali) for acquisition. In the meantime, **139.18 ha** land has approved by MoL for polder 39/2C, 40/2, 41/1, 47/2 & 48. BWDB has been placed fund against CUL to DC, Pirojpur for Polder 39/2C (5 nos. of LA cases), Polder-40/2 (2 nos. of LA Cases) and Polder-41/1 (6 nos. L.A Cases). For Polder-43/2C, issuance of notices U/S-4 for 10 Mouzas has completed and waiting for issuance of notices U/S-4 for one Mouza. Preparation of final estimate for 39/2C (Jhalakati) is under progress. The status of land acquisition for Package-2 is furnished in the following table.

Table 3-12: Status of land acquisition for Package-2

3.1.12 Updating of RAP for Package-2

3.1.13 Preparatory Activities

RAP for Package-2 has been concurred by the World Bank and is being updated based on final Land Acquisition Plan (LAP). The IoL has been updated based on final Land Acquisition Plans. A total of 6693 entities have been identified of whom 1777entities are titled and 4757are non-titled on Government land (squatters) which may fluctuate, 195 unit are identified as community properties and **59** as other institutions will be affected. A total of **864** tenants have been identified among them 801 are commercial and 63 are residential HHs. Moreover, 386 wage labours have also been identified as affected in commercial premises. It is to be noted that the number of 159 nos. of EPs has been deducted from recent survey and technical reason by field verification jointly by the DDCS & PMS Consultant along with LAP/RAP team. The Polder wise number of Entitled persons is shown Table 3-13 below:

3.1.16 Relocation Status of Package-2 after compensation payment of First Indent

Following the payment of compensation against the 1st indent the affected people started relocating their structures by their own choice. It was disseminated to the people that if the affected people show their willingness for group relocation, the project will provide some support through civic amenities like construct entrance way, sanitary latrines and tube well etc. BWDB concern and DDCS&PMS Consultants have been encouraging the AP for group relocation so that there will be little chance to come back on the embankment. But in most cases, the affected people have been showing different opinions for individual relocation instead of group relocation. The progress has shown that a total 1597 has relocated till March 2019. Cluster relocation made by 124 EPs comprises in the 5 different places (3 in Pochim Kuakata and 2 in Khajura) in polder-48. The status of relocation has given below in Table 3-17 after the first indent payment made:

- The majority (49.35%) EP has relocated on their own land;
- 7.22% on newly purchased land;
- 10.77% EP has replaced to relative's or others' land;
- 20.30% have been relocated temporarily at nearby area;
- About 4.49% of the paid EPs are yet to be relocated from the ROW.
- About 7.87% made group relocation
- No market relocation made so far.

Dev Con Leading Today for Tomorrow

3.1.20 Grievance Redress Mechanism (GRM)

A total **21** Grievance Redress Committees (GRC) have been formed (1 for each Union) in six Polders under Package-2 with the representatives of BWDB, Union Parishad, Educational Institution, PAPs, Women representatives and LAP/RAP team. The organogram of GRC is given as follows Table 3-21:

Table 3-21: Organogram of GRC

| Concern Executive Engineer, BWDB, | Convenor |
|---|------------------|
| UP Representative | Member |
| Representative of Educational Institution | Member |
| Representative of Women Local Group | Member |
| Representative of PAP Group | Member |
| Representative of IA/LAP-RAP Team | Member Secretary |

A total number of 45 complaints/grievances have been received so far up to March 2019 by GRC. 25 cases of them have been resolved at the entry level and remaining 20 cases are pending for investigation and formal hearing by GRC. Table 3-22 shows the status of complaints/cases received & resolved by GRC.

Table 3-22: The status of complaints/cases received and resolved by GRC

| SL No. | District | Polder no | Total Complaints/cases | Resolved at entry level | Under investigation and hearing by GRC | Resolved by GRC | Newly lodged Grievances |
|-----------|------------|--------------|---------------------------|-------------------------------|--|--------------------|-------------------------------|

| 5 | Kalapara | 48 | 0 | 0 | 0 | 0 | 0 |
| | Total = | | 45 | 25 | 20 | 0 | 0 |

BWDB and RAP team maintain records in detail about the complaints, procedures and the resolutions adopted in a register including intake register, resolution register and closing register followed by the policy of the RAP.

3.1.21 Focus Group Discussion for Package-2

Focus Groups (FG) formation was targeted based on the number of HHs in the respective Polders. According to the plan **227 numbers of focus group** were formed in 6 Polders under Package-2. A total of **994 focus group meetings** have been held with resolution. Some of the groups have been met twice or more. The table here below shows the status of formation and number of discussions or meetings held.

Table 3-23: Status on FGDs as of March 2019

| Polder No. | FGD Target | FGD Formation | FGD Meeting | During March 2019 | Total Achievement |
|------------|------------|------------------|-------------|----------------------|----------------------|
| 1 | 2 | 3 | 4 | 5 | 4+5=6 |
| 39/2C | 32 | 32 | 74 | 0 | 74 |
| 40/2 | 57 | 57 | 222 | 0 | 222 |
| 41/1 | 38 | 38 | 183 | 0 | 183 |

3.1.22 Distribution of Information Brochure and GRM Leaflet of Package-2

Information booklet in Bangla is a useful tool to disseminate information among the PAPs to their convenience. All necessary information about land acquisition, necessary documents relevant to land ownership, compensation package, resettlement policy, entitlements and eligibility of entitlements, grievance redress mechanism, etc. have been explained in the information booklet. Distribution of GRM leaflets has since been started among all EPs and the concerned stakeholders.

3.1.23 Database Preparation of Package-2

Computerized datasheet on household information and on the number of structures by category has been sent to Package-2 Polders for further checking and verification before generation of tables for updating of the RAP. Database is being updated based on the field level verification. PAVC will recommend unit rates of affected structures based on the recommended rates on individual entitlement of each squatter which will be inserted in database.

3.1.24 Formation of PAVC & GRC Committee Package-2

A Social Management and Resettlement Policy Framework (SMRPF) for the project and a Resettlement Action Plan (RAP) for Package-2 has been adopted. In this regard, a Property Assessment & Valuation Committee (PAVC) and Grievance Redress Committee (GRC) have been formed for the Polder-39/2C (Pirojpur+Jhalokati), 40/2 (Borguna), 41/1 (Borguna), 43/2C (Patuakhali), 47/2 (Patuakhali) and 48 (Patuakhali).

PAVC rate for polder 40/2, 41/1, 43/2C, 47/2 & 48 have been approved by the PD. But rates yet to be fixed for 39/2C and PAVC meeting for Polder- 39/2C will be held soon. The Table 3-24 below stated the current progress of PAVC activities of Package-2.

| Polder No. | Formation of PAVC Committee by PD (Date) | PAVC meeting date for fixation of rate | Number of Meeting | Status of Rate Fixation | Approval by BWDB |
|---------------|---|--|-------------------------|-------------------------------|---------------------|
| 39/2C | 5/10/17, 5/10/17 (Pirojpur & Jhalokathi) | 0 | 0 | 0 | 0 |
| 40/2 | 27/3/17 | 29/11/17, 24/01/18,26/04/18 | 3 | Rate fixed | Approved |
| 41/1 | 27/3/17 | 29/11/17, 24/01/18,26/24/18 | 3 | Rate fixed | Approved |
| 43/2C | 11/6/17 | 18/02/18,7/5/18 | 2 | Rate fixed | Approved |
| 47/2 | 17/5/17 | 20/9/17, 3/12/17 | 2 | Rate fixed | Approved |
| 48 | 17/5/17 | 20/9/17, 3/12/17 | 2 | Rate fixed | Approved |

Table 3-24: Status of up to date progress of PAVC activities of Package-2

3.1.25 Video Filming of Affected Properties for GRC and PRAC

Video filming of the affected properties within Right of Way (RoW) along the alignment of the Polders-39/2C, 40/2, 41/1, 43/2C, 47/2 and 48 of Package-2 has already been completed. The video filming was captured just on completion of the IoL survey and latest field update. Dates of capturing video filming are visible in the DVD that will help the GRC to make decision if there is requirement/necessity of further investigation during GRC, PRAC and PAVC process. These will be visualized by the PAVC and GRC to review the lost property as well as to prevent fraudulent claims in future by the affected peoples.

3.1.26 Devised ID number of the Non-Titled EPs

A Polder-wise ID numbering formula for all non-titled affected persons has been devised by Computerized Management Information System (CMIS). The procedure is that all affected persons (APs) would be photographed with given ID number and the photo would be pasted on their ID cards. ID number for 4,916 entities (squatters, tenants, wage labours etc.) have been devised.

askoningDHV

3.1.27 Preparation of EIA

The EIA of 4 Polders under Package-1 were completed during the study period and duly been approved by the competent authorities including World Bank. The said EIA reports were updated based on final Land Acquisition Plan (LAP) which were also approved by the competent authorities including World Bank. The said EIA reports are being under implementation in Package-1.

3.2 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package- 2 Polders

3.2.1 Data processing & reviewing the shop drawings

Immediately after the completion of each day's survey work, the raw data is submitted to the DRE. Then the raw data is processed to check the quality by using the field log sheet. The shop drawings of embankment and khals are also verified with the received raw data/field log sheet and reviewing the proposed alignment before giving final approval.

3.2.2 Design status

The status of the designs is presented below.

Notes:

- (*) The contractor shall prepare design and final drawings for each closure and submit to the Engineer for approval.
- (**) Typical Gate Design prepared for these polders
- (***) The design of Flood Wall will be decided after field verification by concerned Design Office & Consultants.

Page 33 of 121

3.3 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package-3 Polders

3.3.1 Design

The Design Parameters were obtained from IWM in the month of March 2018 which were concurred by the Superintending Engineer, Design Circle-5 in the month of September 2018. By this time, the Design of Embankments of 7 Polders and Drainage Cum Flushing Sluices have been prepared and submitted to the Design Circle-5 BWDB, Dhaka for approval. The design of Embankment of 7 Polders and design of 4 Drainage Sluices of different vents have been approved by the Design Circle-5 by this time and the remaining designs are under preparation.

3.3.2 Bidding Document

Some sections of the Bidding Documents have been advanced and waiting for the preparation of BOQ as the design and drawing of some components are yet to be completed.

3.3.3 RAP Preparation for Package-3

laskoningDHV

After the accomplishment of the map of alignment fixing by the concern of BWDB and Consultants, the LAP/RAP team has completed the Household (HH) numbering and IoL survey have done in all seven Polders (Polder-14/1, 15, 16, 17/1, 17/2, 23 and 34/3) under Package-3, CEIP-1. A total of 20 community consultation meetings were conducted in 15 different locations in all Polders of Package-3. Resettlement Action Plan (RAP) is already submitted by the LAP/RAP team to the concern authority. Now it is under review by DDCS & PMS Consultants and PMU.

Progress Report No. 47 - March 2019

CEIP-1

DHI

3.3.4 LAP Preparation for Package-3

The LAP/RAP team has been working for finalization of Land Acquisition Plan and Resettlement Action Plan in Package-3 under CEIP-1. The LAP/RAP team has collected records and information on previously acquired land for seven Polders (Polder-14/1, 15, 16, 17/1, 17/2, 23 and 34/3) from concerned O&M Divisions of BWDB and the concerned DC offices (Khulna, Shatkira and Bagerhat). Mouza Maps have also been collected from the office of Director, Land Records, Tejgaon, Dhaka and the DC office Khulna, Shatkira and Bagerhat. Almost all Mouza Maps of seven Polders have since been procured. In the meantime, LAP/RAP team has submitted the draft LAP for all polders to XEN, CEIP-1, Khulna through DDCS & PMS Consultant and PD office for cheeking & verifying as per Terms of Reference (ToR) of Acquisition & Requisition of Immovable Property Act 2017. The XEN, BWDB, CEIP-1 Khulna issued a letter for some queries on LAPs and LAP/RAP team is working on the requirements. The progress of package-3 is shown below:

| | | F | Progress of L | AP preparatio | n | Resettler | nent Activity | |

Table 3-27: Update Status of Package-3

Task C: Supervise Construction & Administer Contract of Package-1 3.4

3.4.1 Introduction

The Progress report covers the events up to 31 March 2019. The contact Package-1 was signed on 01-10-2015 for the execution of Rehabilitation/ Reconstruction and Upgrading of Polder-32; Polder-33; Polder 35/1 and 35/3 under Package-1. The date of formal commencement of work was on 26 January 2016.

The contractor submitted the administrative work and has affected necessary site visit to establish the dossier for 5% advance Payment and take possession for sites. Contractor has received the full advance payment and first instalment has been spent to purchase machineries and equipment in China; Chinese engineers and supporting personnel have mobilized and the same is true for the recruitment of local labour; facilities and buildings (some completed) are under construction now. Total expenditure incurred up to IPC-16 is BDT 4233.82 million including mobilization advance. The value of the IPC-16 is BDT 158.61 million. Construction of 30 nos. Drainage Sluices out of 38 nos. has already been completed, 8 nos. drainage sluices are going on. 1 no. Drainage sluice is suspended due to vulnerable situation of Baleshor River from November, 2016. Out of 29 nos. Flashing Sluices 18 nos. have been completed, 11 nos. are in progress. Embankment works of different Polders are (completed 109.68 km and partially completed 51.49 km) also going on. Construction of C.C blocks are going on for the bank/slope protection work.

Total nos. of Flushing sluice to be repaired as per contract was 30 nos. out of which 15 nos. has been dropped those are reflected in detailed in Table 3-43 and Table 3-44 below:

Table 3-43: Information of Repair of Flushing Sluices and Drainage Sluices

| SI No. | Name of Polder | Total Nos. as per Contract | Current Status | Total Dropped | Remarks |
|-----------|-------------------|-------------------------------|-------------------|------------------|--|
| 01. | Polder-32 | 20 nos. | 6 Nos. | 14 Nos. | Mostly fallen outside of the retired embankment. |
| 02. | Polder-33 | 5 Nos. | 4 Nos. | 1 Nos. | As it has been constructed by the local shrimp culture owners, |
| 03. | Polder-35/1 | 3 Nos. | 3 Nos. | 0. | Due to unrepairable |
| 04. | Polder-35/3 | 2 Nos. | 2 Nos. | 0 | - |
| | Total = | 30 Nos. | 15 Nos. | 15 Nos. | |

Remaining (30-15) = 15 nos. are in the program out of which 3 nos. have been completed and 9 nos. are in progress and remaining 3 nos. are not yet started for want of data which are supposed to be supplied by the contractor.

Total 2 nos. of Drainage Sluices under repair have in program and the work of which are in progress and will be completed by June 2019.

Table 3-44: List of Flushing Sluices Dropped from the repairing Program

| Flushing Sluices | Reasons for dropping |
|---------------------|--|
| Polder 32 | |
| FFDFR-01 | Not repairable |
| FS-04 | Not repairable |
| FM-01 | Not repairable |
| FM-02 | Sluice is now in no use. |
| FM-07 | No need repair, connected with the private pond. |
| FM-11 | No need repair, connected with the private pond. |
| FM-12 | Sluice could not be identified. |
| FO-02 | Outside the Rtd. Embankment |
| FO-03 | Not repairable |
| FO-04 | Outside the Rtd. Embankment |
| FO-05 | Outside the Rtd. Embankment |
| FO-06 | Outside the Rtd. Embankment |
| FH-09 | Engulf due of river erosion. |
| Polder 33 | |
| FS-02 | Private structure, repair not needed. |
| FS-18 | Private structure, repair not needed. |

3.4.7 Emergency Works in Package-CEIP-1/W-01

The emergency works under this Package have taken up to close the breaching of existing embankment at some vulnerable locations. The main target of these emergency works was to stop the intrusion of saline water into the Polders to save the crops. In the Contract, there was a provision for an amount under Environmental Mitigation Works (Specified Provisional Sum). After exhaustion of the above-mentioned amount to meet up the cost of the rest emergency works, the expenditures are being meet up from the Physical & Price Contingencies. The status of expenditure up to January 2019 are shown below:

Table 3-45: Summary of Emergency works under the head of "Environmental Mitigation Works"

| SI. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|-----|----------------|--------------|---------------------------|
| 01 | Polder-32 | 4.187 | 21,314,699 |
| 02 | Polder-33 | 1.454 | 8,616,598 |
| 03 | Polder-35/1 | 0.941 | 7,981,316 |
| 04 | Polder-35/3 | 1.04 | 2,078,530 |
| | Total = | 7.622 | 39,991,142 |

Total available budget as per contract: BDT: 40,000,000.00

Table 3-46: Summary of Emergency works under the head of "Physical & Price Contingency"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) |

3.4.8 **Field Visit observation**

A field visit was conducted between 24.03.2019 to 28.03.2019 in the 6 Polders of Package-2, CEIP-1 areas for monitoring of the status of Environment Health and Safety (EHS). The visit was concentrated in the ongoing work sites mainly.

During the field visit various discussion on the existing EHS issues were made with the Contractor's EHS Officers (both Chinese and local) on deviation of various compliances and required level of quality compliances thereof. They have also been provided with a short in-house training for the proper implementation of EHS issues. They were also requested to initiate the non-complied EHS issues for improved EHS compliance.

During visit discussion was made with the construction workers on necessity of maintaining environment, health and safety standard during working and requested them for maintaining the quality as required.

The observation of EHS quality at the visited work sites are as follows:

Polder 43/2C: Date of visit 25.03.2019

In Polder 43/2C, work started in DS-7 since about 2 months, where a Chinese EHS officer was available at work site, although no local EHS Officer was found to be present.

- The workers have few PPE (like helmet, visible vest mainly, with few with hand gloves), lacking in safety boot and mask. A few workers will need supply and use of eye glasses.
- Some cautionary sign board/ signages found to be erected at and around the work site.
- The fencing was found to be poor and need improvement immediately.
- Supply of safe water to the workers was poor and need to improve the situation and there was no provision of first aid facility
- There is lack of provision of bins for collection of waste.
- There is lack of conducting regular tool box talking prior to start of work.
- · Discussion was made with Contractor's personnel including the Chinese EHS Officer on the various requirements for improve the EHS standard ASAP. Discussion was also made with the workers on various issues related to EHS

Polder 47/2: Date: 25.03.2019

Drainage Sluice-1 and Drainage Sluice-2

The EHS situations in Drainage Sluice-1 and Drainage Sluice-2 are quite poor and similar in compliance level as found as follows:

- The workers have lacking of PPE at work site most have no safety shoe and mask
- There is lacking of medicine in the first aid box.
- The fencing of work site is inadequate
- The generator has been mounted on concrete surface to check any fuel spillage causing pollution of soil and ground water
- There is lacking of signboard and signages in and around the work site.
- Medicine supply to the first aid box is inadequate.

Discussion and training on improvement of EHS quality was provided to the Chinese EHS Officer (Mr. Xiao) and the local EHS Officer (Md. Heron), in presence of Polder manager (Mr. Wang). The following EHS issues were discussed:

- · Proper fencing of work site
- Provision and use of PPE during work
- Provision of adequate signboards and signages
- · Placement of electrical cable on overhead

- Placement of generator of generator on metallic/concrete surface
- Provision of bins for proper disposal of waste (proper segregation)
- Proper drainage facility for the work site

Discussion was made with the workers for enhancing awareness for improved EHS compliance.

Polder 48: Date of visit: 26.03.2019

Visited Drainage Sluice-1 (3Vent), CC block manufacturing site (manual) and Flushing Sluice-1 The general EHS compliance are,

- Work site fencing need improvement
- Safe bottled water supplied, need supplying more regularly
- There is first aid facility, need regular supply of required medicine
- Electrical cables need to be kept overhead
- PPE supplied, need further improvement for safety shoe and hand gloves
- There is hygienic latrine for the workers
- Generator has some spillage of fuel, need to be placed on hard stand.
- Sufficient bins to be supplied for proper waste collection.
- Tool box talks are carried out, need to held it daily, before start of work

Discussion with contractor's personnel including Chinese EHS Officer (Mr. Miqi) and Local EHS Officer (Mr. Zohirul Islam) carried out for improvement of the EHS compliance level immediately. Moreover, discussion with the workers was also done for motivating them for improved level of EHS compliance.

Polder 41/1: Date of visit: 26.03.2019

Visited the camp site, where Chinese and local project related personnel reside and some construction related materials are stored. The area is well protected and have sanitation facility, fire extinguishing facility, drainage facility has security guard at entrance and proper accommodation facility. However, the camp lacks proper waste collection and disposal facility. There is no disposal facility for organic waste, and the toilets lack proper door system.

There are fire extinguishers kept covered to check damage by sunshine/rain; the workers need to carry out practice on fire extinguishing frequently

The Contractor has been requested to take proper action of the poorly complied issues within specified agreed time limit.

Visited Drainage Sluice-5 (4 Vent) and observations are as follows:

- The work site has proper fencing around
- The workers have PPE in general, although there is lack of mask for them
- There are required signboards at diversion road, although the diversion road need to be further improved
- · There is a temporary shed for the workers, where safe drinking water and first aid facilities are maintained
- The accident register is found updated
- The toilet roof damaged by recent high wind need to be repaired immediately (3 days' time)
- Tool box talks are held before the start of work, but they need to carried out every day regularly

Polder 40/2: 27.03.2019

Visited Drainage Sluice-3 (1Vent) and the observations are as follows:

- The workers have PPE including helmet, visible vest, hand gloves, safety shoe, but lacks in ear
- Signboards with signages available in general although some more to be erected
- · Drinking water and first aid medicine available at site, although some medicine need to be replenished regularly
- The existing fencing seems poor, need to improve immediately
- Tool box talks are held irregularly, need to be held every day before start of construction work
- Electrical cables to be kept overhead to avoid any accident
- Generator yet to be established, requested to establish the generator on concrete surface to avoid pollution through spillage
- The waste management is poor, need to take action for proper collection and disposal. A ditch to be opened for management of organic waste.

In addition, it was observed that the camp site of Polder 40/2 has no security fencing around it creating security vulnerability of workers and materials stored.

Discussion was made with the Contractor's personnel for improvement of above EHS issues within a short period and they agreed that they will improve the EHS compliance between 1-7 days period.

Discussion was also made with the workers to train and motivate them to maintain various EHS measures during work.

Polder 39/2C: Dated 27.03.2019

Visited Telikhali automated CC and Nadmulla CC automated CC plant and following are observation on EHS compliance level:

Telikhali Automated CC plant

- The area is well fenced and has adequate signboard/signages
- The work site has gate with guardsman for entrance and exit
- The generator causes some spillage of fuel, to be placed on hard surface to check spillage. The polluted soil to be removed immediately and disposed safely
- The workers have adequate PPE including helmet, hand gloved, high visible dress, ear plug and safety shoes
- There is adequate supply of safe drinking water and medicine in first aid box
- Waste collection need to be improved, separate bins to be provided for collection of different types of wastes, recyclable, non-recyclable, organic etc. and dispose accordingly
- The hoper side to be fenced to avoid any kind of accident
- The CC plant also need fencing around for workers' safety
- Materials stocking height need to be reduced for avoiding any accident.

Nadmulla Automated CC plant

- There is adequate supply of safe water and first aid facility
- The fuel and lubricants are kept in a closed room with concrete surface and having a Material Safety Data Sheet (MSDS)
- There is erection of various signboards including use of PPE, maximum speed limit etc.
- The welder has security like hand gloves, colored glass etc. but the work site need coverage/roof
- There is fire extinguisher kept covered to check damage by sunshine/rain; the workers need to carry out practice on fire extinguishing frequently

Royal
HaskoningDHV
Leading Today for Tomorrow

- · Some leakage of chemical observed at work site; the containers need to be taken to the hard stand areas immediately and the polluted soil need to be disposed properly/safely
- A fuel room found locked and could not be opened; the key should be always available and the Contractor should remain careful

ESH observations were recorded in the EHS registers maintained in the work sites. The Contractor/EHS personnel were asked to take all required step to improve the EHS qualities. They were also inquired on the time required for improving the EHS issues, which has also been recorded and they have been requested to comply the necessity within the recorded time and report accordingly.

This report of the field visit was shared with the Contractor, Package-2 with a request to improve the poorly complied EHS issues and start complying the non-complied EHS issues within a stipulated period.

3.4.9 **Meetings**

A meeting was arranged on 05 March, 2019 in DDCS&PMSC office for preparing the Bi-annual Environment Monitoring report for the period July to December, 2018, where the Environmentalists of DDCS&PMSC, Third Party M&E Consultant and PMU (Field) were present.

A meeting was arranged on 07 March, 2019 in DDCS&PMSC office for preparing responses of the WB comments on EIA reports of Package-3 Polders, where Environmental Specialists of PMU (field), CEGIS and DDCS&PMSC were present.

Several subsequent meetings have taken place in DDCS&PMSC office for preparation of Bi-annual Environmental monitoring report, preparing responses of the WB comments on various EHS related reports, where the concerned Environmental Specialists were present.

3.4.10 Preparation of Bi-annual Environmental Monitoring Report

Preparation of various chapters on the Bi-annual reports were distributed among the 3 consultants (from DDCS&PMSC, Third Party M&E Consultant and PMU) to prepare and finalize the preparation of the report. After preparation of the Chapters they sat together to exchange required data/information. After the finalization the draft report was sent to Team Leader, 3rd party M&E Consultants for final editing of the report. The final report was submitted to PMU on 24.3.2019.

3.4.11 Submission of EIA Reports of Package-3

The noise levels of automated CC plants at various work sites have been recorded and reported it the following tables. It needs to be mentioned here that the automated CC plants of Rupsha (Polder 32), Pankhali-2(Polder-32) and Mongla were non-functional during the month of May, thus no data on noise was recorded there.

3.4.12 Information on number of workers, number of training etc.

Information on number of workers (local and expatriate), number of environmental trainings (including the number of trainees), number of accidents took place etc. in Package-1 during the month of March, 2019 are provided in Table 3-49 below:

Page 71 of 121

Table 3-49: Information for the month of March, 2019

| Locations | No. of total workers in 4 Polders in this month | | traini trainee | of env. ng and es in this onth | No. of total accidents took place in this month | No. of env. grievance recorded this month | No. of problem faced for env. complianc e in this month | Comments |
|-----------------------|--|---------------------------|-------------------------|---|---|--|---|---|

3.4.14 Information of EHS related Issues of Package-2

The monthly Polder-wise Information on number of workers, number of training, number of accidents etc. for Package- are provided in Table 3-53. The data on noise level as measured during the current month are provided in tables below:

The contractor has made a test to evaluate the intensity of Noise Quality (dB) upon the sensitive receivers around the different CC Block Manufacturing Plant as given below:

Page 73 of 121

Table 3-53: Information for the month of March 2019, Package-2

| Locations | No. of Total Workers in 6 Polders this Month | | No. | environmental trainees in this month | No. of total accidents took place in this month | No. of total environmental grievance in this month | No. of problem faced for environmental compliance in this month | comment |

| Polder 47/2 | 202 | 14 | 2 | 34 | 1 | 0 | 0 | 1 minor finger injury during steel bar work. Sent to local clinic for treatment and got cured within 1 day |
| Polder 48 | 223 | 11 | 2 | 19 | 6 | 0 | 0 | 3 minor injuries on the leg, 2 minor injuries on the hand and 1 minor injury on the head. All sent to local clinic for treatment and got cured within 1 day |

3.4.15 Polder-wise Information and noise measurement data of Polders of Package-2

The contractor has made a test to evaluate the intensity of Noise Quality (dB) upon the sensitive receivers' locations (Plant operator, CC block curing areas, CC block stacking areas, kitchen areas and workers' accommodation areas, fuel storage areas, rod cleaning areas etc.) around the different CC Block Manufacturing Plants of Polder-2 as given below as follows:

3.4.16 Progress of Mechanical Work

About mechanical aspects the following activities were conducted:

Package-1Repair work of bent shafts due to faulty fabrication by the contractor is going on along with installation of wall brackets and replacement of hand wheel in each regulator.

Package-2

Shop Drawings of gates and Hoists approved and sent to the contractor to start fabrication work in China. Pre-Fabrication material test was done at BUET and found in order. Gates and Hoists are being fabricated in China and probable time for shipment of first lot is last week of March, 2019.

3.5 Task C: Supervise Construction & Administer Contract of Package-2

3.5.1 Introduction

This MPR covers all major site activities executed in each Polder up to 31 March, 2019. The Contract was signed 8 March 2017 for the execution of Rehabilitation/Reconstruction and upgrading of six Polders in total, namely Polder-39/2C, 40/2, 41/1, 43/2C, 47/2 & 48 under CEIP-1 (Contract No: CEIP-1/W-02)

The contractor completed the administrative work site visits & dossier for the 5% advanced payment and took possession of sites and the employee has paid the 10% advanced payment to the contractor.

Upon receipt of the first instalment 10% Advanced Payment, the Contractor proceeded with the procurement of goods and services to create the team and physical facilities, equipment and/or tools and started work on site.

3.5.2 Physical Progress (Mile Stone Matrix)

Table 3-59: Physical Works of Package-2 as on 31 March 2019

| Item | Unit | Contract | Progra 2018- | | Prior Cui | mulative | Current | Month | Current Cu | umulative |
|---|------|-------------------|-----------------|------|------------------|------------------------|-----------|------------------------|------------------|------------------------|
| item | Unit | Quantity | Full | Part | Completed | Partially Completed | Completed | Partially Completed | Completed | Partially Completed |
| Embankment Construction/e- sectioning | km | 208.71 | 47.900 | 0.00 | 18.60 (8.89%) | 11.32 (24.08%) | 0.00 | 11.32 (24.08%) | 18.60 (8.89%) | 12.52 (25.12%) |

| Drainage Sluice Construction | no | 50 | 22 | 0 | 0 | 19 (49.19%) | 0 | 19 (49.25%) | 0 | 19 (49.25%) |
| Drainage Sluice Repair | no | 6 | 5 | 0 | 0 | 1 (0.08%) | 0 | 1 (0.08%) | 0 | 1 (0.08%) |
| Flushing Inlet Construction | no | 711 | 17 | 0 | 0 | 15 (60.26%) | 0 | 15 (60.85%) | 0 | 15 (60.85%) |
| Flushing Inlet Repair | no | 8 | 8 | 0 | 0 | 2 (0.13%) | 0 | 2 (0.13%) | 0 | 2 (0.13%) |
| Embankment Slope Protection Work | km | 9.48 | 1.80 | 0.00 | 0.74 (7.78%) | 0 | 0.00 | 0 | 0.74 (7.78%) | 0 |
| River Bank Protection Work | km | 4.92 ² | 2.95 | 0.00 | 0.63 (11.67%) | 0.00 | 0.27 | 0.00 | 0.90 (20.36%) | 0.00 |
| Construction of Road Pavement | Km | 51.00 | 0 | 0.00 | 0 | 0 | 0 | 0 | 0 | 0 |
| Construction of RCC Flood Wall | Km | 17.00³ | 0 | 0.00 | 0 | 0 | 0 | 0 | 0 | 0 |
| Closure Dam Construction | no | 8 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |

³ The actual contract quantity will be set to zero because RCC Flood Wall is not required and not also included in the Revised DPP.

¹ The quantity has been adjusted as compare to the previous MPR based on the re-calculation. The value was 73.

² The quantity has been adjusted as compare to the previous MPR based on the re-calculation. The value was 5.40.

3.5.3 Advance Payments

The contractor has received 2nd instalment of 5% Advance Payment having Total expenditure incurred against advance payment is BDT: 1028.40 M.

The site works of Package-2 are going on with sufficient machineries and equipment.

Contractor of Package-2 has mobilized its Chinese engineers and supporting personnel and its local labour force and this will be increasing onward. Shipment of heavy equipment at all sites from China has mainly been done. The deployment list of contractor staff (Chinese People) is appended below in Table 3-71. The Contractor has established their site offices at Bhandaria, Kalapara, Barguna, Patharghata and their field head quarter at Patuakhali.

Table 3-71: Contractor Staffs available in Package-2

| SN | Description | Total Nos. | Dhaka | P'khali | Polder- 39/2C | Polder- 40/2 | Polder- 41/1 | Polder- 43/2C | Polder- 47/2 | Polder- 48 |

3.5.4 **Equipment mobilization**

Equipment including, machines, tools, barges, etc. have been purchased and deployed at site. Equipment including Excavators, Dump trucks, Rollers, Pay Loaders, Automated CC Block manufacturing plants and Tippers are at site.

The target of the 1st dry season is to manufacture CC block in connection with River Bank Protection work. Thus 5 nos. automated CC block manufacturing Machines are installed at the CC blocks manufacturing Yard in Polder-39/2C. Some CC block will also be manufactured manually, for which CC block manufacturing started in Polder-40/2, Polder-41/1, Polder-47/2, & Polder-48.

A length of 18.60 km full and 12.52 km Partially Embankment Re-sectioning work has been completed.

Construction of 15 Nos. Flushing Sluices and 19 Nos. Drainage Sluices are in Progress.

3.5.5 Plans for execution of works

The contractor was advised to proceed with the top priority set of civil works, namely all bank protection works across four Polders (Polder-39/2c, 41/1, 47/2 & 43/2C) during the dry sessions 2017-2020. As per the rate of progress of land availability and land acquisition plans, it is noted that a part of the land acquisition at five Polders (except the Polder-39/2C) does not pose any problem. Execution of re-sectioning work of existing embankment is partially completed for the first dry season 2017-2018 along the alignment of BWDB's acquired Land.

Program for April 2019

Polder-39/2C:

CC block manufacturing yard 1: (A) at Nazmula

To manufacture monthly scheduled 100, 000 Nos. Of CC blocks of 400 x 400 x 400mm;

CC block manufacturing yard 2: (A1) at Charkhali

To manufacture monthly scheduled 50,000 Nos. Of CC blocks of 400 x 400 x 400mm;

CC block manufacturing yard 3: (B) at Talikhali

To manufacture monthly scheduled 100, 000 Nos. Of CC blocks of 400 x 400 x 400mm;

Other Construction

To complete railing of DS-12;

- To complete Construction of DS-07.
- CC Blocks dumping: 350,000 nos.

Polder-40/2:

- To complete railing of FS-4/1.
- To cast CC Block
- To progress the Construction of embankment from Km 6.650 to Km 7.500 & km 9.00 to Km 13.00.
- To progress the construction work of DS-2, DS-3, DS-4/5, FS-9 & FS-10.

Polder-41/1:

- To cast CC Block.
- To complete railing of FS-08, FS-09, FS-15.
- To progress the construction work of DS-1, DS-5, DS-6, DS-7, DS-8, DS-9, FS-1 & FS-3.
- To complete the excavation of Napit Khali Khal.

Polder-43/2C

- To progress the re-sectioning work of embankment from km 0.700 to km 5.000.
- To start the construction work of FS-1 (A).
- To progress the work of DS-7
- To start the excavation work of drainage channel

Polder-47/2:

- To complete operating platform & railing of FS-1, FS-6, FS-7.
- To cast CC Block.
- To progress construction work of DS-1, DS-2, DS-3 & DS-4.
- To complete the excavation work of Dhankola Khal & Piarpur Khal.

Polder-48:

- To complete railing of FS-4.
- To cast CC Blocks
- To progress the construction work of DS-1, DS-3/2, DS-3/4, FS-1 and FS-3
- To progress the re-sectioning work of embankment from Km 16.000 to Km 17.50 & Km 34.000 to Km 34.60
- To start slope protection, work of sea dyke.
- To complete the excavation work of Charchapli Khal & Kaliapara Khal

Other structures and embankment works are to be started very soon of 2018-2019 and 2019-2020. Site activities on all structures will through first, second and third dry season. The majority of the sites works are scheduled during these three main dry seasons.

HaskoningDHV

Page 93 of 121

3.5.6 Construction of Regional of Building at Patuakhali and others building at Kalapara and Pathorghata

Regional office building at Patuakhali: Contractor has prepared a detailed design of the Regional Office Building at Patuakhali which has been submitted to PMU and approved by PD, PMU, CEIP-1. Approved detailed design has been sent to the contractor to start the building at Patuakhali. and the contractor has been issued a letter to commence construction. The Contractor has started the mobilization for construction of Regional office building.

Vertical Extension of BWDB's existing office building at Kalapara: The Building has been completed and handed over to the competent authority.

Rest house re-construction at Pathorghata: The process for Re-construction work of Rest House was taken up in due time but kept postponed as per verbal instruction of the Employer. The construction work of Boundary Wall is in progress.

Laboratory Building at Patuakhali: The building has been completed and handed over.

3.5.7 Emergency works in Polder-40/2, 41/1, 47/2 & 48:

Emergency work in Polder-40/2 (km 12.92 to km 12.989, km 13.215to km 13.411 and km 13.992 to km 14.077: cost BDT 2.795 million): Earth work in connection with emergency Ring-dyke Construction in polder-40/2 along the alignment of the damaged embankment is completed.

Placing of Geo-textile bags on the river side slope of Ring-dyke to protect the slope from wave action is completed.

Emergency work in Polder-41/1: (km 5.139 to km 5.189: Cost BDT 0.585 million) Dumping of earth filled Synthetic bag along the river side slope of the damaged embankment in Polder-41/1 has been completed.

The contractor collected some Geo-textile bags at site for placing on the river side Slope of embankment but the test result of the Geo-bag did not satisfy the Specification Criteria. Contractor has been instructed not to use those Geo-bags. Over all progress is 100%

Emergency work in Polder-47/2: (km 6.168 to km 6.618): Backing of the Embankment by earth filling is completed. Subsequent wave action needed additional temporary protection by sand filled Geo-bags and palasiding works, which has been completed.

Emergency work in Polder-48: (Km 31.060 to km 31.220; km 31.280 to km 31.408; km 34.305 to km 34.525): Sea dyke slope protection work by Geo-bag, Gunny bag, Bullah, Bamboo etc has been completed.

3.5.8 Finance (Invoices) Contractor Package-2

IPC-01 of Contractor package-2 concerned the first instalment of the 5% Advanced payment and was paid on 28 June 2017.

IPC-02 concerned the second instalment of the 5% Advanced payment which was recommended by the Engineer and was paid by the Employer on June 2018

IPC-3 was recommended by the Engineer and paid by the Employer on 20 June 2018

IPC-4 was submitted to the Employer on 29th October 2018 by the Engineer with recommendation for payment.

IPC-5 was submitted to the Team Leader on 27 December 2019 and it was sent by the Engineer to Employer on 10 January 2019 with recommendation for payment.

IPC-6 has been submitted to the Team Leader on 28 February 2019 and the IPC is under review at the Consultants office.

The Contractor has proceeded with procurement of goods and services to create the team, physical equipment and tools to start the work.

3.5.9 Contract Modifications

No contract modification is foreseen for the entire duration of the Contract Package-2.

3.5.10 S-Curve of Package-2

The revised work program has been submitted by the Contractor in October 2018. The revised work program has been reviewed by the Consultants and sent to PMU. The S-curve has been prepared based on the revised program and the same has been incorporated in the Monthly Progress Report of March 2019.

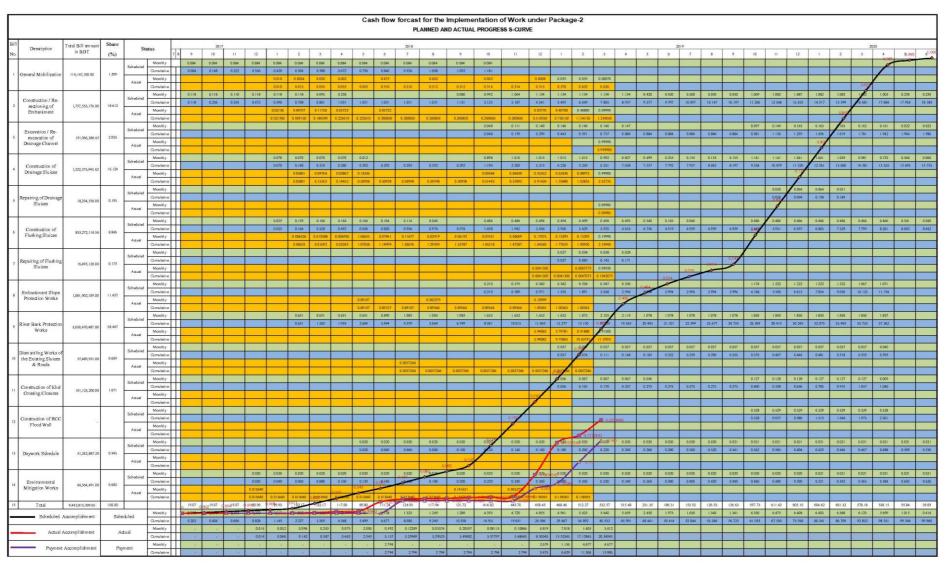

Figure 3-73: S-Curve for Package-2

CEIP-1 Progress Report No. 47 - March 2019

3.5.11 RAP implementation

See sections here above, Package-2.

3.5.12 LAP implementation

See sections here above, Package-2.

3.5.13 Progress on Purchase of vehicles

Purchase of Vehicle (Pkg-2)

- a) Three number Cross Country Vehicle have been procured and delivered to the PD.
- b) Two number Pickups and five number Motor Cycles have been procured and delivered to the field.

3.6 **Task D: Project Management Support Services**

3.6.1 Financial Projection

No data yet were established to show financial disbursements. The preparation of October need stakeholders' discussions/deliberations to determine the figures and numbers. Disbursements of funds for IPCs are well-known and the planned future disbursements depend on the work plan works scheduling. IPC is submitted when the monetary value of the works done over a new period reaches a threshold value (percentage of the contract value). In general, during a good construction season, each IPC amount of every month to be minimum US\$ 3.01 Million and US\$ 8.29 Million for Package-1 & Package-2 respectively considering extension of time up to June 2020 for Package-1 and completion time June 2020 of Package-2 (accelerated program).

The Contractors have submitted the S-curves of Package-1 & 2 based on the revised work program, hence the financial projection has been reflected in the MPR of March 2019. The next IPCs are, however, expected by April 2019 for both packages.

Monthly Forecast of Payment of Package-W-02:

Table 3-77: Tentative forecast of Payment of Package-2

| IPC | Month of | Forecast Value of | Remark | | |
|--------|------------|-------------------|---|--|--|
| No. | Submission | IPC | | | |
| | Oct. 2018 | 252,984,708.63 | IPC No. 4 was submitted with the value of BDT: | | |
| | | | 252,984,708.63 which was reviewed by the | | |
| | | | Consultants and sent to PMU. The Project Director has | | |

HaskoningDHV

3.6.2 Modification of Consultancy Contract

Modified Consultancy Contract No.2 has been approved and signed between the Employer and the Consultants. Some local personnel have already been deployed to the sites of Contract Package-2 and other personnel will be deployed as per requirement. Modified Consultancy ContractNo.3 has been revised and submitted to the Project Director to consider for smooth running of the Project.

3.6.3 Support to PMU

The same support activities are being provided and enhanced as in the case of Package-1 PMS tasks.

3.7 **Consultant Inputs**

Annex 3: Labour Influx Report

Initial information on labour influx risks, requirements and implication for work package W-01 under CEIP-1

| | 1. PROJECT DATA | |
|-----|--|--|
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (P128276) |
| 1.2 | Contract Package | Package-1 |
| 1.3 | Date of Commencement | January 2016 |
| 1.4 | Date of Completion | June 2020 (As per approved extension of time) |
| 1.5 | Location | Polder-32 and Polder-33 under Khulna district; & Polder-35/1; Polder-35/3 under Bagerhat District |
| 1.6 | Name and Contact Information (email/phone) of Contractor | CHWE, mainland China |
| 1.7 | Name and Contact Information (email/phone) of all sub- Contractors | Project Manager Mr. Yang Dong; No sub-contractors; about 170 Chinese labor and skilled workers influx; 01 Indian workers; local labor and foremen about 600 persons; |
| 1.8 | Type of Works (single site, linear, clustered and construction duration) | Civil engineering/hydraulic works: earthen embankment; water control sluices; river bank protection works; embankment slope protection works; closure dam; offices and site buildings; excavation of sedimented internal channels (khals); social reafforestation; single and localized sites, stand-alone site for construction of one structure or one stretch of embankment etc.; These are the standard engineering interventions in a typical coastal polder in Bangladesh, since 'time immemorial'; no rocket science; a lot of manual labour work activities, for men and women both; |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS | | | | | | | |
|-----|---|--|--|--|--|--|--|--|--|
| 2.1 | Will the project potentially involve an | Yes, there are Migrant workers influx at Project area, relatively small numbers and scattered all over the many construction | | | | | | | |
| | influx of migrant workers? If yes, are | | | | | | | | |
| | there also foreign laborers mobilized | engineers; | | | | | | | |
| | on site? | The mobilization of foreign worker started in November 2015 and on ward. | | | | | | | |
| 2.2 | Is the influx of non-local workforce | Not significant because there are many stand-alone construction sites and the number of Chinese/foreign workers per stand- | | | | | | | |
| | significant for the local community? | alone site is about 3 to 5 Chinese men; this is not disruptive for the social cohesion of the local site; local stand-alone construction | | | | | | | |
| | | sites are mostly far away from community centers (rural setting, remote sites; sluices are not located inside a community); | | | | | | | |
| | | In the camp site, there have a separate place for their living, dining. Also, police from local Thana/authority provide the security | | | | | | | |
| | | for the safety of Chinese workers. There have two or three local translators; if any problem arises, they will arrange | | | | | | | |
| | | communication with local people. | | | | | | | |
| | | Even now there is no complain from local people, mentioned that in camp site also have a register to note down | | | | | | | |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|--|---|
| | | to take proper action within appropriate time. |
| | | At least certain percentage of local people would have been mobilized in civil work that would be beneficial for the local |
| | | people. |
| 2.3 | What are the opportunities for local laborers? | Of course, there were opportunities for local worker in civil work. Local residents are poor people with virtually no mobility or transport facilities and are employed in agriculture, aquaculture and civil construction works such as road, buildings etc in 'urban' areas, mostly intermittent job contracts. There is some small business such as small shops, chicken and duck breeding/farm, aquaculture, and motorbike repair workshops etc. which do not employ many people; e.g. Polder-35/1 is located 100 km away from the city of Khulna, hence not much influx from Khulna to Polder-35/1; due to few numbers of small rudimentary road tracks, |
| | | there is hardly any economic traffic to the 4 Polders; one needs to cross many rivers with (small) ferries; labour market is non-existent for local laborers; Recently for polder-32, 294 local workers engaged for construction workers; P-33, 295 local workers; P-35/1, 591 local workers |
| | | and P-35/3; 187 local workers. There are no women because, for heavy civil work women are not suitable. |
| | | By negotiating we fixed the salary, so there is no unsatisfactory and no complain. |
| 2.4 | Frequency of outsider's visit | Chinese laborers are generally permanently stationed and working; they live together inside a fenced compound, with |
| | | professional security guards; |
| | | Non-local labours are regular, but they have the seasonal vacation during rainy season. |
| 2.5 | Environmental sensitivity of the | Refer to the four approved EIA Reports of the 4 Polders; in general, the close location of the border lines of the Sundarbans |
| | project site | mangrove forest prompt the Chinese Contractor to take care/be alerted of the possible negative |
| | | impacts on the water, noise, environment, biodiversity of the Sundarbans; |
| 2.6 | Community experience with | Much community experience yes as all 139 coastal polders were built back in the 1970s and 1980s and had undergone many |
| | similar projects? | subsequent small and big interventions, emergency works, repair and recovery after huge flood disaster events etc; local laborers |
| | | are fully familiar with similar types of civil engineering works; |
| | | And also familiar with the similar movement of non-local labour because in coast region in different time |
| | | different improvement work has done throughout the specific period. |

| | 3. SOCIO-ECONOMIC CONSIDERATIONS | | | | | | | | | | | |
|-----|----------------------------------|-------------------------------------|-----------------|-------------------|----------------|-----------------------|--------|--|--|--|--|--|
| 3.1 | _ | similar rounds? (c derations) | are ultural, | local religiou | and s and d | migrant emographic | labour | The background particularly cultural, religious and demographic point of view is dissimilar in many ways and similar in some ways. They have different language, ethnicity, belief system even political system but it does not create any problem to perform the job or pose any risk for the project. The migrant is few in number that does | | | | |
| | | | | | | | | There is no issue at all, because the non-local workers are busy in day time for work. Also, the work site is located in different place from their residence. No negative impact on job market because this project makes the more opportunity of job for local people. Group means not like two separate parts. Both local and non-local workers are working as a part of the project as like a team work. | | | | |

| Are there increased competitions for resources (e.g. accommodation, water, food, fuel) with the local community? | Absolutely not; |
|--|---|
| Given local community characteristics any specific adverse impacts anticipated? | No adverse impact is anticipated at the moment; |

| | 4. LOCAL COMMI | UNITY (Please provide Polder wi | se description of Facilities) | | | | | | |
|-----|---|---|-------------------------------|----------------|--|--|--|--|--|
| 4.1 | Size of Local Population | Bangladesh is highly densely populated country but the project area has lesser density. It is found from the RAP document that inside the Polder-32, 33, 35/1 and 35/3 the total population amounts to 38397, 62305, 99182 and 33075 respectively. | | | | | | | |
| | Working age population and capacity (education, skills, experience) | The labour force (age between 15 and 59 year), the actual number of people available for work is 61%. The labour force includes both the employed and the unemployed. According to BBS, 30% of the people fall in the age group 1-15 year. The literacy rate in the project area roams around 58% whereas the national figure is 51.8%. The livelihood of 66.1% of people depends on agriculture activities; | | | | | | | |
| 4.3 | Working age population capacity | Education | Skill | Experience | | | | | |
| | | No information is available | No information | No information | | | | | |
| 4.4 | Local capacity for infrastructure, services, utilities, health (please provide a short brief) | Inside the 4 Polders, both earthen and pucca roads are available and there are waterways also. There is academic institution, market, religious institution, local government offices, providing necessary public services to the local people. Motor bikes play important role to communicate in project areas. Auto rickshaw is main transportation vehicle; No there is no impact of these facility due to the inflow of chines people. | | | | | | | |
| | Availability of accommodation, food, water (please provide a short brief) | Contractor provides adequate accommodation, water and food, protective sheds etc to their workers; Yes, these facilities are easily available for rent and consumption | | | | | | | |

| | 4. LOCAL COMMUNITY (Please provide Polder wise description of Facilities) | | | | |
|-----|---|--|--|--|--|
| 4.6 | Are there any security considerations? | Not from the local governments; | | | |
| | | Contractor is now paying for the security force mainly in work site cum residential sites. | | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic? | Some marginalized and vulnerable people are in the project side like other places of the country | | | |
| | indigenous- communities? | but there are no ethnic and indigenous groups. | | | |

| | 5. MAINTENANCE OF OTHER LABOR RECORDS |
|---|--|
| Is a copy of photo ID of each labourer kept? with the Contractor/ Sub-contractor? | Yes. NID for local workers and visa copy for Chinese workers; no sub-contractors; |
| Is contact information of labour's next-of-kin kept for each labourer? | Yes. Family members are mostly close-by. Chinese contractor recruits mainly from the locality; |

1. LABOR PROFILE (Please provide Polder wise information)

This data is to be collected for each Polder where civil works has commenced, and cover the regular labour, temporary labour, labour hired through sub-contractors or labour contractors / groups.

| 6.1 | Number of laborers by sex | Male | | Female | | e | Total |
|-----|------------------------------|--------------------------|---------------|---------|------|------------|-------|
| | | 1190 | | | 9 | | 1199 |
| 6.2 | Number of laborers by skill | Skilled | Semi-skille | ed | U | nskilled | Total |
| | | 775 | 276 | | | 148 | 1199 |
| 6.3 | Number of laborers by origin | Local (same or adjoining | Other distri | icts | Othe | er Country | Total |
| | | district) | | | | | 1199 |
| | | 765 | 315 | | | 119 | |
| 6.4 | Number of laborers by age | 18-25 | 5 | 25-5 | 0 | Above 50 | Total |
| | | 625 | | 544 | - | 30 | 1199 |
| 6.5 | Source of labour | Contractor | Subcontractor | Indepen | dent | Other | Total |
| | | 1199 | 0 | 0 | | 0 | 1199 |

| | 7. FACILITIES (Please provide Polder wise description of Facilities) | | | | |
|------|--|--|----------------------------|--------------------------|-----------------------------|
| 7.1 | Details of labour camps | Number | Permanent/Temp. | Location | Distance from nearest |
| | | | | | village/habitation |
| | | 8 | Permanent | Every CC block | Almost within 100m |
| | | 12 | Temporary | yard and every | |
| | | | | work site | |
| 7.2 | Type of housing in labour camp on leased land | Work site have tempo | rary shelter but cc block | yard has pukka house | |
| | (temporary shelters / kuchha /pukka) | | | | |
| 7.3 | Is there any housing on public land like roadsides, open No. Only housing exist inside the constructional premises. fields and other spaces? | | | | |
| 7.4 | Is there any housing in rented accommodation in | Yes, for the Chinese and Bangladeshi senior staff. Contractor rents the buildings themselves | | | |
| | residential areas? If so, who is it rented by? | | | | |
| 7.5 | How many laborers have families on/near worksite? | The migrant workers | do not live with their fan | nily. Sometime their far | mily member visits here for |
| | | very short time. The I | ocal worker mostly lives | with their family | |
| 7.6 | Likelihood of family members accompanying (visiting) | They hardly visit the p | project side. Laboure's h | ave family homes close | by; daily transport is done |
| | | by motorbikes or by v | ehicles of Contractor | | |
| 7.7 | Is drinking water available on site and at the campsite? | | | | |
| 7.8 | Are latrines and urinals provided on site and at the | Yes | | | |
| | campsite? | | | | |
| 7.9 | Are First Aid facilities provided on site? | Yes | | | |
| 7.10 | Does a doctor visit the worksite / campsite regularly? | Yes | | | |

| 7.11 | Is there a tie-up with a hospital or dispensary near the | Yes |
|------|--|--|
| | worksite / campsite | |
| 7.12 | Is there a facility for cooking / canteen facility for all | Yes |
| | labour? | |
| 7.13 | Are leisure activities / facilities available for all labour | Yes |
| 7.14 | Is transport to and from the worksite provided to | Yes, for migrant labourer but no provision for unskilled local labourer. |
| | labour? | |

| | | 8. SUPERVISION BY LABOR OFFICIALS |
|-----|---|---|
| 8.1 | Has the worksite / campsite been inspected by a | In 20-22 November, 2017 and 04-06 February, 2018 WB team visited the work area of CEIP-1, |
| | labour official? | |
| 8.2 | How many times has the worksite / campsite been | Six times since commencement from WB. From the part of PMU and BEDB, visited the woks site |
| | inspected by a labour official since commencement of | frequently, as per the need basis. |
| | work? | |
| 8.3 | What documents were inspected by labour officials? | Accident /injury register, salary sheet/record |
| 8.4 | What documents were maintained and which ones | Safety training record, accident register, safety guideline document, compliance register, GRM system notice. |
| | were not? | Nothing missing, if anything required please give us the valuables suggestion. |
| | | We will ensure it in work site. |
| 8.5 | What directions were given by labour officials? | About personal health and safety |
| 8.6 | What are the directions? Mode of compliance with such | Action taken in field level as soon as possible |
| 8.7 | Are you facing any legal proceedings on labour? | None; |
| | issues in Labour Court/ Other? | |

| | 9. ACCIDENTS, EMERGENCI | ES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|-----|--|--|
| 9.1 | What is the nature of accidents / emergencies usually occurring at a worksite like yours? | No accident so far has been taken place |
| 9.2 | Is a functioning First Aid available at the campsite / worksite? | Yes |
| 9.3 | Is functioning fire-fighting equipment available at the campsite / worksite? | Yes |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Within some kilometers, alert by mobile handphone of which the number is known to all Chinese people (Chinese medical doctor available); doctor covers the four Polders |
| 9.5 | Which is the nearest hospital? | The nearest hospital is situated at Upazila head quarter. But there some clinic or satellite clinic inside the polder. If any worker required critical services then he/she refer to Khulna or Dhaka. The contractor has own car for every camp site and CC block manufacturing site to transport he/she to Khulna or Dhaka. |
| 9.6 | Which is the nearest Police Station? | In any Polder, there is Police office close-by, within 10 km range. On the other hand, a team of 2-3 nos. police available in work camp site and cc block manufacturing site cum residential site. If required they will help us. But even no situations arise to do this. |
| 9.7 | Are details of nearest doctor / clinic / dispensary /hospital / Police station available and prominently | Yes |

| | displayed at worksite / campsite? | |
|-----|--|--|
| 9.8 | What is the system of informing next of kin? | For the migrant worker, there is focal person to deal with the issue. The contact numbers of all workers are |
| | | well documented. For the local worker, the system is same. Bengali senior staff employed by the Chinese |
| | | contractor. |
| 9.9 | What is your familiarity with accident reporting | Chinese Contractor holds regular drills on procedures and protocols to enact in case of |

| | 9. ACCIDENTS, EMERGENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) | | |
|------|--|--|--|
| | procedures? | accidents | |
| 9.10 | What is your familiarity with police reporting | We are well familiar to local police reporting system and we have their contact number and relation. So far, | |
| | procedures? | no such incident whereby Police is to be called upon. It is worthy to mention | |
| | | that Contractor site camps are secured by police protection permanently. | |
| 9.11 | Is there any mechanism to address the work place | Yes (sanctions are known to Chinese workers and their bosses). Mechanism is there. We have gender | |
| | Sexual Harassment of Women at the project sites? | policy. There is complaint system to mitigate sexual harassment. Finally, legal step can | |
| | | be applied where necessary; | |

Initial information on labour influx risks, requirements and implication for work package W-02 under CEIP-1

| | 1. PROJECT DATA | | |
|-----|--|--|--|
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (CEIP-1) | |
| 1.2 | Contract Package | Package-2 | |
| 1.3 | Date of Commencement | 12 th July, 2017 | |
| 1.4 | Date of Completion | 11 th January, 2021 | |
| 1.5 | Location | Polder-39/2C, Polder-40/2, Polder-41/1, Polder-43/2C, Polder-47/2 and Polder-48 | |
| 1.6 | Name and Contact Information | Chongqing International Construction Corporation | |
| | (email/phone) of Contractor | cicobangladesh@gmail.com/+8801917264485 | |
| 1.7 | Name and Contact Information (email/phone) of all sub- Contractors | None | |
| 1.8 | Type of Works (single site, linear, clustered and construction duration) | Upgrading via new construction and re-sectioning of embankments with a length of about 208.71km; Excavation and re-excavation of drainage channels in the Polders with a total length of about 188km; Construction of 50 drainage sluices; Repairing of 6 drainage sluices; Construction of 71 flushing sluices; Repairing of 8 flushing sluices; Construction of embankment slope protection works with a total length of some 9.48km; Construction of river bank protection works with a total length of 4.92 km; Construction of 8 Khal Closing Closures with varying widths between 35m to 60m; Dismantling of 36 drainage sluices, 70 flushing sluices and road pavement for about 50 km; Construction of RCC Flood wall with a length of about 17km; Construction duration: 42 months | |

| | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS | | | | |
|-----|---|---|--|--|--|
| 2.1 | Will the project potentially | Yes, scattering all over the construction sites. There are no foreign labours mobilized onsite. | | | |
| | involve an influx of migrant | | | | |
| | workers? If yes, are there also | | | | |
| | foreign laborers mobilized on | | | | |
| | site? | | | | |

| 2.2 | Is the influx of non-local | Yes, these benefits are typically related to economic opportunities through employment and/or training by the |
|-----|-------------------------------------|---|
| | workforce significant for the local | project, or through selling goods and services. Other benefits include the provision of local infrastructure (e.g., |
| | community? | access roads, power or water connection) which is developed for the project and which serves the community |
| | | beyond the project duration. |
| 2.3 | What are the opportunities for | It will bring more employment opportunities to the local labours. It will improve the education status because of |
| | local laborers? | workers' training. |
| 2.4 | Frequency of outsider's visit | Normal |
| 2.5 | Environmental sensitivity of the | Fuel supply for cooking and heating, fuel storage area, by-pass road construction, sanitation, water supply and |
| | project site | construction work. |
| 2.6 | Community experience with | Embankment construction, Bridge construction and road pavement construction |
| | similar projects? | |

| | 3 | . SOCIO-ECONOMIC CONSIDERATIONS | | | | |
|-----|--|---|--|--|--|--|
| 3.1 | How similar are local and migrant labour | The labour no matter where they from are Bangladesh citizen. They almost have the same | | | | |
| | backgrounds? (cultural, religious and demographic | cultural and religious background. The demographics are shifted just from one region to | | | | |
| | considerations) | another and there is no change on total demographics of Bangladesh. | | | | |
| 3.2 | Are there increased competitions for resources (e.g. | More water, electricity, medical services, transport, education and social services will be | | | | |
| | accommodation, water, food, fuel) with the local | required with the execution of works. | | | | |
| | community? | | | | | |
| 3.3 | Given local community characteristics any specific | It will bring more influx of additional population and increased pressure on accommodations | | | | |
| | adverse impacts anticipated? | and rents, increase in traffic and related accidents | | | | |

| | 4 1004 00 | MMINITY (Plance provide Pa | Idor wise description of Facili | itios) |
|-----|--|----------------------------|----------------------------------|---|
| | | MMUNITY (Please provide Po | | , |

| 6.2 | Number of laborers by skill | Skilled | Semi-skill | led | Unskilled | Total |
| | | 312 | 364 | | 992 | 1668 |
| 6.3 | Number of laborers by origin | Local (same or | Other distr | ricts | Other Country | Total |
| | | adjoining district) | | | | 1668 |
| | | 983 | 685 | | 0 | |
| 6.4 | Number of laborers by age | 18-2 | 25 | 25-50 | Above 50 | Total |
| | | 852 | 2 | 812 | 4 | 1668 |
| 6.5 | Source of labour | Contractor | Subcontractor | Independe | ent Other | Total |
| | | 1668 | 0 | 0 | 0 | 1668 |

| | 7. FACIL | ITIES (Please prov | vide Polder wise descri | ption of Facilities) | |
|-----|---|--------------------|-------------------------|----------------------|-----------------------|
| 7.1 | Details of labour camps | Number | Permanent/Temp. | Location | Distance from nearest |
| | | | | | village/habitation |
| | | 5 | Temporary | Near the project | Within 1 km |
| | | | | site | |
| 7.2 | Type of housing in labour camp on leased land | Temporary shelte | er | | |
| | (temporary shelters / kuchha /pukka) | | | | |
| 7.3 | Is there any housing on public land like roadsides, | Yes, there are ho | ousings on open field. | | |
| | open fields and other spaces? | | | | |

| 7.4 | Is there any housing in rented accommodation in residential areas? If so, who is it rented by? | Yes, it is rented by the Chinese Contractor as temporary shelter. |
|----------|--|--|
| 7.5 | How many laborers have families on/near worksite? | No information |
| 7.6 | Likelihood of family members accompanying (visiting) | Not allowed |
| 7.7 | Is drinking water available on site and at the campsite? | Yes |
| 7.8 | Are latrines and urinals provided on site and at the campsite? | Yes |
| 7.9 | Are First Aid facilities provided on site? | Yes |
| 7.1 | Does a doctor visit the worksite / campsite | No, sometimes. |
| 0 | regularly? | |
| 7.1 | Is there a tie-up with a hospital or dispensary near | Yes |
| 1 | the worksite / campsite | |
| 7.1 | Is there a facility for cooking / canteen facility for | No |
| 2 | all labour? | |
| 7.1 | Are leisure activities / facilities available for all | Yes |
| 3 | labour | |
| 7.1 4 | Is transport to and from the worksite provided to labour? | Yes, for migrant labourer but no provision for unskilled local labourer. |

| | | 8. | SUPERVISION BY LABOR OFFICIALS |
|-----|---|------|--------------------------------|
| 8.1 | Has the worksite / campsite been inspected by a | No | |
| | labour official? | | |
| 8.2 | How many times has the worksite / campsite | None | |
| | been inspected by a labour official since | | |
| | commencement of work? | | |
| 8.3 | What documents were inspected by labour | None | |
| | officials? | | |
| 8.4 | What documents were maintained and which | None | |
| | ones were not? | | |
| 8.5 | What directions were given by labour officials? | None | |
| 8.6 | What is the mode of compliance with such | None | |
| | directions? | | |

| 8.7 | Are you facing any legal proceedings on labour | No |
|-----|--|----|
| | issues in Labour Court/ Other? | |

| | 9. ACCIDENTS, EMERGE | NCIES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|-----|--|---|
| 9.1 | What is the nature of accidents / emergencies | Drowning |
| | usually occurring at a worksite like yours? | |
| 9.2 | Is a functioning First Aid available at the campsite | Yes |
| | / worksite? | |
| 9.3 | Is functioning fire-fighting equipment available at | Yes |
| | the campsite / worksite? | |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Polder-39/2C: Digital X-ray Clinic, 5 minutes by car away from the campsite, 01717-997-914, |
| | | Kamrunnasar. |
| | | Polder-41/1: DR. Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic- |
| | | sharif x-ray clinic, Dispensary mouir medical hall. |
| | | Polder-47/2: 1 km from our working site to the nearest dispensary |
| | | Polder-48: 100 m from our temporary camps to the nearest dispensary but the doctor and clinic |
| | | are 1 km away. |
| | | |
| 9.5 | Which is the nearest hospital? | Polder-39/2C: Upazila Health Complex, 5 minutes by car away from the campsite, 01735-950- |
| | | 462, Fakrel Islam. |
| | | Polder-41/1: Barguna sader hospital |
| | | Polder-47/2: 10 km from our working site to the nearest hospital. |
| | | Polder-48: the nearest hospital is 3 km towards the seaside. |
| 9.6 | Which is the nearest Police Station? | Polder-39/2C: Bandarie Police staion, 5 minutes by car away from the campsite, 01713-374- |
| | | 337, Kamruzzaman. |
| | | Polder-41/1: Barguna sader police station. |
| | | Polder-47/2: 8 km from our working site to the nearest police station. |
| | | Polder-48: the nearest police station is 3 km approximately around the third bridge. |
| 9.7 | Are details of nearest doctor / clinic / dispensary | Polder-39/2C: Yes, such information shall be printed on paper and displayed at the site office. |
| | / hospital / Police station available and | Polder-41/1: DR. Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic- |
| | prominently displayed at worksite / campsite? | sharif x-ray clinic, Disppensary mouir medical hall, Barguna sader hospital, Barguna sader police |
| | | station, above mentioned details information is true and they are able to respond within short |
| | | period and mentioned location is very nearest to our worksite. |
| | | Polder-47/2: Yes. such information shall be printed on paper and displayed at the site office. |
| | | Polder-48: Yes, such information shall be printed on paper and displayed at the site office. |

| 9.8 | What is the system of informing next of kin? | A phone number chat including all the Chinese people has been distributed to all working site/ |
|------|--|---|
| | | campsite, anything happening at site will be reported immediately to the person who is in charge |
| | | of corresponding issue. |
| 9.9 | What is your familiarity with accident reporting | For any accident happened at site, the foreman shall report to the site office and site manager |
| | procedures? | immediately, and site office shall write on the accident log book for records. Then site office shall |
| | | report to the corresponded local government office. |
| 9.10 | What is your familiarity with police reporting | So far, no such incident whereby Police is to be called upon. The Contractor camps are secured |
| | procedures? | by police. |
| 9.11 | Is there any mechanism to address the work | No, because all male workers at the project sites and no female workers. |
| | place Sexual Harassment of Women at the project | |
| | sites? | |
