Executive Summary 1.

1.1 **General**

The Monthly Progress Report (MPR) is over the month of April, 2020. The Executive Summary Chapter will highlight the various developments and issues at stake in a qualitative manner whereas the remaining Chapters will provide more quantitative information and details on the activities and progress of the month of April, 2020.

The Executive Summary will also first focus on the implementation of the 2 (two) Construction Contracts for Package W/01 and Package W/02. In this section, the Consultants activities are also addressed. Activities and issues of a more general nature will be addressed thereafter.

This Executive Summary includes an Action Log which have been updated where relevant.

1.2 Implementation of works under Package W/01 and Package W/02

In the current phases of the CEIP-1 Project, Consultants focus is on the progress of the construction of Civil Works for Package W/01 and Package W/02. Other Consultant's tasks are summarised separately in this Chapter.

From the second half of March 2020, the working environment has become abnormal due to pandemic of Corona Virus and to restrict the spread of this virus, the Government of Bangladesh has issued notifications to limit any gathering and advised to stay at home. The Government has also declared holiday from 25th March 2020 to 16th May 2020; it is not known if this will be extended thereafter. The progress of work is reduced significantly due to pandemic of Corona Virus in the month of April 2020.

1.2.1 Package W/01 implementation

The key issues for the month of April, 2020 regarding Package-1 are summarised below as follows:

- 1. The physical progress up to April, 2020 is 89.00% against the revised target of 95.94% Progress. The current dry season is in hand is very limited till then due to the pandemic of Corona Virus the Engineer is pushing the Contractor to speed up the emergency and other essential activities in order to complete the Works before coming monsoon and as per the revised work program;
- 2. The Contractor was requested to submit the revised work program considering that the remaining whole works are to be completed within the approved revised time for Completion by June, 2020. Accordingly, the Contractor submitted the revised program and that has been reviewed by the Consultants and sent to PMU 24th October, 2019. As per revised program Consultants have determined that the actual progress is lagging by 6.94% when compared to the revised target;
 - 3. Contractor has completed 38 nos. Drainage Sluices and 29 nos. Flushing Sluices up to April, 2020 and has been working together with the Engineer on the handing over procedures;
 - 4. As per requirement of the World Bank Mission during 21st October 2019 to 25th October 2019 on environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist during their field visit;

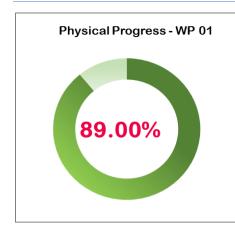

Progress Report No. 60 - April 2020

HaskoningDHV

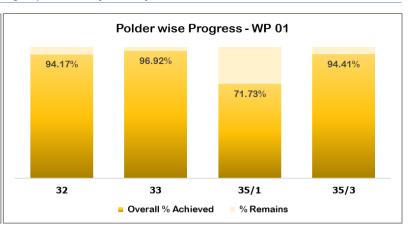

Figure 1-1: Polder Wise Progress of Package-1

- 5. The Contractor has successfully completed the closing of Nalian Closure dam on 17th February, 2020 and the raising of crest level and improvement of C/S & R/S slopes as per design of the closure are going on in the month of April 2020. The overall progress of Nalian Closure is satisfactory;
- 6. The Competent Authority has approved the Zero Cost Variation (up to Variation Order No.4) of this contract and that has been informed by the Project Director vide memo no. CEIP-1/W-01/1521 dated 26th December, 2019 to the concerned personnel;
- 7. In the Contract, there was a Provision for repairing works of 30 nos. Flushing Sluices out of which 16 nos. have been dropped (for falling the structures outside the alignment of retired embankment or not repairable). Out of the remaining 14 nos. of repairing of Flushing Sluices 13 nos. have already been completed, 1 no is ongoing. There was a provision for repairing works of 2 nos. Drainage Sluices which have already been completed;
- 8. The Result Framework target for Excavation/re-excavation of Drainage channels of 4 (Four) Polders under Package 1, CEIP-1 is 151.210 km. From the target length of 151.210 km a length of 33.160 km is required to be omitted from the re-excavation program of CEIP-1 as this length is fully effective to provide the purposes of the drainage system. As such, the total revised length for Excavation/re-excavation of Drainage channels of 4 (Four) Polders under Package 1, CEIP-1 will stand to 118.05 km. Out of this revised quantity 116.850 km has already been excavated and the remaining 1.200 km will be completed very soon. In this connection a Polder wise detailed report has been submitted to the Project Director, CEIP-1 explaining the reasons of reduction of lengths of Excavation/re-excavation of Drainage Channels vide Engineer's reference RDCOR BC5883-100 L002550 JHL AAM dated: 17th April, 2020.

1.2.2 Package-2 implementation

The key issues for the month of April, 2020 regarding Package-2 are summarised below as follows:

- 1. The physical progress up to April, 2020 is 51.43% against the target of 56.90% as per Revised Work Program as submitted by the Contractor in April, 2020;
- 2. The performance of the Contractor in the last dry season was not at all satisfactory. Considering the unsatisfactory performance of the Contractor, meetings with higher Management of Contractor were held and an action plan was prepared, however, follow-up is as yet lacking;
- 3. The Contractor is trying to increase the rate of progress but as the Zero Cost Variation up to Variation Order No. 01 has not yet been approved by the competent authority for which they

Progress Report No. 60 - April 2020 HaskoningDHV

are not entitled for payment of some items of works which have exceeded the BOQ and for some new items of work. As such, they are facing cash flow constrains.

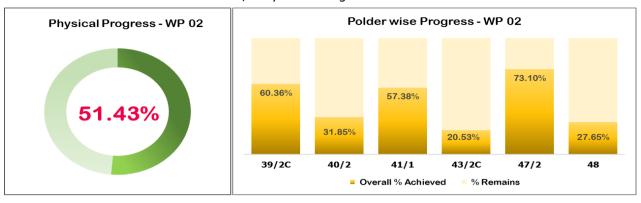

Figure 1-2: Polder wise Progress of Package-2

- 4. As per requirement of the World Bank Mission during 21st October 2019 to 25th October 2019 on environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist during their field visit;
- 9. The Contractor has submitted the Final Revised Work Program with all other relevant documents keeping provision that all the works will be completed within the Contract period with the condition to provide all the lands without any hindrance within March 2020 and those have been submitted to PMU on 1st March 2020 after finally been reviewed by the Engineer. However, as per the revised work program there is a target to complete 56.90% of the Physical Work by April, 2020 and the actual progress achieved is 51.43% which indicates that there is 5.47% lagging up to April, 2020. The progress of work is reduced to a great extent, as from the 2nd half of March, 2020 the working environment has become abnormal due to pandemic of Corona Virus mentioned above. Till then the Engineer is ushing the Contractor to speed up the progress of the Emergency Works more to complete those before coming monsoon. Other tasks of Consultants

The key issues for the month of April, 2020 regarding the other tasks of Consultants are summarised below:

- 1. The responses of the World Bank's latest comments on the EIA/EMP reports of Package-3 are in progress and a sample of EIA report for Polder-14/1 is now under review with IPOE for his clearance. The remaining 6 Polders under Package-3 will be completed in accordance with that as soon as it is obtained from the IPOE through the PMU;
- 2. The Consultants supported the PMU with various reports and recommendations.

1.3 **Key challenges and risks and recommendations**

1.3.1 Key challenges and risks

Key challenges and risks are listed below:

- 1. The weather conditions in April, 2020 were favourable for construction of civil works including the works of embankment re-sectioning;
- 2. Risks related to the site situations with respect to availability of lands in some cases remain almost same till April, 2020; all stakeholders, including the Client, Client's Local offices, DC's, Contractor and Consultants, are applying their utmost efforts to organise this in a practical and pragmatic manner. It is Consultant's view that progress is possible to be made

Progress Report No. 60 - April 2020 HaskoningDHV

- only by the joint efforts of BWDB & Consultants in the interest of the CEIP-1 Project. This is an area which requires continued highest attention of all concerned;
- 3. The global Corona virus is hampering and limiting and, in some cases, stopped the movement of Staff of both the Contractors of Package-W/01 and W/02 and the Consultants. Consultants are following the international developments closely and adhering to travel guidance of e.g. World Health Organisation and Bangladesh Authorities. Restrictions have been imposed on travellers from outside Bangladesh and as a result this has impact on the progress of the Works. Consultants has advised to all their Staffs how to deal with Corona virus and provided guidance and mouth caps. Non-essential travelling is being highly discouraged.

1.3.2 Recommendations

The following recommendations are being furnished:

When there would be a land availability issue, joint efforts of Contractors, Engineer and Employer should be enhanced to solve issues at stake. It is recommended that the Employer plays a visible role here and increased efforts should continue; less reporting and more resolving on the spot. In Table 1-1 an Action Log is introduced to monitor actions required to be taken forward in the interest of the CEIP-1 Project. It will be updated monthly, and actions fulfilled will be deleted.

Table 1-1: Action Log

| Action No. | Description of action | By when | By whom | Done by and can be deleted from this Action Log next month | | Remarks |
|-----------------|---|----------------|-------------|--|---------|---|
| | | | | Date | Done | |
| Nov17- 001 | PMU-World Bank Environmental actions agreed upon on 23 rd November 2017 | Continuous | Consultants | Continuous | mostly | Improvement of Consultant's report has been done, Contractor achieved most of the requirements & EHS improvement is being continued |
| Jan18- 001 | Advise Contractors to involve international experts in various fields. | 28-02- 2018 | Engineer | | Partly | Contractor Package-1 has involved international experts; Contractor Package-2 is gradually involving more international experts. |
| Feb2018- 001 | Follow-up Environmental Mission of World Bank, February, 2018 | 1-05-2018 | Consultants | | Ongoing | Ongoing |
| Mar2018- 003 | Prepare guiding document for accelerating work for Package-1 and Package-2 during monsoon | 15-04- 2018 | Engineer | | | This action was implemented during the regular review meetings on work progress and for preparing the updated work programs for the fiscal year 2019-2020. The Contractors of both the packages have submitted the revised work program and those have been reviewed and sent to PMU. |

HaskoningDHV

Contractual Tasks of DDCS & PMS Consultants 1.4

The specific objectives of the CEIP-1 Consultancy Services are described by the following tasks:

- Review and update the designs bidding documents and related environmental and Task A social plans (EIAs, EMPs, and RAPs) already prepared;
- Task B Prepare detailed designs for all remaining polders and works that would be included in the project, including the Engineering and Environment and Social studies (i.e. preparation of EIA, EMP and RAP for each remaining polders);
- Supervise construction of all works under the Project, and do the contract Task C: management as "The Engineer", according to FIDIC rules and regulations and the World Bank Guidelines and its standard bidding documents;
- Provide overall project management support to the BWDB and Project Management Task D Unit (PMU).

The Construction Works will be executed by BWDB as Employer and the Consultant will function as the **Engineer** of the Civil Works contracts as per FIDIC. The Consultant will administer the Civil Works contracts and ensure that the project works are implemented in accordance with the provision of the Contracts. The Consultant will be required to nominate an Engineer's representative for a group of Polders under each contract who will be a full-time resident in the area encompassing the designated Polders.

HaskoningDHV

2. Summary of Key Achievements during the reporting month

| Item | Key Achievements during the month - Package-1, 2 & 3 |
|-----------|--|
| RAP & LAP | It may kindly be noted that as per Government Notification, all the Government Offices were closed during the month of April 2020 due to pandemic of Corona Virus for which Land Acquisition & Resettlement activities have no progress. Hence, the progress in this respect so far achieved in the month of March, 2020 is also remain same for the Month of April, 2020. |

2.1 Package-1

| No. | Item | Key Achievements during the month – Package-1 |
|--|--|--|
| 1 | Modelling | Not applicable |
| 2 | Surveys and Design | Several Survey & designs for Emergency works in Polder-32 have been prepared and approved by the Team Leader. These are now under review by the XEN, CEIP-1 Khulna before implementation. |
| 3 | Works | Construction / Re-Sectioning of Embankment: 1.400 Km (Full) & 24.232 Km (Part); Excavation / Re-Excavation of Drainage Channel: 1.300 Km; Construction of Drainage Sluice: Full 38 nos. Completed; Repair of Drainage Sluice: Full 2 nos. completed; Construction of Flushing Inlet: 29 nos. Completed; Repair of Flushing Inlet: 1 no. in progress; Embankment Slope Protection Works: 2.020 Km; River Bank Protection Works: 0.00 Km; Nalian Closure Dam: Overall Physical progress 72.50%. |
| 4 | Contractor Resources | Updated by Contractor Package-1 in terms of labour and equipment. |
| 5 | RAP and status of resettlement Payment | 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in March-December 2015 of whom 820 on private land (titled) and 4,633 on government land non-titled EPs (Squatters) and among 4,633 EPs, 448 tenants and 226 were wage labourers. The final numbers of entities as of April 2020 stands at 5,373 of whom 4,645 non-titled (Squatters), 448 tenants and 280 as wage labours. BDT 5,984.36 lac has been paid to the 4054 non-titled EPs (squatters) as compensation/resettlement benefit against their affected residential, fish gher, commercial, tress. Moreover, the compensation has been paid for Social Forestry (27 nos. for CPR) is BDT 16.12 lac and for removing 67 nos. electric poles an amount of BDT 22.20 lac. Total 6,036.39 lac has been compensated against Package-1 up to April 2020. |
| polders. • Possession received a total of 119.91 ha a | | 132.29 Ha land was programmed for Land Acquisition (LA) in four polders. Possession received a total of 119.91 ha and total of 12.38 ha lands are yet to be received are pending for procession (ha for Polder no. |

CEIP-1 Progress Report No. 60 - April 2020

| No. | Item | Key Achievements during the month – Package-1 |
|-----|-----------------------------------|--|
| | | 32, 11.12 ha of Polder 35/1 against three mouzas: (Kumarkhali-1.62ha, Rayenda-2.57 ha & Sharankhola Mouza-6.93 ha) and 0.68 ha land for Polder 35/3. |
| | | • DLAC has approved 11.12 ha of land for acquisition of Polder-35/1 (Kumarkhali, Rayenda & Saronkhola mouza). Notice U/S-4 has been served only for Saronkhola mouza (6.93 ha) as per LA Act. 2017. Issuance of notices U/S-4 of two mouzas (Kumarkhali & Rayenda) is under process. DC, Bagerhat has sent 6.93 ha land (Sarankhola Mouza) to MoL for final approval on 09 March 2020. |
| | | • DLAC has approved 0.68 ha land for acquisition under Polder 35/3 on 30 January 2020 for acquisition and Issuance of notices U/S-4 is under process. |
| | | Social team is trying their best to be completed soon of reconnaissance field visit for pending 0.58 ha land for Polder-32 and keeping connection with the DC Office, Khulna. |
| | | As of April 2020, DC office Khulna & Bagerhat has paid a total BDT 6,789.09 lac against 2,728 nos. of awardees among Titled EPs (811 nos. of Polder-32, 406 nos. of Polder-33, 988 nos. of Polder-35/1, 413 nos. of Polder-35/3 & 110 nos. of Newly Land acquisition at Banishanta mouza at Polder-33). 30 nos. of EPs have been paid CUL in April 2020. |
| 7 | Relocation | About 98.69% of paid EPs have already been relocated. 53.22% EPs have relocated on their own land; 12% on newly purchased land; 17.18% EP has replaced to their relatives or others' land; 12.44% have relocated temporarily at nearby area; about 1.31% of the paid EPs are yet to be relocated from the ROW. About 1.09% & 1.43% have relocated respectively in Market & Group Relocation. |
| 8 | Grievances | 167 complaints/grievances have received up to April 2020 by GRC. 42 complaints/grievances have been resolved at the entry level, while 114 cases have been resolved through investigations and formal hearing by GRC & 11 newly lodged grievances have been trying to resolve in entry level by the GRC. All records of GRC preserved according to the guidelines of RAP policy. |
| 9 | Environment | The World Bank environment, health and safeguard mission visited the project area in October, 2019 and requested to adopt some new EHS compliances, which are being complied by the Contractors under supervision of the project Environmentalists. EHS monthly meetings are held to address the Contractors for compliance of new EHS issues in the light of the issues required by the World Bank Sr. Environmental Specialist and other EHS requirements according to EAP/C-ESMP. |
| 10 | Value of Physical Work Done | The total value of physical work done up to April, 2020 is BDT 6,183.08 million and during April, 2020 is BDT 132.14 million. |
| 11 | Finance | Total expenditure incurred up to IPC-22 is BDT 5,452.07 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 660.89 million has been recovered from the advance payment of BDT 660.89 million . |
| 12 | Contract Administration | The competent authority has approved the Zero Cost Variation (up to Variation Order No.4) of this contract and that has been informed by the Project Director vide memo no. CEIP-1/W-01/1521 dated:26-12-201. |

2.2 Package-2

| No. | Item | Key Achievements during the month - Package-2 | | | | |
|-----|--|--|--|--|--|--|
| 1 | Modelling | Not applicable. | | | | |
| 2 | Surveys and Design | The pre-sections surveys for the remaining sections of the Polders are conducting during FY 2019-2020 depending on the availability of land and subsequently shop drawings are being prepared before execution of Physical works. | | | | |
| 3 | Works | Construction / Re-sectioning of Embankment: 0.830 Km (F) & 21.609 Km (Partially) Drainage Channel Excavation/Re-excavation: 3.565 km completed, Construction of Drainage Sluices: 35 nos. (Partially) Repair of Drainage Sluices: 2 nos. (Partially), Construction of Flushing Inlets: 21 nos. (Partially) Repair of Flushing Inlets: 9 nos. (Partially) River Bank Protections: 0.00 Km completed Embankment Slope Protection Work: 0.030 km completed, | | | | |
| 4 | RAP and status of resettlement Payment | A total of 6,778 entities have been identified of whom 1,777 entities are titled and 4747 are non-titled on Government land (squatters) which may fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises. BDT 3,099.72 lac has been paid to the 2,836 non-titled (squatter) as compensation/resettlement benefits against affected residential and commercial structures | | | | |
| 5 | Preparation of LAP | 158.55 Ha land was programmed for Land Acquisition (LA) in six Polders of Package-2. The land acquisition proposal for six polders under Package -2 were submitted to concern DC (Pirojpur, Jhalokhathi, Barguna and Patuakhali) for acquisition. 139.50 ha land has been approved by MoL for Polder 39/2C, 40/2, 41/1, 43/2c, 47/2 & 48. BWDB has placed fund against CUL to DC, Barguna for Polder-40/2 and Polder-41/1, DC, Pirojpur & Jhalakhathi for 39/2C, & DC, Patuakhali for Polder-48. Possession received a total of 70.40 ha land for Polder 39/2C- 49.53 ha, for Polder 40/2- 11.68 ha, for Polder 41/1- 8.29, & Polder 48- 0.90 ha. For Polder-39/2C, Notices U/S-7 served for 21 mouzas under Pirojpur district. Dhawa mouza is waiting for serving Notice U/S-7.Notices U/S-7 served for 4 mouzas under Jhalokathi district and 1 mouza (Chesrirampur are waiting for serving notice U/S-7. Fund placed against final estimate to DC Pirojpur for 105.91 ha and DC, Jhalokathi for 10.18 ha. Proposal of land acquisition of Polder-43/2C against 11 mouzas have been submitted to the DC, Patuakhali. DLAC has approved for nine mouzas of land, remaining two maouzs are under process for approval of DLAC. Proposal of 4 mouzas DC has sent to MoL for final approval. MoL has approved one case. MoL has sent back the all L.A. cases to DC Patuakhali and asked to submit one proposal following the all L.A. cases. The total area of Polder 43/2C becomes 17.96 ha. Payment of CUL has been recently started in Polder-39/2C, Polder-40/2, | | | | |

| No. | Item | Key Achievements during the month – Package-2 |
|-----|--------------------------------|--|
| 6 | Relocation | • 46.05% EPs have relocated on their own land; 12.86% on newly purchased land; 13.07% EPs have relocated to relative's or others' land; 14.06% have relocated temporarily at nearby area; 7.27% of the paid EPs are yet be relocated from the ROW. 6.69% made group relocation. |
| 7 | GRC & FGD | A total number of 45 complaints/grievances have been received up to April 2020 by GRC. 30 of them have been resolved in the entry level by the field investigation and remaining 15 cases under process for investigation and formal hearing by GRC. Total of 1,019 focus group meetings have been held with resolution. Some of the groups have been met twice or more. |
| 8 | Environment | The Contractor is carrying out the EHS compliances, which is improving with time through monitoring and learning. They are improving the EHS compliance in the light of the latest field visit of the World Bank Senior Environmental Specialist. They are also involved in translation of approved EHS risk assessment and C-ESMP into Bangla and Chinese languages for easy understanding for implementation. |
| 9 | Value of Physical Work Done | The total value of physical work done up to April, 2020 is BDT 5,242.07 million and during April, 2020 is BDT 83.17 million. |
| 10 | Finance | Total expenditure incurred up to IPC-12 is BDT 4,440.83 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 273.41 million has been recovered against the advance payment of BDT 1,028.40 million . |
| 11 | Contract Administration | As per advice of the Project Director, the revised Variation Order No.01 has been prepared and submitted to PMU vide Engineer's reference no. RDCOR_BC5883-100_L002438_JHL_MAR dated: 5 th January,2020. Later on, the Project Director advised to submit a Zero Cost Variation (up to Variation Order No.01) and according to the advice Zero Cost Variation (up to Variation Order No.01) had been prepared and submitted to PMU vide Engineer's reference no. RDCOR_BC5883-100_L002439_JHL_MAR dated 5 th January, 2020.The Project Director subsequently sent the Variation Order No.01 to the World Bank for concurrence. The World Bank reviewed the Variation Order and made some quires for omission of Bill No.12 (Construction of Road Pavement over Embankment and Road Crossing Embankment) and Bill No.13 (Construction of Flood Wall). |
| | | The Engineer as well as the Project Director responded to these quires, however, the World Bank required more clarifications. Thereafter the Engineer was informed that in the Summary of the discussions of a briefing meeting on CEIP-1 regarding the Implementation Status and it was agreed upon to "Split variation proposal 01 of Works Package-2 excluding Road Pavement over Embankment and Road Crossing Embankment as well as RCC Flood Wall". |
| | | Accordingly, the Variation Order No.01 was revised by the Engineer keeping the provision of Bill No.12 (Construction of Road Pavement over Embankment and Road Crossing Embankment) and Bill No.13 (Construction of Flood Wall) as in the Contract and submitted to PMU vide Engineer's reference no. RDCOR_BC5883-100_L002499_JHL_MAR dated: 4 th March,2020. The World Bank has provided the concurrence on the Variation Order No.01. Now the Zero Cost Variation (up to Variation Order.No.01) is awaiting approval from the competent authority. The Contract Supplement No.1) has been signed between the Employer & the Contractor on 19 th February, 2020 (adjustment for changes in legislation regarding VAT & IT). |
| | | The Variation Order No.03 for construction of Rest House cum Office Building at Bhandaria was submitted to PMU on 24 October 2019 but that has been returned back with some observations. As per observations the Variation Order No.03 is being re-casted and will be submitted to PMU in the name of Variation Order No.02. |

Royal HaskoningDHV Enhancing Society Together

2.3 Package-3

| No. | Item | Key Achievements during the Month - Package-3 | | | | | |
|-----|-----------------------|---|--|--|--|--|--|
| 1 | Surveys and Design | The outcomes of the mathematical modelling are being used as input and boundary conditions for design of the structures under Package-3. The draft detailed design of all the infrastructures like Embankment, Drainage Channels, Drainage Regulators, Flushing Regulators, Slope Protection works, Bank Protections works and Repairing of Drainage Regulators etc were submitted to the concerned design office of BWDB within June, 2019. Among them the design of Embankment of 7 (Seven) Polders and design of 15 Drainage Regulators have been approved by the BWDB Design Circle-5. The design of the remaining infrastructures is under process of approval by the concerned Design office. The mechanical design for Flap Gates & Vertical lift gates for the D/S & F/S have already been completed. | | | | | |
| 2 | Bid Documents | The Draft Bidding Documents was prepared and submitted to PMU vide Consultant's reference: RDCOR-BE5883-100-L002255_MHR_MAR dated: 17 th October, 2019. | | | | | |
| 3 | RAP | The original RAP was prepared based on original LAP submitted to the XEN, CEIP-1, Khulna. Meanwhile, the crest width of the embankment has been increased by BWDB based on which the LAP is being updated. Hence, the original RAP has also to be updated based on updated LAP Following the updated LAP, the LAP/RAP team has to revise the Households (HHs) numbering and Inventory of Losses (IoL) survey in all 7 Polders under Package-3 of CEIP-1. | | | | | |
| 4 | | | | | | | |
| 5 | Environment | EIAs/EMPs of all the 7 Polders of Package-3 have been submitted in August 2019 along with the responses of the World Bank's comments. The World Bank provided some more comments on the EIA/EMP reports submitted by the PMU which is being addressed by the consultants. The PMU prepared the responses of WB comments on Polder 14/1 by first week of January, 2020 and submitted to International Panel of Expert (IPOE), Environment as desired by the World Bank for approval, which will be followed in the remaining 6 EIA reports subject to the World Bank approval. | | | | | |

DDCS & PMS Consultancy Services 2.4

| No. | Item | Key Achievements upto this Month - Consultant |
|-----|-----------------------------|---|
| 1 | Construction Supervision | Package-1 physical progress is 89.00% (4 Polders). |
| | Systems/Tools | Package-2 physical progress is 51.43% (6 Polders). Package-3 no contract, hence no Physical Works (7 Polders). |

Project Progress 3.

Task A: Review and updated the designs budding documents and related environmental and social plans (EIAs, EMPs and RAPs) already prepared,

3.1.1 Review and update of Design of Package-1

The Detailed Design of Drainage Cum Flushing (D/S) Sluice, Flushing cum Drainage Sluice (F/S), Construction/Re-sectioning of Embankment, Excavation/Re-excavation of Drainage Channels, River Bank Protection, Slope Protection and Construction of Closure Dam were Completed and approved by the Competent Authority. The approved designs were reviewed and updated at the time of commencement of Implementation of the Civil Works.

3.1.2 **Bid Documents of Package-1**

The Bid Documents covering all the activities mentioned above were completed and approved by the competent authority based on which the tender of Package-1 was floated and finalized and subsequently, the Contract was awarded to the lowest bidder. Detailed information below:

Date of Bidding : 25th May,2015

Notice of award : 21st September, 2015 Signing of Contract : 1st November, 2015 Commencement of Works : 26th January,2016 Original Target for completion : 25th January, 2019

Polder-32 & 35/1: 30th June, 2020 Revised Target for completion

> Polder-33: 30th June, 2019 Polder-35/3: 30th June, 2019

Contract Value BDT: 6,969,113,205.00 Contract Supplement No.01 : BDT: 7,243,662,887.49

3.1.3 **RAP Implementation Package-1**

3.1.3.1 Implementation Activities

RAP Implementation for Polders-32, 33, 35/1 and 35/3 under Package-1 is going on. Individual entitlement has been calculated based on Inventory of Losses (IoL) survey and as per PAVC recommended rate of the structures and other assets. A total of 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in March-October 2015 of whom 820 on private land (titled) and 4,633 on government land non-titled EPs (Squatters). Among 4,633 EPs, 448 tenants and 226 wage labourers were identified.

Due to the changes/adjustments of the alignment and Joint Verification Survey (JVS) conducted by respective DC offices, the total numbers of entities have been changed. As a result, some non-titled EPs became titled EPs on account of JVS by DC office and some EPs were added or deducted on account of changes/adjustments of the alignment of embankment, changing location of DS, VP Land and including dockyards labourers as non-titled EPs. The total of entities as of April 2020 stands at 5,373 of whom 4,645 non-titled (Squatters), 448 tenants and 280 as wage labourers. 03 newly EPs have been added for VP land. Payment of compensation, grants and resettlement benefits for four Polders under Package-1 was started in June 2016. As of April 2020, a total of BDT 5,984.36 in Lac has been paid to the 4,054 non-titled EPs (squatters), including 54 numbers wedge labours 27 nos. for social forestry and 67 electric

Progress Report No. 60 - April 2020

poles as compensation, grants and resettlement benefits against their affected residential, fish gher, commercial, tress and common structures of Package-1. The total payment of resettlement benefit is BDT 6,036.39 lac. The Polder-wise non-titled EPs and payment of compensation as resettlement benefit is reflected in Table 3-1 below.

| Polder | Non-titled (Squatters) | Paid Squatters | Tenants | Paid Tenant | Wage Labourers | Paid wage labor | Total entities | Total Paid EPs | Amount paid in BDT (Lac) |
|--------|---------------------------|-------------------|----------|----------------|-------------------|-----------------------|-------------------|----------------------|--------------------------|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | (2+4+6) =8 | (3+5+7) =9 | 10 |
| 32 | 1,263 | 1,259 | 86 | 0 | 23 | 0 | 1,372 | 1,259 | 1,588.13 |
| 33 | 1,470 | 1,210 | 157 | 0 | 75 | 0 | 1,702 | 1,210 | 1,741.26 |
| 35/1 | 1,624 | 1,268 | 196 | 0 | 171 | 54 | 1,991 | 1,322 | 2,257.97 |

Table 3-1: Updated numbers of Non-titled entities up to April, 2020

In the meantime, the RAP/LAP Team has submitted the indent-14. Checking & verification is under process by XEN, CEIP-1 for further scrutiny submitted of some Non-titled (Squatters) Tenants & Wage Labourers under indent-14. Final indent shall be submitted to the concern authority after Checking & verification by the XEN, CEIP-1.

3.1.3.2 Payment of Compensation under Law (CUL)

The payment of compensation under Law (CUL) to the Titled EPs is going on by DC office both Khulna & Bagerhat. As of April 2020, DC office Khulna & Bagerhat has paid a total BDT 6,789.09 lac against 2,728 nos. of awardees among Titled EPs (811 nos. of Polder-32, 406 nos. of Polder-33, 988 nos. of Polder-35/1, 413 nos. of Polder-35/3 & 110 nos. of Newly Land acquisition at Banishanta mouza at Polder-33). 30 nos. of EPs have been paid under the CUL has been made in April 2020. As the continuous process BWDB and the social team is keeping contract with the concern DC office for expediting the CUL payment and holding meeting regularly. The progress of payment of compensation under law (CUL) is shown in Table 3-2.

3.1.3.3 Relocation Status and Assessment of Relocation in Package-1

Following the payment of compensation against the First to Thirteen indents, the affected people started relocating their structures by their own choice. It was disseminated to the people that if the affected people show their willingness to group relocation, the project will provide necessary civic amenities like construct entrance way to the resident, sanitation, tube well etc. BWDB, DDCS & PMS Consultant have been encouraging the EPs for group relocation so that there will be little chance to come back on the embankment. But in most cases, the affected people prefer individual relocation. Self-relocation has been started but the pace is very slow. Hopefully it will drive very swiftly within few days. A good number (53 nos.) of EPs from the total 53 nos. have not been relocated yet in Polder 33 situated in Laodobe Bazar. Concerned PAVC is looking for a suitable place to improve the market relocation. Point to be mentioned here is that the construction work of the chainage is ongoing. The social team is trying to arrange group relocation.

for Polder no. 35/1 against three mouza for (Saronkhola-6.93 ha) notices U/S-4 has been served Sharankhola and Waiting for sending to MOL for final approval & remaining two mouzas (Rayenda-2.57 & Kumarkhali-1.62) which Waiting for issuance of notices U/S-4 & (0.68 ha) for Polder no. 35/3 which Waiting for issuance of notices U/S-4. Status of land acquisition for four Polders under Package-1 is shown in Table 3-5.

The possession of land 119.91 ha has been received for Polder-32, 33, 35/1 and 35/3. An additional Land Acquisition Plan (LAP) was submitted to the DC, Khulna & Bagerhat under Polder-32 against one mouza (0.58 ha), Polder 35/1 against three mouza -11.12 ha (Kumarkhali-1.62 ha, Rayenda-2.57 ha & Sharankhola Mouza-6.93 ha) & Polder-35/3 against one mouza (0.68 ha) land. A total of 12.38 ha lands are pending for procession received of (0.85 ha) for Polder no. 32 which Waiting for reconnaissance field visit, (11.12 ha) for Polder no. 35/1 against three mouza for (Saronkhola-6.93 ha) notices U/S-4 has been served Sharankhola DC office send to MOL for final approval on 09 March 2020 & remaining two mouzas (Rayenda-2.57 & Kumarkhali-1.62) which Waiting for issuance of notices U/S-4 & (0.68 ha) for Polder no. 35/3 which Waiting for issuance of notices U/S-4. Status of land acquisition for four Polders under Package-1 is shown in Table 3-5.

Land Acquisition for Package-2 3.1.6

The land acquisition proposal for six polders under Package-2 has been submitted to concern DC (Perojpur, Jhalokathi, Barguna and Patuakhali) for acquisition. In the meantime, 139.50 ha land has been approved by MoL for polder 39/2C, 40/2, 41/1, 47/2 & 48. BWDB has placed fund against CUL to DC, Barguna for Polder-40/2 and Polder-41/1, DC, Pirojpur & Jhalakhathi for 39/2C, DC, Patuakhali for Polder-48. In Polder- 43/2C, total 11 mouza have been submitted to the DC office, Patuakhali. Among those notices U/S-4 have been issued against 5 (five) Mouza (Golkhali, Purbo golkhali, Kalirchar, Char horidevpur, Sohorirnirchar). 4 (Four) of those have been sent to the MoL for final approval. MoL has approved one case, remaining Land acquisition proposal has been sent back to DC, Patuakhali and asked to submit one case with all mauzas under a polder. Now the cases are preparing in one case is under process. For Polder-39/2C, Notices U/S-7 has been served for 21 mouzas (total 22 mouzas) under Pirojpur district and CUL payment is ongoing. Issuance of notices U/S-7 served for four mouzas, one under process in Jhalokathi district. The status of land acquisition for Package-2 is furnished in the following Table 3-6.

3.1.7 Implementation of RAP for Package-2

3.1.8 Implementation Activities

The RAP for Package-2 was prepared and cleared by the World Bank in March 2017, later on updated to incorporating some changes of land acquisition and resettlement issues. This updated RAP-2 was cleared by World Bank in December, 2018. As per updated a total of 6,778 entities have been identified of whom 1,777 entities are titled and 4,747 are non-titled on Government land (squatters) which may fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises.

3.1.9 Payment of Compensation / Resettlement Benefits for Package-2

Payment for Compensation and resettlement benefits for non-titled EPs (Squatters) has been started from October 2018. A total of 2,836 EPs have been paid amounting BDT 3,099.72 lac. The detail of the payment of compensation is shown in below:

| SI No | Polder No. | Non-titled (Squatter) | Tenants | Wage labours | Total Paid Non- titled Eps (Squatter) | Paid Amount (BDT Lac) |
|----------|------------|--------------------------|---------|--------------|---|--------------------------|
| 1 | 39/2C | 52 | 27 | 11 | - | - |
| 2 | 40/2 | 1,745 | 398 | 95 | 747 | 746.67 |

3.1.11 Relocation Status of Package-2

Following the payment of compensation against the 1st to 3rd indents the affected people started relocating their structures by their own choice. It was disseminated to the people that if the affected people show their willingness for group relocation, the project will provide some support through civic amenities like construct entrance way, sanitary latrines and tube well etc. BWDB concern and DDCS & PMS Consultants have been encouraging the AP for group relocation so that there will be little chance to come back on the embankment. But in most cases, the affected people have been showing different opinions for individual relocation instead of group relocation. The progress has shown that a total 2,392 have relocated till April 2020. Cluster relocation made by 133 EPs comprises in the 5 different places (3 in Pochim Kuakata and 2 in Khajura) in Polder-48 and 4 different places of Polder-41/1. The status of relocation has given below in Table 3-9 after the first indent payment made:

Table 3-9: Status of relocation in Package 2

| | | Total = | 45 | 28 | 17 | 0 |

Table 3-10: The status of complaints/cases received and resolved by GRC

BWDB and RAP team maintain records in detail about the complaints, procedures and the resolutions adopted in a register including intake register, resolution register and closing register followed by the policy of the RAP.

3.1.13 Preparation of EIA of Package-1

The EIA of 4 Polders under Package-1 were completed during the study period and duly been approved by the competent authorities including World Bank. The said EIA reports were updated based on final Land Acquisition Plan (LAP) which were also approved by the competent authorities including World Bank. The EMP of the EIA reports are being implemented in Package-1.

3.2 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package-2 Polders

3.2.1 Data processing and reviewing the shop drawings

Immediately after the completion of each day's survey work, the raw data is submitted to the DRE. Then the raw data is processed to check the quality by using the field log sheet. The shop drawings of embankment and khals are also verified with the received raw data/field log sheet and reviewing the proposed alignment before giving final approval.

3.2.2 Bid Documents of Package-2

The Bid Documents covering all the activities mentioned above were completed and approved by the competent authority based on which the tender of Package-2 was floated and finalized and subsequently, the contract was awarded to the lowest bidder. Detailed information below:

Date of Bidding : 24th March,2016

Notice of award : 15th December, 2016

Signing of Contract : 8th March, 2017

Commencement of Work : 12th July, 2017 Original Target for completion : 11th January, 2021

3.2.3 **Design status of Package-2**

All the Detailed Designs of Package-2 were completed long before.

3.2.4 **Preparation of EIA of Package-2**

The EIA of 6 Polders under Package-2 were completed and duly been approved by the competent authorities including World Bank. The said EIA reports were updated based on final Land Acquisition Plan (LAP) which were also approved by the competent authorities including World Bank. The EMP of the EIA reports are under implementation in Package-2.

3.2.5 Review and submission of report on Toilets constructed and maintained in CEIP-1

A report on numbers and quality of toilets at different camp sites and work sites of Package-1 and Package-2 of CEIP-1 was submitted to World Bank. The report was finalized along with responses of the comments and submitted to World Bank accordingly.

3.2.6 Preparation of document for addressing COVID-19 by the Contractor

A draft work plan has been prepared for the Contractor, to address COVID-19 pandemic in construction/civil activities for CEIP-1, which will help for adoption of precautionary measures against outbreak of COVID-19amongst the project manpower along with treatment of the infected workers. The note was prepared following the guidelines prepared by WHO on 07 April, 2020 and provided by the World Bank.

3.2.7 Collection of information on workers in different work sites from Contractor along with COVID-19 response, Package-1

The Contractor of Package-1 has been involved in various construction /civil activities where some local and expatriate workers/ staffs are involved. The works were continued at various work sites in the month of April, 2020 during the spread of COVID-19 in the country and abroad. The Contractors took some measures like provision of PPE like surgical mask, hand gloves, hand sanitizer (containing 75% alcohol), checking of workers' temperature, disinfection of camp and work sites, imposition of some restrictions and preparation of isolation areas. Information on workers and work sites and safety issues provided by the contractors has been described by the contractors as follows:

3.2.8 **COVID-19** response (Package-1):

- Conducted temperature checks to all personnel and workers every day including office, camp, local construction, sluice and slope protection construction sites;
- · All personnel used surgical masks during operation and had been given masks before starting works every day;
- Keep hands clean with hand sanitizer and disinfectant to avoid spreading of the virus
- Thorough disinfection is conducted on every Friday, including office areas, camps, prefabricated plants, construction vehicles and motor vehicles;
- · Contact with more positions (such as gate guard, police), provide surgical masks, medical gloves, eye masks;
- The workers are provided safety education, increase publicity of novel coronavirus prevention knowledge before start of works;
- It is strictly forbidden to ask for leave and leave the working area.

3.2.9 **Environment-related information, Package-1**

The Contractor, Package-1 has forwarded some information related to environment for the month of April, 2020 as part of the regular exercise, as provided in Table as follows:

laskoningDHV

Table 3-12:Information for the month of April, 2020

3.2.10 Noise measurement of Package-1

None of the automated CC block manufacturing plants of Package-1 was in operation during the month of April, 2020. Thus, no measurement was carried out in any polders of the Package-1.

3.2.11 Collection of information on workers in different work sites from Contractor, along with response to COVID-19, Package-2

The Contractor of Package-2 has been involved in various construction /civil activities where a large number of local and expatriate workers/ staffs are involved. The works were continued at various work sites during the month of April, 2020, when there were incidents of COVID-19 in the country and abroad. The Contractors took some measures like provision of mask, hand gloves, hand sanitizer (containing 75% alcohol), checking of workers' temperature and preparation of isolation areas. The number of workers along with other information and safety issues provided by the contractors have been described by the contractor, Package-2 herewith.

Table 3-13: Work site information of Package 2, CEIP-1 during the month April, 2020

| SI. No. | Location of Work site | Type of work | No of workers involved during 01.04.2020 to 30.04.2020 | | Expected date of work completion | Comments |

COVID-19 Response (Package-2) 3.2.12

During this period, Contractor has always provided the protective tools to workers, such as Mask, Hand Sanitizer and the 75% of alcohol, also check workers' temperature everyday with Temperature measuring equipment and also every Polder camp has prepared the isolation area.

3.2.13 **Environment-related information (Package-2)**

The Contractor, Package-2 has forwarded some information related to environment for the month of April, 2020 as part of the regular monthly exercise, as provided in the following Table.

Table 3-14: Information relating to Environment under Package-2 for April, 2020

| | No. of Total Workers in 6 Polders this Month | | No. of | No. of total | No. of total environm | No. of problem faced for | |

| Polder 47/2 | 2 | 0 | 0 | 0 | 0 | 0 | The number of worker decreased due to pandemic situation |
| Polder 48 | 46 | 6 | 25 | 0 | 0 | 0 | The number of worker decreased due to pandemic situation |
| Total= | 271 | 47 | 205 | 0 | 0 | 0 | |

3.2.14 **Noise Measurement, Package-2**

The automated CC manufacturing plants of Polder 39/2C are closed during the month of April, although generator is functional for various other works. In other work sites noises are mainly related to functioning of generators. The noise levels of work sites of Polders 39/2C, 40/2, Polder 41/1, Polder 43/2C and 48 (works in Polder 47/2 almost completed) are provided in Table 3-15 as follows:

3.2.15 Progress of Mechanical Work

About mechanical aspects the following activities were conducted:

Package-1

The installation of gates and hoists in 29 sluices have been completed and installation of the remaining gates are in a boost stage of completion and will speed up the expenditures and consequently the disbursements in the coming months. Corrective action is executed on some of the sluices to install support brackets with replacement of shafts (incorrectly fabricated by contractor) and reduce the diameter of the swivel wheel. Revised design and drawings have been prepared for the drainage sluices of different Polders which has already been approved by the concerned Design Office of BWDB. Work order for Fabrication and Installation of Gates and Hoists, based on revised design, was issued to the Contractor immediately after getting approval of the revised design. After approval of the Variation order the Contractor has made fabrication contract with local manufacturer. Fabrication work was started but due to worldwide pandemic of Corona Virus no further progress could be in fabrication of Gates and Hoists in China and in local factory during the month of April, 2020.

Package-2

Shop Drawings of gates and Hoists approved and sent to the Contractor to start fabrication work in China. Pre-Fabrication material test was done at BUET and found in order. Gates and Hoists are being fabricated in China. Already 45 no. gates and hoists have arrived at site. Inspection and testing of these Gates have already been done. Contractor has been advised to install these Gates as early as possible. Already 10 no gates have been installed in the completed structures. For the remaining Gates the Contractor is being persuaded and they promised to bring those Gates shortly but due to worldwide pandemic of Corona Virus no further progress could be in fabrication of Gates and Hoists in China and in local factory during the month of April, 2020.

3.3 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package-3 **Polders**

3.3.1 Design

CFTP-1

The Design Parameters for Package-3 were obtained from IWM in the month of March, 2018 which were concurred by the Superintending Engineer, Design Circle-5 in the month of September, 2018. By this time, the Design of Embankments of 7 Polders and Drainage Cum Flushing Sluices have been prepared and submitted to the Design Circle-5 BWDB, Dhaka for approval. The design of Embankment of 7 Polders and design of 15 Drainage Sluices of different vents have been approved by the BWDB Design Circle-5 by this time and the design of more 38 Drainage Sluices of different vents have been completed and submitted to the BWDB Design Circle-5 for approval.1(one) typical

Progress Report No. 60 - April 2020

askoningDHV

design of Gates & Hoists for Drainage Sluice and 1 (one) typical design of Gates & Hoists for Flushing Sluice have been submitted to the BWDB Design Circle-3 for approval. The detailed information with regard to status of preparation and approval of design of Package-3 has been shown in the Table-3.20 below:

Bidding Document of Package-3 3.3.2

Preparation of the Bidding Documents had been completed and submitted to PMU on 17 October, 2019.

3.3.3 **Preparation of EIA of Package-3**

EIA of 7 Polders of Package-3 have been drafted and submitted to the World Bank through PMU for their comments. At present the EIA report of Polder 14/1 has been reviewed in the light of the latest comments of World Bank and submitted to International Environmental Panel of Expert (IPOE) for review and approval. It is still under review by the IPOE.

In addition, a format has been developed for both Package-1 and Package-2 that included various recording of key information related to the engaged workers at different work sites, as per the requirements of the World Bank Senior Environmental Specialist. The format includes information like worker's address, supporting family members, history of different diseases he suffered/ is suffering, next of kin etc. for conduct of follow up activities as and when required.

3.3.4 **RAP Preparation for Package-3**

After the accomplishment of the map of alignment fixing by the concern of BWDB and Consultants, the LAP/RAP team has completed the Household (HH) numbering and IoL survey have done in all seven Polders (Polder-14/1, 15, 16, 17/1, 17/2, 23 and 34/3) under Package-3, CEIP-1. A total of

Progress Report No. 60 - April 2020

20 community consultation meetings were conducted in 15 different locations in all Polders of Package-3. Resettlement Action Plan (RAP) for Package-3 was submitted by the consultants long before. Meanwhile, the design crest level has been increased from 4.50 m to 6.00 m with the instruction of BWDB and the design of embankment was approved accordingly. At present, the LAP is being updated in accordance with the approved design of embankment. However, the RAP submitted earlier has also to be updated based on updated LAP.

3.3.5 **LAP Preparation for Package-3**

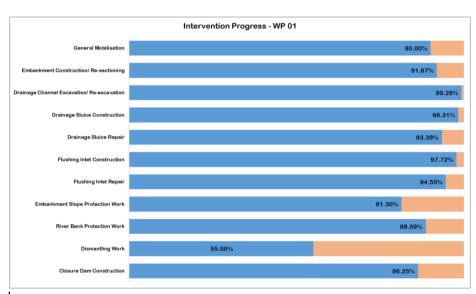

The Land Acquisition Plan (LAP) of Package-3 has been prepared on the basis of original design of embankment where the crest width of the embankment was 4.50 m which was submitted to the Project Director, PMU, CEIP-1, BWDB, Dhaka. The Project Director forwarded the proposal of LAP to the XEN, CEIP-1, Khulna to submit the same to the concerned DCs. Meanwhile, BWDB had decided to change the design of embankment providing the crest width 6.00m instead of 4.50 m. At the present context, the designs of embankment have been approved by the Design Circle-5, BWDB considering the crest width 6.00m. The LAP/RAP team has collected records and information on previously acquired land for seven Polders (Polder-14/1, 15, 16, 17/1, 17/2, 23 and 34/3) from concerned O&M Divisions of BWDB and the concerned DC offices (Khulna, Satkhira and Bagerhat). Mouza Maps have also been collected from the office of Director, Land Records, Tejgaon, Dhaka and the DC office Khulna, Satkhira and Bagerhat. The works of Package-3 proposes to acquire 85.95 ha land for improvement of Seven Polders. The 3rd Package is likely to displace 4785 house hold (HH) and other units. But all these activities will require updated in accordance with the revised LAP.

3.4 Task C: Supervise Construction & Administer Contract of Package-1

3.4.1 **Introduction**

The **Progress** covers the events up to 30th April, 2020. The contact Package-1 was signed on 1st November, 2015 for the execution of Rehabilitation/

Reconstruction and Upgrading of Polder-32; Polder-33; Polder 35/1 and 35/3 under Package-1. The date of formal commencement of work was on 26th January, 2016.

The Contractor submitted the administrative work

Figure 3-4: Item Wise Progress of Package-1

and has affected necessary site visit to establish the dossier for 5% advance Payment and take possession for sites. Contractor has received the full 10 % advance payment and spent to purchase machineries and equipment in China; Chinese engineers and supporting personnel have mobilized and the same is true for the recruitment of local labour; construction of facilities and buildings are mostly completed. Total expenditure incurred up to IPC-22 is BDT 5,452.07 million including adjustment for changes in legislation (VAT & IT) and adjustment for changes in cost. Construction of 38 nos. Drainage Sluices out of 38 nos. have been completed. Out of 30 nos. of Flushing sluice 29 nos. have already been completed. The remaining Flushing Sluice # 21 of Polder-35/1 has been dropped as the existing condition of Flushing Sluice is in good condition. Total length of

embankment in 4 Polders under Package-1 is 200.617 out of which 17.063 km is paved road. The remaining 182.704 km embankment, 155.793 km is completed, and 24.232 km is partially completed which is expected to be fully completed within the target date of the contract. The original target for River bank protection works was 4.45 km but as per actual field requirement 200 m bank protection works have been reduced in Polder-33 & Polder-35/1 by 100m each, resulting the revised target 4.25 km. Out of 4.25 km, 4.15 km has been completed and the remaining 0.100 km is expected to be completed within the target date of Contract period. The original target for Slope Protection works was 19.966 Km but as per the field requirement in total 200 m have been omitted in Polder-35/3 resulting the revised target 19.766 Km. Out of 19.766 km, 13.576 km has been completed. The remaining 6.19 km Slope Protection works are in different stages of progress and expected to be completed within the target date of the Contract period. Manufacturing of C.C blocks are going on for the riverbank & slope protection work. The item wise physical progress of Package-1 is reflected in Table-3.31

HaskoningDHV

Physical Progress (Mile Stone Matrix) 3.4.2

Total nos. of Flushing sluice to be repaired as per contract was 30 nos. out of which 16 nos. has been dropped and those are reflected in detailed in Table 3-32 and Table 3-33 below:

Table 3-32: Information of Repair of Flushing Sluices and Drainage Sluices

| SI No. | Name of Polder | Total Nos. as per Contract | Current Status | Total Dropped | Remarks |
|-----------|----------------|-------------------------------|-------------------|------------------|---|
| 01. | Polder-32 | 20 nos. | 6 Nos. | 14 Nos. | Mostly fallen outside of the retired embankment. |
| 02. | Polder-33 | 5 Nos. | 3 Nos. | 2 Nos. | As it has been constructed by the local shrimp culture owners |
| 03. | Polder-35/1 | 3 Nos. | 3 Nos. | 0 | Due to unrepairable |
| 04. | Polder-35/3 | 2 Nos. | 2 Nos. | 0 | Do |
| | Total = | 30 Nos. | 14 Nos. | 16 Nos. | |

Remaining (30-16) = 14nos. are in the program out of which 13 nos. have been completed and 1no.are in progress.

Total 2 nos. of Drainage Sluices under repair were in program the work of which have already been completed.

Table 3-33: List of Flushing Sluices Dropped from the repairing Program

| Flushing Sluices | Reasons for dropping |
|---------------------|---|
| Polder 32 | |
| FFDFR-01 | Not repairable |
| FS-04 | Not repairable |
| FM-01 | Not repairable |
| FM-02 | Sluice is now in no use. |
| FM-07 | No need to repair, connected with the private pond. |
| FM-11 | No need to repair, connected with the private pond. |
| FM-12 | Sluice could not be identified. |
| FO-02 | Outside the Rtd. Embankment |
| FO-03 | Not repairable |
| FO-04 | Outside the Rtd. Embankment |
| FO-05 | Outside the Rtd. Embankment |
| FO-06 | Outside the Rtd. Embankment |
| FH-09 | Engulfed into the river due to river erosion. |

| Flushing Sluices | Reasons for dropping |
|---------------------|---------------------------------------|
| FH-18 | Private structure |
| Polder 33 | |
| FS-02 | Private structure, repair not needed. |
| FS-18 | Private structure, repair not needed. |

3.4.3 Staffing

In Table 3-34 below man power deployment for Contract Package-1 is listed and sample check has been done by the Consultants.

ACTUAL

SCHEDULE

Legend:

Emergency Works in Package-CEIP-1/W-01 3.4.7

The emergency works under this Package have taken up to close the breaching of existing embankment at some vulnerable locations. The main target of these emergency works was to stop the intrusion of saline water into the Polders to save the crops. In the Contract, there was a provision for an amount under Environmental Mitigation Works (Specified Provisional Sum). After exhaustion of the above-mentioned amount to meet up the cost of the rest emergency works, the expenditures are being meet up from the Physical & Price Contingencies. The status of expenditure up to April, 2020 are shown below:

Table 3-37: Summary of Emergency works under the head of "Environmental Mitigation Works"

| SI. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|-----|----------------|--------------|---------------------------|
| 01 | Polder-32 | 4.187 | 21,314,699 |
| 02 | Polder-33 | 1.454 | 8,616,598 |
| 03 | Polder-35/1 | 0.941 | 7,981,316 |
| 04 | Polder-35/3 | 1.04 | 2,078,530 |
| | Total = | 7.622 | 39,991,142 |

❖ Total available budget as per contract: BDT: 40,000,000.00

3.4.8 Impact Assessment CEIP-1, W/01 Due to Corona Virus Restrictions

Team Leader, DDCS&PMS Consultants, CEIP-1, submitted a risk assessment matrix to the Project Director and the World Bank on April 12, 2020 in respect of the Contract CEIP-1/W/01 is affected by the outbreak of COVID-19. The table high- lighted critical works components under Package -1 that needs to be completed to protect the four Polders from flooding event in the upcoming monsoon months and to help protecting the Polder Community from any cyclonic event. Considering Month of May, a very critical month for cyclonic storm in Coastal Bangladesh, the DDCS & PMS Consultants team comprising; Deputy Resident Engineer, and two CSEs and Field Engineers, fully monitored Contractors' work to get these critical works done by April 30, 2020. The Contractor tried, but the limitations to workers' assembly imposed by local administration retarded work flow that was already aggravated by Contractors cash flow problem.

The Risk Assessment Matrix sent by Team Leader, DDCS & PMS Consultants' team to the Project Director and the World Bank reflected important items such as description of critical works component, present status of works, risks involved if works not done, what is the minimum to be done to protect the Polder etc. The table is updated to see the progress of work done and a sample matrix updated to 30 April 2020 is attached for reference in

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works as per Date | Progress Status of the Works as per Date | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|---|---|---|--|---|---|---|---|--|--|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 32 | 1 | Construction of Nalian Closure Dam | 1 | Ongoing | 72.5% | 30th June 2020 | Yes | There is every possibility to wash out the closure dam. | The present Top level of the Dam is only 4.00 m PWDB which has to be raised up to design level of 5.50 m PWD with slope protection works. | Working environment is not at all normal due to Pandemic Corona o Virus. The local authority / law enforcing agencies are creating obstacles in the movement of Field Engineers, work Supervisors, Mechanics, Driver labors etc. | To save the entire Polder from saline water intrusion and also to keep the existing closure point sustainable because failure of the dam will cause a very big disaster. |
| | 2 | Additional Bank Protection Works | 6 Nos / km 7.500 to km 8.500, km 14.500 to km 15.000, km 16.400 to km 18.600 to km 19.200 on the Left | No | Not yet started | Provision was made in the RDPP which is under process of approval for which works could not be started. | Yes | Saline water intrusion may be occurred into the Polder area by eroding the newly constructed embankment & structures. | Temporary emergency Bank Protective works may be required during onset of monsoon to protect the newly constructed embankment and Drainage Sluices. | Not applicable as the work has yet not started. | To save the newly constructed embankment & structures and also to prevent saline water intrusion inside the Polder area. |

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works as per Date | Progress Status of the Works as per Date | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|--|--|---|--|---|---|---|--|---|--|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| | | | Bank of Dhaki River, km 30.700 to km 31.100 on the Right Bank of Bhadra River & km 44.800 to 45.900on the Left Bank of Shibsha River in Polder-32. | | | | | | | | |
| | 3 | Retired Embankment from km. 16.600 to km. 16.950 | 0.35 | No | Not yet started | 30th June 2020 | Yes | The emergency ring dyke may erode and saline water may enter into the project area. | Emergency work has to be done. | Not applicable as yet as because the works has not yet started. | Land Acquisition process is in progress in the DC office which may be delayed for the present crisis of corona virus. For this reason emergency works may be required. |

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works as per Date | Progress Status of the Works as per Date | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|------------------------------|-----------------|---|--|---|---|--|--|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 35/1 | 1 | Slope Protection Works | 7.15 | Ongoing | 60.00% | 30th June 2020 | Yes | Slope of the embankment will be damaged due to wave action of the river. | 7.15 km slope protective works to the newly constructed Sea dyke embankment has to be completed. | The local authorities blocked all roads inside Polder area & stopped the work showing the cause of Pandemic of Corona Virus. As a result, quarrels between villagers and labors were occurred. As per our request local UP Chairman & Police settle down the quarrel. | The entire length of the Sea Dyke embankment is running along the Bank of the mighty river Baleshwar. If the slope protection works is not completed then the Sea Dyke embankment may not be sustainable. |
| | 2 | Bank Protection Work | 0.10 | Ongoing | 97.65% | 30th June 2020 | Yes | Embankment will be eroded and as a result Saline water from river will enter into the Polder area. | Completion of 100m bank protective has to be done. | The working environment is not normal due to Pandemic of Corona Virus. Field staffs of CHWE are not willing to go outside of their camps. | To save the newly constructed embankment & structures and also to prevent saline water intrusion inside the Polder area. |

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works as per Date | Progress Status of the Works as per Date | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|--|-----------------|---|--|---|---|--|--|--|--|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| | 2 | Retired Embankment from km. 23.500 to km. 25.425 | 1.925 | No | Not yet started | 30th June 2020 | Yes | The emergency ring dyke may erode/overtop and saline water may enter into the project area. | Temporary emergency work may need to be done. | The land owners do not allow to continue the works until the land owners receives compensation of Lands. | Land Acquisition process is awaiting approval of the Ministry of Land for which Emergency works may be required. |
| | 3 | Erosion of river Bank adjacent to the embankment of Polder- 35/1 from km 2.200 to km 4.000 | 0.18 | No | Not yet started | 30th June 2020 | Yes | The newly constructed embankment maybe engulfed into Shibsa River leading to saline water intrusion into the Polder. | Emergency work may need to be done. | Not applicable as yet as because the works has not yet started. | To save the newly constructed embankment and also to prevent saline water intrusion inside the Polder area. |

Table 3-41: Work Progress and Impact Assessment Matrix following Corona virus restrictions, CEIP-1, W/01 (April 30, 2020)

| 35/1 | 1 | Slope Protection Works | 7.15 | Ongoing | 60.00% | 30th June 2020 | Yes | Slope of the embankment will be damaged due to wave action of the river. | 7.15 km slope protective works to the newly constructed Sea dyke embankment has to be completed. | The local authorities blocked all roads inside Polder area & stopped the work showing the cause of Pandemic of Corona Virus. As a result, quarrels between villagers and labors were occurred. As per our request local UP Chairman & Police settle down the quarrel. | The entire length of the Sea Dyke embankment is running along the Bank of the mighty river Baleshwar. If the slope protection works is not completed then the Sea Dyke embankment may not be sustainable. |
| | 2 | Bank Protection Work | 0.10 | Ongoing | 97.65% | 30th June 2020 | Yes | Embankment will be eroded and as a result Saline water from river will enter into the Polder area. | Completion of 100m bank protective has to be done. | The working environment is not normal due to Pandemic of Corona Virus. Field staffs of CHWE are not willing to go outside of their camps. | To save the newly constructed embankment & structures and also to prevent saline water intrusion inside the Polder area. |

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works as per Date | Progress Status of the Works as per Date | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|--|-----------------|---|--|---|---|--|--|--|--|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| | 2 | Retired Embankment from km. 23.500 to km. 25.425 | 1.925 | No | Not yet started | 30th June 2020 | Yes | The emergency ring dyke may erode/overtop and saline water may enter into the project area. | Temporary emergency work may need to be done. | The land owners do not allow to continue the works until the land owners receives compensation of Lands. | Land Acquisition process is awaiting approval of the Ministry of Land for which Emergency works may be required. |
| | 3 | Erosion of river Bank adjacent to the embankment of Polder- 35/1 from km 2.200 to km 4.000 | 0.18 | No | Not yet started | 30th June 2020 | Yes | The newly constructed embankment maybe engulfed into Shibsa River leading to saline water intrusion into the Polder. | Emergency work may need to be done. | Not applicable as yet as because the works has not yet started. | To save the newly constructed embankment and also to prevent saline water intrusion inside the Polder area. |

Task C: Supervise Construction & Administer Contract of Package-2 3.5

3.5.1 Introduction

The MPR covers all major site activities executed in each of the six Polders up to 30 April, 2020. The Contract was signed on 8th March 2017 for the execution of Rehabilitation/Reconstruction and upgrading of six (6) Polders in total, namely Polder 39/2C, 40/2, 41/1, 43/2C, 47/2 and Polder 48 under CEIP-1 (Contract No: CEIP-1/W-02)

The Contractor completed administrative work site visits and dossier for the 5% advanced payment and took possession of sites and the employer has paid the 5% advanced payment to

Upon receipt of the first instalment 5% Advanced Payment, the Contractor proceeded with the procurement of goods and services to create the team and physical facilities, equipment and/or tools and started work on site. The Contractor has also received 2nd instalment of Advance Payment and utilizing to execute the physical work of the Contract.

In the Result Framework target the provision was made for replacement of 50 nos. Flushing Inlets. Considering the actual requirement of the field 2 nos. Flushing Inlets (FS-21 & FS-22) have been shifted from replacing to repair. Hence, the numbers of replacing the Flushing Inlets stand to 48. The item wise physical progress is reflected in the Figure 3-49.

3.5.3 Advance Payments

The Contractor has received 2nd instalment of 5% Advance Payment having total expenditure incurred against advance payment is BDT: 1028.40 M.

The site works of Package-2 are going on with sufficient machineries and equipment.

The deployment list of Contractor staff (Chinese People) is appended below in Table 3-53. The Contractor has established their site offices at Bhandaria, Kalapara, Barguna, Patharghata and their field head quarter at Patuakhali.

3.5.4 Equipment mobilization

Equipment including, machines, tools, barges, etc. have been purchased and deployed at site. Equipment including Excavators, Dump trucks, Rollers, Pay Loaders, Automated CC Block manufacturing plants and Tippers are at site.

The target of the 1st dry season was - to manufacture CC block in connection with River Bank Protection work. Thus five (5) nos. automated CC block manufacturing Machines are installed at the CC blocks manufacturing Yard in Polder-39/2C. Some CC block are also to be manufactured manually, for which CC block manufacturing started in Polder-40/2, Polder-41/1, Polder-43/2C, Polder-47/2, & Polder-48.

A length of 34.821 km full and 21.609 km Partial Embankment Re-sectioning work has been completed. Construction of 21nos. Flushing Sluices and 35nos. Drainage Sluices are in Progress by the end of the reporting month of April 2020.

3.5.5 Slow Progress During the Reporting Month (April 2020)

Contractors' work flow slowed down from the month of January 2020 due to cash flow problems resulting in short supply of materials (mostly cement and stone). It was predicted that the situation would improve during the month of February and March 2020, but it did not improve as predicted, rather it was affected more due to addition of COVID-19 pandemic situation. Thus, the situation continued throughout the reporting month of April 2020 resulting very poor progress of works. Although the contractor's cash flow situation was partly recovered, the supply chain of materials (cement, stone / brick chips, geotextile etc.) was largely interrupted due to restrictions applied on transportation by the Government to tame spread of Corona Virus. This situation affected the works of manufacturing CC Blocks for bank protection and embankment slope protection works during the reporting month of April 2020.

The issue of gate installation to the already completed sluices in different Polders created another setback in the work progress. The Contractor committed to install gates to around 31 completed sluices by February 2020, but the vertical gates imported from China could not be inserted through the 15 cm wide slot in the operating deck due to larger beam section. The Contractor -

remodelled the vertical gates to use as flap gate and flap gate to vertical gate and one of these remodelled gates was installed at the Drainage Sluice (DS#6) in Polder 41/1. The gate was checked and found to be okay. However further operational use of the gate during the flood season, will confirm suitability. Mechanical Engineering Consultant of DDDCS& PMS team already certify this remodelling to use the same system in other completed drainage sluices.

The remodelling takes quite a bit of time and the Contractor found it difficult to fix gates in other completed sluices in time. Construction Resident Engineer, CEIP-1, W/02, instructed Contractor with a number of reminders to fix gates to all the remaining completed sluices by April 15, 2020 to facilitate functioning of these sluices for use by the farmers in irrigating crops field. But the installation process has been too slow during the month and thus the Contractor could not complete these works even by 30 April 2020.

In addition to slow progress of works, the CEIP-1, W/02 is affected by the outbreak of COVID-19 starting from early March 2020. A number of Chinese experts (around 50) who went to China could not return to work for the Project. This situation affected the Project activities including installation of gates and hoists. Further, the Government declared closures of offices from 25 March 2020 to check the spread of the virus that affected the Project to a great extent. Many of the contractor's local staff went on holidays affecting the work flow. The Government closure has been extended to May 05, 2020 and situation resulted in short supply of local staff. Further, the local administration applied social distancing measures and did not allow assembly of more than six workers in order to control spread of the virus affecting work flow. Contractor's local labour strength is reduced by 60% (from 1070 persons in March 2020 to around 500 in April 2020) as reported by the Contractor's Deputy Project Manager, today May 01, 2020.

As there was drastic reduction in local workers' assembly due to COVID-19 situation, a good number of Chinse Technicians left the Project affecting the works.

The Contractor, Package-2, did not recover from cash flow problem affecting work flow as the approval of Variation Order #1 is still pending with the Employer due to Government Closure of Offices. Approval of the Variation Order #1 should remove contractor's cash flow problem as the Engineer would be able to recommend contractor's outstanding payments for the works already completed over and above the Bill of Quantities (BOQ) for the interest of the Project.

Page 85 of 113

3.5.6 Plans for execution of works

Early in the work season of the current year 2020, the Contractor was advised to precede with the top priority works of the embankment slope Protection at the important tourist hot spot location of Kuakata sea beach in Polder 48. Around 1.215 kilometres of slope protection works was targeted for completion in the current dry season including a very vulnerable length of 700 metre. The other priority works are the bank protection works in the four Polders (39/2C, 41/1, 47/2 & 43/2C) during this dry session.

Embankment earthworks and re-excavation of drainage channels included in the current year program for the Six Polders are also planned for execution in this dry season. All drainage channels included for re-excavation in the current year program are planned for completion. Although land acquisition issue does not pose any problem, resettlement is an issue impeding embankment earthworks construction in Polder 39/2C, 43/2C and 500meter retired embankment in Polder 47/2.

Program for Month of May 2020

Polder 39/2C:

CC Block Manufacturing Yard1: (A) Nadmulla

No program

CC Block Manufacturing Yard2: (A2) Charkhali

To manufacture monthly scheduled of 20,000 Nos. blocks (40x40x30 cm)

CC block manufacturing yard 3: (B) Telikhali

To manufactured monthly schedule of 20,000 nos. (40x40x40)

Other Construction Activities

- Approach dyke, placing of blocks in filter bed & loose apron of DS-7&12 including gates installation & diversion channel and khal closures
- CC Blocks dumping of around 20,000 nos
- Embankment construction work of about 1.000 kilometre
- Continue construction works for DS-8, DS-10, & DS-11;

Polder 40/2:

- Approach dyke, placing of blocks in filter bed & loose apron in FS-4/1, FS-9, FS-10, DS-2, DS-3, DS-4/5 including opening diversion channels
- Installation of gate in FS-4/1, FS-9, FS-10, DS-2, DS-3, DS-4/5
- To manufacture CC Block
- To progress with the on-going work of DS-10 & DS-7A
- To progress the re-sectioning work of embankment
- To progress the repairing work of Drainage & Flushing Sluices;
- To progress the slope protection work from Km 1.240 to Km 1.640

Polder-41/1:

- To start manufacturing CC Blocks at Gulbunia & other sluices locations
- Approach dyke, placing of filter bed blocks & loose apron & installation of gates in DS-1, DS-5, DS-6, DS-7, DS-8, DS-9, FS-1, FS-3, FS-8, FS-9 & FS-15 including opening up diversion
- To progress with the works of DS-3, DS-4, DS-10, FS-6, FS-5 & FS-28
- To progress with the re-sectioning work of embankment and construction of retire embankment.
- To complete the repairing work of FS-18 & FS-22
- To start the repairing of Flushing Sluices FS-21 & 23

Polder 43/2C

- Continue construction and re-sectioning work of embankment
- Make progress with the construction work of FS-1 (A), FS-10, FS-18 & FS-8
- Install gates in DS-7 and make progress for DS-1, DS-3, DS-4, DS-5 & DS-8
- Manufacture CC blocks for river bank protection work and Hydraulic structures
- Start repairing works of Flushing Sluices

Polder-47/2

- Bring the gates in operation in DS-1, DS-2, DS-3, DS-4, FS-1, FS-6 & FS-7
- Manufacture CC Block for river bank protection work
- Make progress with the dumping of the CC blocks
- Complete the repairing works of FS-2 & FS-4

Polder-48:

- Start manufacturing CC Block immediately
- Make progress with the re-sectioning work of embankment
- Make substantial progress with the slope protection work of sea dyke at Kuakata Beach
- Install gates in DS-1, DS-3/2, DS-3/4, FS-1, FS-3 & FS-4
- Make progress with the work of DS-2A, DS-3/3 & DS-6
- Complete the repair work of Drainage Sluice DS-5

Other structures and embankment works are to be started very soon of 2019-2020. Site activities on all structures will go through first, second and third dry season. The majority of the sites works are scheduled during these three main dry seasons.

Construction of Regional office Building at Patuakhali and others building 3.5.7 at Kalapara and Pathorghata,

Regional Office Building at Patuakhali: Approved detailed design was issued to the Contractor to start the building and the Contractor has already started the work from 17 April 2019 and the work is in progress. The overall progress is about 65%.

Vertical Extension of BWDB's Existing Office Building at Kalapara, Patuakhali: The Building had been completed and handed over to the competent authority.

Rest house Re-construction at Pathorghata, Barguna: Re-construction work of Rest House at Pathorghata has been dropped as per decision of the employer and the saved money will be used to construct the Office Building cum Rest House at Bhandaria under Pirojpur. The preparation of variation order for construction of the Office Building cum Rest House at Bhandaria is in the process.

Boundary Wall at Pathorghata BWDB Colony: The boundary wall has been 100% completed.

Laboratory Building at Patuakhali: The building had been completed and handed over to the competent authority.

3.5.8 **Emergency works in different Polders**

Emergency work in Polder-40/2 (km 12.92 to km 12.989, km 13.215to km 13.411 and km 13.992 to km 14.077: cost BDT 2.795 million): Earth work in connection with emergency Ring-dyke Construction in Polder-40/2 along the alignment of the damaged embankment is completed.

Placing of Geo-textile bags on the river side slope of Ring-dyke to protect the slope from wave action is completed.

Emergency work in Polder-41/1: (km 5.139 to km 5.189: Cost BDT 0.585 million) Dumping of earth filled Synthetic bag along the river side slope of the damaged embankment in Polder-41/1 has been completed.

HaskoningDHV

CFTP-1

Emergency work in Polder-47/2: (km 6.168 to km 6.618): Backing of the Embankment by earth filling is completed. Subsequent wave action needed additional temporary protection by sand filled Geo-bags and palisading works, which has been completed.

Emergency work in Polder-48:

- 1. (Km 31.060 to km 31.220; km 31.280 to km 31.408; km 34.305 to km 34.525): Sea dyke slope protection work by Geo-bag, Gunny bag, Bullah, Bamboo etc has been completed.
- 2. Emergency work from km 31.060 to km 31.220 and km 31.280 to km 31.408 has been completed.

Emergency work in Polder-39/2C:

1. Emergency temporary bank protection work from Km 54.512 to Km 54+600 and Km 54+608 to Km 54+678 in Polder-39/2C were started on 10th September'2019 and the work has been completed.

3.5.9 Finance (Invoices) Contractor Package-2

- **IPC-01** of Contractor package-2 concerned the first instalment of the 5% Advanced payment and was paid on 28 June 2017.
- IPC-02 concerned the second instalment of the 5% Advanced payment which was recommended by the Engineer and was paid by the Employer on June 2018
- IPC-3 was recommended by the Engineer and paid by the Employer on 20 June 2018
- IPC-4 was submitted to the Employer on 29th October 2018 by the Engineer with recommendation for payment and paid by the Employer on 19 December 2018
- IPC-5 was submitted to the Engineer on 27 December 2019 and it was sent by the Engineer to the Employer on 10 January 2019 with recommendation for payment and paid by the Employer on 30 January 2019.
- **IPC-6** was submitted to the Engineer on 28 February 2019 and the IPC was sent by the Engineer to the Employer on 14 March 2019 with recommendation for payment and paid by the Employer on 28 March 2019.
- IPC-7 has been submitted to the Engineer on 28 April 2019 and the IPC was sent by the Engineer to the Employer on 05 May 2019 with recommendation for payment and paid by the Employer on 22 May 2019.
- IPC-8 has been submitted to the Engineer on 25 June 2019 and the IPC was sent by the Engineer to the Employer on 27 June 2019 with recommendation for payment and paid by the Employer on 27 June 2019.
- IPC-9 has been submitted to the Engineer on 29 June 2019 and the IPC was sent by the Engineer to the Employer on 30 June 2019 with recommendation for payment and paid by the Employer on 30 June 2019.
- IPC-10 has been submitted to the Engineer on 22 October 2019 and the IPC was sent by the Engineer to the Employer on 05 November 2019 with recommendation for payment and paid by the Employer on 22 December 2019
- IPC-11 has been submitted to the Engineer on 04 February 2020 and the IPC was sent by the Engineer to the Employer on 06 February 2020 with recommendation for payment and paid by the Employer on 19 February 2020.
- IPC-12 has been submitted to the Engineer on 04 March 2020 and the IPC was sent by the Engineer to the Employer on 07 March 2020 with recommendation for payment and paid by the Employer on 24 March 2020.

3.5.10 Contract Modifications

As per advice of the Project Director, the revised Variation Order No.01 was prepared and submitted to PMU no.RDCOR_BC5883-100_L002438_JHL_MAR vide Engineer's reference January, 2020. Later on the Project Director advised to submit a Zero Cost Variation (up to Variation Order No.01) and according to the advice Zero Cost Variation (up to Variation Order No.01) was prepared and submitted to PMU vide Engineer's reference no.RDCOR_BC5883-100_L002439_JHL_MAR dated:5th January,2020.

The Project Director subsequently sent the Variation Order No.01 to the World Bank for concurrence. The World Bank reviewed the Variation Order and made quires for omission of the Bill No.12 & 13. A lot of correspondences were made with World Bank showing justified reasons for omission of those two bills but the World Bank did not agree to omit the Bill No.12 & 13 at this stage. Under this situation as per instruction of the Project Director, the Variation Order No.01 was revised by the Engineer keeping the provision of Bill No.12 (Construction of Road Pavement over Embankment and Road Crossing Embankment) and Bill No.13 (Construction of Flood Wall) as in the Contract and submitted to PMU vide Engineer's reference no. RDCOR BC5883-100 L002499 JHL MAR dated:4th March,2020.The Project Director,CEIP-1 sent the revised Variation Order No.01 to the World Bank for concurrence and the World Bank

HaskoningDHV

Page 91 of 113

provided concurrence on the Variation Order and now being waiting for the approval of the competent authority.

The Variation Order No.03 for construction of Rest House cum Office Building at Bhandaria was submitted to PMU on 24 October 2019 but that has been returned back with some observations. As per observations the Variation Order No.03 is being re-casted and will be sent to PMU in the name of Variation Order No.02.

The Contractor has submitted the Revised Work Program with all other relevant documents at the last week of February 2020 keeping provision that all the works will be completed within the contract period with the condition to provide all the lands without any hindrance within April 2020 and those have been submitted to PMU on 1st March 2020 after finally reviewed by the Engineer. The S-curve has been prepared based on the revised program and the same has been incorporated in the Monthly Progress Report of April, 2020.

3.5.11 Impact Assessment CEIP-1, W/02 Due to Corona Virus Restrictions

As reported above, the CEIP-1, W/02, is affected by the outbreak of COVID-19, Team Leader, DDCS&PMS Consultants, CEIP-1, submitted a risk assessment matrix to the Project Director and the World Bank on April 12, 2020. The table high- lighted critical works components under Package -2 that needs to be completed to protect the Six Polders from flooding event in the upcoming monsoon months and to help protecting the Polder Community from any cyclonic event. Considering Month of May, a very critical month for cyclonic storm in Coastal Bangladesh, the DDCS & PMS Consultants team comprising; Construction Resident Engineer, Deputy Resident Engineer, and all four CSEs and Field Engineers, fully monitored Contractors' work to get these critical works done by April 30, 2020. The Contractor tried, but the limitations to workers' assembly imposed by local administration retarded work flow that was already aggravated by Contractors cash flow problem.

The Risk Assessment Matrix sent by Team Leader, DDCS & PMS Consultants' team to the Project Director and the World Bank reflected important items such as description of critical works component, present status of works, risks involved if works not done, what is the minimum to be done to protect the Polder etc. The table is updated to see the progress of work done and a sample matrix updated to 30 April 2020 is attached for reference in Table 3-59.

Table 3-59: Preliminary Impact Assessment following Corona virus restrictions, CEIP-1, W/02 (April 30, 2020)

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works (as of 30 April 2020) | Progress Status of the Works as per April 30, 2020 | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|------------------------------------|--------------------|---|---|---|---|---------------------------------|--|---|--|
| | 1 | Drainage Sluice Construction | 6 | Ongoing | Work progress 77%. Remains to be done headwalls for DS# 2A, 3/3 & 6 and other works related to gate fitting, approach dyke and diversion channel linkage. | 30-Jun | Yes | Sluice will not function | 3 Sluices need Gates Installation, Aprons & Diversion Channels & 3 Sluices need headwalls, gates & diversion channel | Work going on for only DS-6 by engaging few labor. Working environment is not in favor of work. | Headwall casting was needed to make these sluices properly functional so to avoid public agitation for irrigation & domestic water needs |
| 48 | 2 | Flushing Sluice Construction | 3 | Ongoing | 86% | 30-Jun | Yes | Sluice will not function | Gate Installation, Aprons & Diversion Channels | Work completely stopped for shortage of labor due to COVID-19. | None function of the Sluices may create public agitation for irrigation & domestic water needs |
| | 3 | Slope Protection Works | 4.078 | Ongoing | Work progress 25%. Work completed up to Level +4.50 M PWD from Km 30+800 - 31+450 (650 meter) | 30-Jun | Yes | Part work may be damaged | Completion needed for most vulnerable 700 meter | Work is going on only in the vulnerable 650meter length. | Extremely Vulnerable 700 meter need to be completed to avoid risk of washing out /engulfing into the sea |
| | 4 | Embankment Construction | 4.24 | Ongoing | 1.316 km completed | 30-Jun | No | | | Work completely stop for shortage of labor due to COVID-19. | Of the 38.00 km , 1.316 Km completed & 4.313 km partly completed |
| 40/2 | 1 | Drainage Sluice Construction | 5 | Ongoing | 86% | 30-Jun | Yes | Sluice will not function | Gate Installation, Loose apron & Diversion Channel | Work of Drainage Sluices are going very slowly due to local restriction in carrying materials. | Sluices needed to be functional to avoid public agitation for irrigation & domestic water needs |

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works (as of 30 April 2020) | Progress Status of the Works as per April 30, 2020 | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|------------------------------------|--------------------|---|---|---|---|---------------------------------|---|--|---|
| | 2 | Flushing Sluice Construction | 3 | Ongoing | 85% | 30-Jun | Yes | Sluice will not function | Gate Installation, Aprons & Diversion Channels | Work of Flushing Sluices are going very slow due to local restriction in carrying materials. | Sluices needed to be functional to avoid public agitation for irrigation & domestic water needs |
| | 3 | Slope Protection Works | 1.137 | Ongoing | 80 meter partly done | 30-Jun | Yes | Part work may be damaged | Completion of 1.137 km | Slope protection work is going on with limited labor. | Vulnerable 1.137 km need to be completed to avoid risk of embankment erosion |
| | 4 | Embankment Construction | 8.46 Km. | Ongoing | 50% | 30-Jun | No | | | Work is continuing. | Of the 34.200 km , 6.600 Km completed & 7.410 Km on going |
| | 1 | Drainage Sluice Construction | 9 | Ongoing | 80% | 30-Jun | Yes | Sluice will not function | 8 Nos need Gate Installation, Aprons & Diversion Channels & 1 No need base slab & superstructures | All work stopped. No working environment available. | Sluices needed to be functional to avoid public agitation for irrigation & domestic water needs |
| 41/1 | 2 | Flushing Sluice Construction | 8 | Ongoing | 85% | 30-Jun | Yes | Sluice will not function | Gate Installation, Aprons & Diversion Channels | All work stopped. No working environment now. | Sluices needed to be functional to avoid public agitation for irrigation & domestic water needs |
| | 3 | Bank Protection Works | 0.4 | Ongoing | 68% | 31-May | Yes | Part work may be damaged | Completion of 400 meter including pitching works | Dumping work stopped, but pitching work is going on very slowly. | Very vulnerable works needed to be completed to avoid risk of outflanking |
| | 4 | Embankment Construction | 9.63 | Ongoing | 70% | 31-May | No | | | Work is going on very slowly due to non- availability of working | Of the 33.571 km , 2.15 Km completed & 9.35 km ongoing |

CEIP-1 Progress Report No. 60 - April 2020

| Polder No | S.N. | Description of works | Unit No / Km | Status of Works (as of 30 April 2020) | Progress Status of the Works as per April 30, 2020 | When was it planned to be completed? | Is there a risk now or in the next 3 months to come if Works would be stopped immediately | If yes, what is the risk? | What is the minimum to be done to avoid the risk | Prevailing working environment | Remarks |
|--------------|------|------------------------------------|--------------------|---|---|---|---|--|---|---|--|
| | | | | | | | | | | environment. | |
| | 1 | Drainage Sluice Construction | 4 | Ongoing | Work progress 98%. All concreting works done except Linking of Diversion Channels | 30-Jun | Yes | Sluice will not function | Opening of Diversion Channels | All work stopped. No working environment now. | Sluices to be functional to avoid public agitation for irrigation & domestic water needs |
| 47/2 | 2 | Flushing Sluice Construction | 3 | Ongoing | Progress 96% . All works done except few works in apron & linking of Diversion Channels | 30-Jun | Yes | Sluice will not function | Opening up Diversion Channels | All work stopped. No working environment now. | Sluices to be functional to avoid public agitation for irrigation & domestic water needs |
| | 3 | Bank Protection Works | 0.56 | Ongoing | Overall Progress 40%. Completed 320 meter. Remaining length to be done240 meter | 31-May | Yes | Part work may be damaged | Completion of 560 meter including pitching works | All work stopped. No working environment now. | Very vulnerable works needed to be completed to avoid risk of outflanking |
| | 4 | Embankment Construction | 0.34 | Ongoing | 0% | 31-May | Yes | This part of retired dyke needs to be done | Vulnerable pitching works depends on completion of retired dyke | All work stopped. No working environment now. | Of the 17.567 km, 16.2 Km completed. Ongoing work of 1.224 km retired dyke stopped. |
| 43/2C | 1 | Drainage Sluice Construction | 6 | Ongoing | 72% | 30-Jun | Yes | Sluice will not function | 5 Nos need Gate Installation, Aprons & Diversion Channels & one Sluice needs base & superstructure | Movement restricted due to road barricades by local people. Work is going on very slowly. | Sluices to be functional to avoid public agitation for irrigation & domestic water needs |
| | 2 | Flushing Sluice Construction | 4 | Ongoing | 62% | 30-Jun | Yes | Sluice will not function | Gate Installation, Aprons & Diversion Channels | Work stopped due to restriction provided by local people. | Sluices to be functional to avoid public agitation for irrigation & domestic water needs |

Figure 3-40: S-Curve for Package-2

Legend:

Task D: Project Management Support Services 3.6

3.6.1 **Financial Projection**

Disbursements of funds for IPCs are well-known and the planned future disbursements depend on the work plan works scheduling. IPC is submitted when the monetary value of the works done over a new period reaches a threshold value (percentage of the contract value). In general, during a good construction season, each IPC amount of every month to be minimum US\$ 16.02 Million and US\$ 11.14 Million for Package-1 & Package-2 respectively considering extension of time up to June 2020 for Package-1 and completion time January 2021 of Package-2.

For Package-1 the S-curves is incorporated based on the approved revised work program of FY 2019-2020 & for Package-2 the S-Curve is also incorporated based on the revised work program of FY 2019-2020 and accordingly, the financial projection has been reflected in the MPR of April, 2020. The next IPCs are, however, expected by May, 2020 for both the packages.

Monthly Forecast of Payment of Package-W-2: 3.6.2

Table 3-60: Tentative forecast of Payment for FY 2019-2020 of Package-2

| IPC No. | Month of Submission | Forecast Value of IPC | Remark |
|-----------|------------------------|-----------------------|---|
| IPC No.10 | Oct. 2019 | 247,272,733.59 | IPC No. 10 was submitted by the Contractor with the value of BDT: 247,272,733.59 which was reviewed by the Engineer and submitted to the Employer on 05 November, 2019 with recommendation for payment. |
| IPC No.11 | Dec. 2019 | 276,500,000.00 | IPC No. 11 was submitted by the Contractor with the value of BDT: 284,344,790.58 which was reviewed by the Engineer and submitted to the Employer on 06 February, 2020 with recommendation for payment. |
| IPC No.12 | Jan. 2020 | 395,000,000.00 | No IPC was submitted in the month of January,2020 |
| IPC No.13 | Mar. 2020 | 474,000,000.00 | IPC No. 12 was submitted by the Contractor with the value of BDT: 182,277,654.80 which was reviewed by the Engineer and submitted to the Employer on 07 March, 2020 with recommendation for payment |
| IPC No.14 | Apr. 2020 | 1,264,000,000.00 | No IPC was submitted in the month of April,2020 |
| IPC No.15 | May. 2020 | 553,000,000.00 | |

Annex 3: Labour Influx Report

Initial information on labour influx risks, requirements and implication for work package W-01 under CEIP-1

| | 1. PROJECT DATA | |
|-----|--|--|
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (P128276) |
| 1.2 | Contract Package | Package-1 |
| 1.3 | Date of Commencement | January 2016 |
| 1.4 | Date of Completion | June 2020 (As per approved extension of time) |
| 1.5 | Location | Polder-32 and Polder-33 under Khulna district; & Polder-35/1; Polder-35/3 under Bagerhat District |
| 1.6 | Name and Contact Information (email/phone) of Contractor | CHWE, mainland China |
| 1.7 | Name and Contact Information (email/phone) of all sub- Contractors | Project Manager Mr. Yang Dong; No sub-contractors; about 170 Chinese labor and skilled workers influx; 01 Indian workers; local labor and foremen about 600 persons; |
| 1.8 | Type of Works (single site, linear, clustered and construction duration) | Civil engineering/hydraulic works: earthen embankment; water control sluices; river bank protection works; embankment slope protection works; closure dam; offices and site buildings; excavation of sedimented internal channels (khals); social reafforestation; single and localized sites, stand-alone site for construction of one structure or one stretch of embankment etc.; These are the standard engineering interventions in a typical coastal polder in Bangladesh, since 'time immemorial'; no rocket science; a lot of manual labour work activities, for men and women both; |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|---|--|
| 2.1 | Will the project potentially involve an influx of migrant workers? If yes, are there also foreign laborers mobilized onsite? | Yes, there are Migrant workers influx at Project area, relatively small numbers and scattered all over the many construction sites; foreign laborer's yes, only Chinese, around 200 persons including middle technicians and Master of Science level engineers; The mobilization of foreign worker started in November 2015 and on ward. |
| 2.2 | Is the influx of non-local workforce significant for the local community? | Not significant because there are many stand-alone construction sites and the number of Chinese/foreign workers per stand-alone site is about 3 to 5 Chinese men; this is not disruptive for the social cohesion of the local site; local stand-alone construction sites are mostly far away from community centers (rural setting, remote sites; sluices are not located inside a community); In the camp site, there have a separate place for their living, dining. Also, police from local Thana/authority provide the security for the safety of Chinese workers. There have two or three local translators; if any problem arises, they will arrange communication with local people. Even now there is no complain from local people, mentioned that in camp site also have a register to note down |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
| | | to take proper action within appropriate time. |
| | | At least certain percentage of local people would have been mobilized in civil work that would be beneficial for the local people. |
| 2.3 | What are the opportunities for local laborers? | Of course, there were opportunities for local worker in civil work. Local residents are poor people with virtually no mobility or transport facilities and are employed in agriculture, aquaculture and civil construction works such as road, buildings etc in 'urban' areas, mostly intermittent job contracts. There is some small business such as small shops, chicken and duck breeding/farm, aquaculture, and motorbike repair workshops etc. which do not employ many people; e.g. Polder-35/1 is located 100 km away from the city of Khulna, hence not much influx from Khulna to Polder-35/1; due to few numbers of small rudimentary road tracks, there is hardly any economic traffic to the 4 Polders; one needs to cross many rivers with (small) ferries; labour market is non-existent for local laborers; |
| | | Recently for Polder-32, 294 local workers engaged for construction workers; P-33, 295 local workers; P-35/1, 591 local workers and P-35/3; 187 local workers. There are no women because, for heavy civil work women are not suitable. By negotiating Consultantsfixed the salary, so there is no unsatisfactory and no complain. |
| 2.4 | Frequency of outsider's visit | Chinese laborers are generally permanently stationed and working; they live together inside a fenced compound, with professional security guards; |
| | | Non-local labours are regular, but they have the seasonal vacation during rainy season. |
| 2.5 | Environmental sensitivity of the | Refer to the four approved EIA Reports of the 4 Polders; in general, the close location of the border lines of the Sundarbans |
| | project site | mangrove forest prompt the Chinese Contractor to take care/be alerted of the possible negative |
| | | impacts on the water, noise, environment, biodiversity of the Sundarbans; |
| 2.6 | Community experience with | Much community experience yes as all 139 coastal polders were built back in the 1970s and 1980s and had undergone many |
| | similar projects? | subsequent small and big interventions, emergency works, repair and recovery after huge flood disaster events etc; local laborers are fully familiar with similar types of civil engineering works; |
| | | And also familiar with the similar movement of non-local labour because in coast region in different time |
| | | different improvement work has done throughout the specific period. |

| | | 3. SOCIO-ECONOMIC CONSIDERATIONS | | | | | |
|-----|---|--|--|--|--|--|--|
| 3.1 | How similar are local and migrant labour backgrounds? (cultural, religious | The background particularly cultural, religious and demographic point of view is dissimilar in many ways and similar in some ways. They have different language, ethnicity, belief system even political system but it does not create any problem to per the job or pose any risk for the project. The migrant is few in number that does | | | | | |
| | and demographic considerations) There is no issue at all, because the non-local workers are busy in day time for work. Also, the work site is located in diplace from their residence. | | | | | | |
| | | No negative impact on job market because this project makes the more opportunity of job for local people. | | | | | |
| | | Group means not like two separate parts. Both local and non-local workers are working as a part of the project as like a team work. | | | | | |
| | Are there increased competitions for raccommodation, water, food, fuel) wit | | | | | | |
| | Given local community characteristics adverse impacts anticipated? | any specific No adverse impact is anticipated at the moment; | | | | | |

| | 4. LOCAL COM | MUNITY (Please provide Polder | wise description of Facilitie | es) | | | | |
|-----|---|---|-------------------------------|--|---------------------------|--|--|--|
| 4.1 | Size of Local Population | Bangladesh is highly densely populated country but the project area has lesser density. It is found from the RAP document that inside the Polder-32, 33, 35/1 and 35/3 the total population amounts to 38397, 62305, 99182 and 33075 respectively. | | | | | | |
| 4.2 | Work in gage population and capacity (education, skills, experience) | The labour force (age between 15 and 59 year), the actual number of people available for work is 61%. The labour force includes both the employed and the unemployed. According to BBS, 30% of the people fall in the age group 1-15 year. The literacy rate in the project area roams around 58% whereas the national figure is 51.8%. The livelihood of 66.1% of people depends on agriculture activities; | | | | | | |
| 4.3 | Working age population capacity | Education | Skill | Experience | | | | |
| | | No information is available | No information | No information | | | | |
| 4.4 | Local capacity for infrastructure, services, utilities, health (please provide a short brief) | Inside the 4 Polders, both earthen and pucca roads are available and there are waterways also. There is academic institution, market, religious institution, local government offices, providing necessary public services to the local people. Motor bikes play important role to communicate in project areas. Auto rickshaw is main transportation vehicle; No there is no impact of these facility due to the inflow of chines people. | | | | | | |
| 4.5 | Availability of accommodation, food, water (please provide a short brief) | Contractor provides adequat Yes, these facilities are easil | | and food, protective sheds et nsumption | c to their workers; | | | |
| | 4. LOCAL COM | MUNITY (Please provide Polder | wise description of Facilitie | es) | | | | |
| 4.6 | Are there any security considerations? | Not from the local governmer | nts; | | | | | |
| | | Contractor is now paying for t | the security force mainly in | n work site cum residential si | tes. | | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic? indigenous- communities? | Some marginalized and vulne but there are no ethnic and ir | | eject side like other places of | the country | | | |
| | | 5. MAINTENANCE OF OTHER | LABOR RECORDS | | | | | |
| 5.1 | Is a copy of photo ID of each labourer kept? with the Contractor/ Sub-contractor? | Yes. NID for local workers and | d visa copy for Chinese wo | rkers; no sub-contractors; | | | | |
| 5.2 | Is contact information of labour's next-of-kin kept for each labourer? | Yes. Family members are mo | stly close-by. Chinese Con | tractor recruits mainly from t | he locality; | | | |
| | 1. | LABOR PROFILE (Please provide | de Polder wise information |) | | | | |

| | 7. FACIL | ITIES (Please prov | ide Polder wise description of | of Facilities) | | | | | |
|------|---|---|--------------------------------|----------------------------|--|--|--|--|--|
| 7.1 | Details of labour camps | Number | Permanent/Temp. | Location | Distance from nearest village/habitation | | | | |
| | | 2 | Permanent | Every CC block | Almost within 100m | | | | |
| | | 4 | Temporary | yard and every | | | | | |
| | | | | work site | | | | | |
| 7.2 | Type of housing in labour camp on leased land (temporary shelters / kuchha /pukka) | Work site have ter | nporary shelter but cc block | yard has pukka house | | | | | |
| | Is there any housing on public land like road sides, open fields and other spaces? | No. Only housing o | exist inside the construction | al premises. | | | | | |
| 7.4 | s there any housing in rented accommodation in Yes, for the Chinese and Bangladeshi senior staff. Contractor rents the buildings themselves esidential areas? If so, who is it rented by? | | | | | | | | |
| 7.5 | How many laborers have families on/near worksite? | The migrant worke | ers do not live with their fam | nily. Sometime their famil | y member visits here for | | | | |
| | very short time. The local worker mostly lives with their family | | | | | | | | |
| 7.6 | Likelihood of family members accompanying(visiting) | They hardly visit the project side. Laboure's have family homes close by; daily transport is done | | | | | | | |
| | | by motorbikes or by vehicles of Contractor. | | | | | | | |
| | Is drinking water available on site and at the camp site? | Yes | • | | | | | | |
| | Are latrines and urinals provided on site and at the campsite? | Yes | | | | | | | |
| 7.9 | Are First Aid facilities provided on site? | Yes | | | | | | | |
| 7.10 | Does a doctor visit the worksite / campsite regularly? | Yes | | | | | | | |
| | Is there a tie-up with a hospital or dispensary near the worksite / campsite | Yes | | | | | | | |
| 7.12 | Is there a facility for cooking / canteen facility for all labour? | Yes | | | | | | | |
| 7.13 | Are leisure activities / facilities available for all labour | Yes | | | | | | | |
| 7.14 | Is transport to and from the worksite provided to labour? | Yes, for migrant la | bourer but no provision for | unskilled local labourer. | | | | | |
| | | | SION BY LABOR OFFICIALS | | | | | | |
| 8.1 | Has the worksite / campsite been inspected by a | In 20-22 Novem | ber, 2017 and 04-06 Februa | ary, 2018 WB team visited | the work area of CEIP-1, | | | | |
| | labour official? | | | | | | | | |
| 8.2 | How many times has the worksite / campsite been in | | commencement from WB. Fr | om the part of PMU and E | BEDB, visited the woks site | | | | |
| | spected by al abour official since commencement of | frequently, as pe | er the need basis. | | | | | | |

| | work? | |
|-----|---|--|
| 8.3 | What documents were in spected by labour officials? | Accident /injury register, salary sheet/record |
| 8.4 | What documents were maintained and which ones | Safety training record, accident register, safety guideline document, compliance register, GRM system notice. |
| | were not? | Nothing missing, if anything required please give us the valuables suggestion. |
| | | Consultantswill ensure it in work site. |
| 8.5 | What directions were given by labour officials? | About personal health and safety |
| 8.6 | What are the directions? Mode of compliance with such | Action taken in field level as soon as possible |
| 8.7 | Are you facing any legal proceedings on labour? | None; |
| | issues in Labour Court/ Other? | |
| | 9. ACCIDENTS, EMERGENCI | ES AND INCIDENTS (Please provide Polder wise description of Facilities) |
| 9.1 | What is the nature of accidents / emergencies usually occurring at a worksite like yours? | No accident so far has been taken place |
| 9.2 | Is a functioning First Aid available at the campsite / worksite? | Yes |
| 9.3 | Is functioning fire-fighting equipment available at the campsite / worksite? | Yes |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Within some kilometers, alert by mobile hand phone of which the number is known to all |
| | | Chinese people (Chinese medical doctor available); doctor covers the four Polders |
| 9.5 | Which is the nearest hospital? | The nearest hospital is situated at Upazila head quarter. But there some clinic or satellite clinic inside the |
| | | polder. If any worker required critical services then he/she refer to Khulna or Dhaka. The Contractor has |
| | | own car for every camp site and CC block manufacturing site to transport the/she to Khulna or Dhaka. |
| 9.6 | Which is the nearest Police Station? | In any Polder, there is Police office close-by, within 10 km range. |
| | | On the other hand, a team of 2-3 nos. police available in work camp site and cc block manufacturing site |
| | | cum residential site. If required they will help us. But even no situations arise to do this. |
| 9.7 | Are details of nearest doctor / clinic / | Yes |
| | dispensary/hospital/Police station available and | |
| | prominently displayed at worksite /campsite? | |
| 9.8 | What is the system of informing next of kin? | For the migrant worker, there is focal person to deal with the issue. The contact numbers of all workers are |
| | | well documented. For the local worker, the system is same. Bengali senior staff employed by the Chinese |
| | | contractor. |
| 9.9 | What is your familiarity with accident reporting | Chinese Contractor holds regular drills on procedures and protocols to enact in case of |

| | 9. ACCIDENTS, EMERGENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) | | | | | |
|------|--|--|--|--|--|--|
| | procedures? accidents | | | | | |
| 9.10 | What is your familiarity with police reporting procedures? | Consultantsare well familiar to local police reporting system and Consultantshave their contact number and | | | | |
| | | relation. So far, no such incident whereby Police is to be called upon. It is worthy to mention | | | | |
| | | that Contractor site camps are secured by police protection permanently. | | | | |
| 9.11 | Is there any mechanism to address the work place Sexual | Yes (sanctions are known to Chinese workers and their bosses). Mechanism is there. Consultantshave gender | | | | |
| | Harassment of Women at the project sites? | policy. There is complaint system to mitigate sexual harassment. Finally, legal step can | | | | |
| | | be applied where necessary; | | | | |

| 1.8 | Type of Works (single site, linear, clustered and construction duration) | 1. Upgrading via new construction and re-sectioning of embankments with a length of about 209km; | | | | | | | |
| | clastered and construction duration) | 2. Excavation and re-excavation of drainage channels in the Polders with a total length of about 188km; | | | | | | | |
| | | 3. Construction of 50 drainage sluices; | | | | | | | |
| | | 4. Repairing of 6 drainage sluices; | | | | | | | |
| | | 5. Construction of 73 flushing sluices; | | | | | | | |
| | | 6. Repairing of 8 flushing sluices; | | | | | | | |
| | | 7. Construction of embankment slope protection works with a total length of some 9.5km; | | | | | | | |
| | | 8. Construction of river bank protection works with a total length of 5.4 km; | | | | | | | |
| | | 9. Construction of 8 Khal Closing Closures with varying widths between 35m to 60m; | | | | | | | |
| | | 10. Dismantling of 36 drainage sluices, 70 flushing sluices and road pavement for about 50 km; | | | | | | | |
| | | 11. Construction of RCC Flood wall with a length of about 17km; | | | | | | | |
| | | 12. Construction of Road Pavement with a length of about 51km. | | | | | | | |
| | | Construction duration: 42 months | | | | | | | |

| | | 3. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|--|--|
| 2.1 | Will the project potentially involves an | Yes, scattering all over the construction sites. There are no foreign labours mobilized onsite. |
| | influx of migrant workers? If yes, are | |
| | there also foreign laborers mobilized | |
| | on site? | |
| 2.2 | Is the influx of non-local workforce | Yes, these benefits are typically related to economic opportunities through employment and/or training by the project, or |
| | significant for the local community? | through selling goods and services. Other benefits include the provision of local infrastructure (e.g., access roads, power or |
| | | water connection) which is developed for the project and which serves the community beyond the project duration. |
| 2.3 | What are the opportunities for local | It will bring more employment opportunities to the local labours. It will improve the education status because of workers' |
| | laborers? | training. |
| 2.4 | Frequency of outsider's visit | Normal |
| 2.5 | Environmental sensitivity of the project | Fuel supply for cooking and heating, fuel storage area, by-pass road construction, sanitation, water supply and construction |
| | site | work. |
| 2.6 | Community experience with similar | Embankment construction, Bridge construction and road pavement construction |
| | projects? | |

| | | 4. SOCIO-ECONOMIC CONSIDERATIONS |
|-----|--|---|
| 3.1 | How similar are local and migrant labour backgrounds? | The labour no matter where they from are Bangladesh citizen. They almost have the same cultural and |
| | (cultural, religious and demographic considerations) | religious background. The demographics are shifted just from one region to another and there is no |
| | | change on total demographics of Bangladesh. |
| 3.2 | Are there increased competitions for resources (e.g. | More water, electricity, medical services, transport, education and social services will be required with the |
| | accommodation, water, food, fuel) with the local | execution of works. |
| | community? | |
| 3.3 | Given local community characteristics any specific adverse | It will bring more influx of additional population and Increased pressure on accommodations and rents, |
| | impacts anticipated? | Increase in traffic and related accidents |

| | 5. LOCAL CO | MMUNITY (Please provide Polder | wise description of Facilitie | s) |
|-----|---|----------------------------------|--------------------------------|--|
| 4.1 | Size of Local Population | ` ' | <u> </u> | 41051, Polder-43/2C: 14851, Polder-47/2: 5411, |
| 4.2 | Working age population and capacity (education, skills, experience) | No information | | |
| 4.3 | Working age population capacity | Education | Skill | Experience |
| | | No information | No information | No information |
| 4.4 | Local capacity for infrastructure, services, utilities, health (please provide a short brief) | the health centre and hospital a | are available in local place. | |
| 4.5 | Availability of accommodation, food, water (please provide a short brief) | Accommodation, water and foo | d is available to the local co | ommunity. |
| 4.6 | Are there any security considerations? | Yes | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic, indigenous- communities? | No | | |

Dev Con Leading Today for Tomorrow

| | | 6. | MAINTENANCE OF OTHER LABOR RECORDS |
|-----|---|-----|------------------------------------|
| 5.1 | Is a copy of photo ID of each labourer kept with the | Yes | |
| | Contractor/ Sub-contractor? | | |
| 5.2 | Is contact information of labour's next-of-kin kept for | No | |
| | each labourer? | | |

7. LABOR PROFILE (Please provide Polder wise information)

This data is to be collected for each Polder where civil works has commenced, and cover the regular labour, temporary labour, labour hired through sub-contractors or labour contractors / groups.

| 6.1 | Number of laborers by sex | Male | 9 | Female | e | Total | |
|-----|------------------------------|------------------------------------|---------------|---------|--------------|------------|-------|

| | official? | |
| 8.2 | How many times has the worksite / campsite been | None |
| | inspected by a labour official since commencement of | |
| | work? | |
| 8.3 | What documents were inspected by labour officials? | None |
| 8.4 | What documents were maintained and which ones were | None |
| | not? | |
| 8.5 | What directions were given by labour officials? | None |
| 8.6 | What is the mode of compliance with such directions? | None |
| 8.7 | Are you facing any legal proceedings on labour issues in | No |
| | Labour Court/ Other? | |

| | 10. ACCIDENTS, EMERG | GENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|-----|---|--|
| 9.1 | What is the nature of accidents / emergencies usually occurring at a worksite like yours? | Drowning, Injury from machine |
| 9.2 | Is a functioning First Aid available at the campsite / worksite? | Yes |
| 9.3 | Is functioning fire-fighting equipment available at the campsite / worksite? | Yes |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Polder-39/2C: Digital X-ray Clinic, 5 minutes by car away from the campsite, 01717-997-914, Kamrunnasar Polder-41/1: DR.Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic-sharif x-ray clinic, Dispensary mouir medical hall. Polder-47/2: 1 km from our working site to the nearest dispensary Polder-48: 100 m from our temporary camps to the nearest dispensary but the doctor and clinic are 1 km away. |
| 9.5 | Which is the nearest hospital? | Polder-39/2C: Upazila Health Complex, 5 minutes by car away from the campsite, 01735-950-462, Fakrel Islam. Polder-41/1: Barguna sader hospital Polder-47/2: 10 km from our working site to the nearest hospital. Polder-48: the nearest hospital is 3 km towards the seaside. |
| 9.6 | Which is the nearest Police Station? | Polder-39/2C: Bandarie Police station, 5 minutes by car away from the campsite, 01713-374-337, Kamruzzaman. Polder-41/1: Barguna sader police station. |

Dev Con Leading Today for Tomorrow

| | | Polder-47/2: 8 km from our working site to the nearest police station. |
|------|---|--|
| | | Polder-48: the nearest police station is 3 km approximately around the third bridge. |
| 9.7 | Are details of nearest doctor / clinic / dispensary / hospital / Police station available and prominently displayed at worksite / campsite? | Polder-39/2C: Yes, such information shall be printed on paper and displayed at the site office. Polder-41/1: DR.Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic-sharif x-ray clinic, Disppensary mouir medical hall, Barguna sader hospital, Barguna sader police station, above mentioned details information is true and they are able to respond within short period and mentioned location is very nearest to our worksite. Polder-47/2: Yes. such information shall be printed on paper and displayed at the site office. Polder-48: Yes, such information shall be printed on paper and displayed at the site office. |
| 9.8 | What is the system of informing next of kin? | A phone number chat including all the Chinese people has been distributed to all working site/ campsite, anything happening at site will be reported immediately to the person who is in charge of corresponding issue. |
| 9.9 | What is your familiarity with accident reporting procedures? | For any accident happened at site, the foreman shall report to the site office and site manager immediately, and site office shall write on the accident log book for records. Then site office shall report to the corresponded local government office. |
| 9.10 | What is your familiarity with police reporting procedures? | So far, no such incident whereby Police is to be called upon. The Contractor camps are secured by police. |
| 9.11 | Is there any mechanism to address the work place Sexual Harassment of Women at the project sites? | No, because all male workers at the project working at sites and the working place for female staff are limited in the camp and office. |
