1. Executive Summary

1.1 General

This Monthly Progress Report (MPR) is over the month of **May 2021.** The Executive Summary Chapter will highlight the various developments and issues at stake in a qualitative manner whereas the remaining Chapters will provide more quantitative information and details on the activities and progress of the month of May 2021.

The Executive Summary will first focus on the implementation of the 2 (two) Construction Contracts for **Package W/01** and **Package W/02**. In this section, the Consultants activities are also addressed. Activities and issues of a more general nature will be addressed thereafter.

1.2 Implementation of Works under Package W/01 and Package W/02

In the current phases of the CEIP-1 Project, Consultant's focus is on the progress of the construction of Civil Works for Package W/01 and Package W/02. Other Consultant's tasks are summarised separately in this Chapter. Compared to previous months, poor progress is achieved during May, 2021 due to early start of rain. The progress was hampered in previous months due to insufficient Contractor's field staff which was caused by visa applications which became stricter as imposed by the Bangladesh Embassy in Beijing and as such hampered the return of Chinese Staff to Bangladesh. However, by this time, a major number of proposed Chinese Staffs have returned to Bangladesh and a few number of staffs are in the process to come. Also, the impact of the pandemic of Corona Virus was not positively contributing to the progress of the Works, rather the impact of the pandemic of Corona Virus has been aggravated from the last week of March 2021 together with associated lock-down for a longer time in Bangladesh.

In order to monitor the progress of the Works and take immediate action if and when needed, the CEIP-1 Project Director has established 2-weekly progress meetings separately for each of the Work Packages.

1.2.1 Package W/01 implementation

The key issues for the month of May 2021 regarding Package-1 are summarised below as follows:

- The physical progress up to May 2021 is 91.91% against the revised target of 100%. The Revised Work Program was finalized based on the extension of time of the Contract up to 30th June, 2021 by the Employer. They started the works during this dry season from mid-December, 2020 and the progress of the works in this month is not in a satisfactory due to start of raining during last part of the month and the progress is also hampered to some extent due to the pandemic of Corona Virus. The overall progress up to May, 2021 is lagging by 8.09% in respect of the revised target. Delays are also caused by cashflow issues of the Contractor and unwillingness to increase staff and equipment;
- In addition to the aforementioned issues, the Contract was initially extended up to 30th June, 2020 but due to, amongst others, mismanagement of the Contractor and the pandemic of Corona Virus the Contractor could not complete all the works within the extended time. The Contractor submitted a Claim for Extension of Time with detailed report and supporting documents. After detailed assessment, the Employer approved the Extension of Time for execution of the works of this Contract up to 30th June, 2021 vide Memo No. CEIP-1/W-01/534 dated 30th June, 2020 with the condition that no claim will be acceptable due to this Extension of Time;
- The Contractor has completed 38 nos. Drainage Sluices and 29 nos. Flushing Sluices up to May, 2021 and has been working together with the Engineer on the handing over procedures. As per assessment of the Engineer, the Works of Polder 33 and 35/3 have been

substantially completed and accordingly, Taking-Over Certificates for Polder 33 and 35/3 have been issued as per GCC Sub-Clause 10.1 (a) and 11.1.

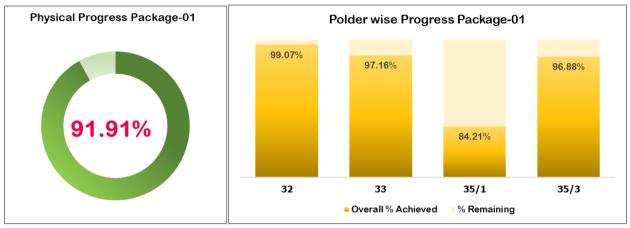

Figure 1-1: Polder Wise Progress of Package-1

- As per requirement of the World Bank Mission during 22nd February, 2021 to 8th March,2021 on the environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist;
- In the Contract, there was a provision for repairing works of 30 nos. Flushing Sluices out of which 16 nos. have been dropped (for falling the structures outside the alignment of retired embankment or not repairable). Out of the remaining 14 nos. of repairing of Flushing Sluices 14 nos. have already been completed. There was a provision for repairing works of 2 nos. Drainage Sluices which were already been completed;
- The Engineer requested the Contractor to implement Additional Bank Protection works which are urgently needed to safeguard the embankments of Polder-32 against river bank erosion. The Engineer has provided the terms and conditions as per Works Contract and accordingly, the Contractor has submitted a draft Variation Proposal including Bill of Quantities. Contractor and Engineer had various meetings and negotiated a cost estimate and submitted to PMU vide letter no. RDCOR BC5883-100 L02825 JHL AAM dated 15th December, 2020 soliciting the permission to finalise a draft Variation Order based on the negotiated cost for the interest of the Project. Employer reviewed the cost estimate and provided some observations and requested for further negotiation based on the observations. As per advice of the Employer the Engineer further negotiated with the Contractor as per observations of the Employer and negotiated a cost estimate and submitted to the PMU vide letter no. RDCOR_BC5883-100_L02901_JHL_MAR dated 20th January, 2021 soliciting the permission to prepare a draft Variation Order based on the negotiated cost for the interest of the Project. Due to delay in the latter process the Engineer proposed a phased implementation of these Works, considering first implementing "precautionary" Emergency works like dumping of geo-bags which will be thereafter integrated with the permanent Works consisting of 'amongst others, CC blocks dumping. According to this proposal the Project Director CEIP-1 accompanying Team Leader and Deputy Team Leader of DDCS & PMS Consultants, inspected the vulnerable locations of Polder 32 on 10th March, 2021 and after threadbare discussion in a meeting held on 10th March 2021 at Khulna, the Project Director, CEIP-1 gave the decision to take necessary measures to combat the ongoing erosion of the vulnerable locations immediately through Precautionary Emergency Works by dumping 250 kg Geo-bags as per design and drawings. It was also decided in the meeting that the existing working Contractor is to be engaged to execute this Precautionary Emergency River Bank Protection Works. Accordingly, the existing working Contractor was instructed to do the bathymetric surveys of

the identified vulnerable locations and provide the site plan & design data of each location. The Contractor has supplied the site plan and design data of all identified vulnerable locations. The draft design and drawings have been prepared by the DDCS & PMS Consultants based on the supplied site plan and design data. The draft design and drawings with the detailed estimates have been submitted to the Project Director for further action from his kind end. Subsequently the Engineer has sent the draft design and drawings with the detailed estimates to the Contractor with request to take action based on the draft design and drawings to protect the breaching of the embankment and ultimately to save the properties and lives of the people living in the Polder. The Contractor has started the Precautionary Emergency Works based on the instruction of the Project Director, CEIP-1 and Engineer through several digital meeting though the approval of the design and estimates are urgently required to issue the work orders to the Contractor. The progress of precautionary emergency works is very slow due to unwillingness of the Contractor undertaking these Works. As said, detailed designs are yet to be approved by the Competent Authorities;

 The Consultant will prepare a risk assessment of possible delays which could occur and would require a possible extension beyond June 2021. The latter have been assessed and found that it will not be possible to complete the works of Polders 32 and 35/1 within 30th June, 2021 the date of completion of Contract. The Contractor is in the process of submitting a claim for further extension of time.

1.2.2 Package W/02 implementation

The key issues for the month of May, 2021 regarding Package-2 are summarised below as follows:

- The physical progress up to May, 2021 is 64.58% against the updated revised target of 70.86%. The Updated Revised Work Program has been finalized based on the assurance of the Competent Authority that the completion date of this Contract will be extended up to 30th June, 2022 and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002900_JHL_MAR dated: 20th January, 2021. The overall progress is lagging by 6.28% compared to the updated revised target. The estimated average monthly progress of some 3 to 4% has not been achieved;
- Due to 'amongst others' land acquisition problems in some Polders and the pandemic of Corona Virus, it was not being possible by the Contractor to complete all the works of this Contract within the original Contract period. Based on this, the Contractor submitted a Claim for Extension of Time with a detailed report and supporting documents. It is noted that mismanagement on the chain of commands within the team of the Contractor also caused delays and hence land acquisition problems are not the only reason for the delays. The Claim for Extension of Time was evaluated by the Engineer and submitted the evaluation report to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002759_JHL_MAR dated: 25th October, 2020. The submitted evaluation report was reviewed by the PMU and provided some observations on the report. Accordingly, the report has been revised and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002844_JHL_MAR dated: 27th December, 2020. The Employer informed that the notice for formal Extension of Time could not be issued till the validity period of Performance Security is extended. Accordingly, the Contractor was requested to extend the validity period of Performance Security up to 28th July, 2023. The Contractor has extended the validity period of Performance Certificate up to 28th July, 2023 and submitted to the Engineer's office which has been submitted to the PMU vide Engineer's ref.no. RDCOR_BC5883-100_L003057 dated: 15th April, 2021.
- As per requirement of the World Bank Mission of 22nd February,2021 to 8th March, 2021 on the environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps

required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist;

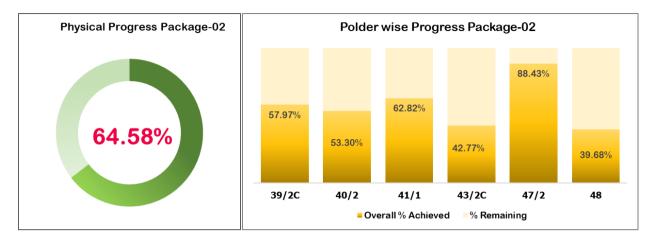

Figure 1-2: Polder wise Progress of Package-2

- The month was not fully favourable for construction works. Though most of the proposed Chinese Staffs of the Contractor has returned back to Bangladesh by this time but they could not yet achieve the targeted progress of works as per the latest revised Work Program due to their poor planning and management and cash flow problem and on the other hand due to the pandemic of Corona Virus the progress of works is affecting. The Engineer and the Employer are providing all types of possible supports so that they can pick up the works up to the satisfactory scale. At the same time, the Engineer is advising the Contractor to revise the plan of activities so that they can cope up the lagging target of the progress and engage Bangladeshi Staffs where possible to cope up with the absence of Chinese Staff. The Contractor has submitted a revised work plan which is under review by the Consultants;
- The Consultant prepared a risk assessment of possible delays which could occur and would require a possible extension beyond June 2022. The latter will be further assessed when actual progress made in the month of June, 2021 is available.

1.3 Other tasks of Consultants

The key issues for the month of May, 2021 regarding the other tasks of Consultants are summarised below:

- As per latest development, the review of the Polder 14/1 has been carried out as per World Bank comments and has been submitted to PMU. Similarly, the EIA reports of the remaining 6 (six) Polders (Polder-15,16,17/1,17/2,23 and 34/3) have already been reviewed in accordance with the EIA reports of Polder-14/1 incorporating the comments of the World Bank and submitted to the PMU for onward transmission to the World Bank;
- Activities also involved the development of a Web based system for tracking of land acquisition, GRM and various video call meetings were conducted to this end with World Bank and the Project Director; this task is nearly completed and awaiting the finalisation of the user acceptance test (UAT). To speed up this process, a dedicated server can be purchased or alternatively a cloud-based server can be utilised;
- 3. Consultants, in consultation with the Project Director have prepared a draft Addendum of Contract for the Consultancy Services. The latter allows for an extension until June, 2022 and provides additional consultancy services to cope up with the extension of Works

Contracts for Packages 1 and 2. The Addendum of Contract will increase the cost of original Consultancy Agreement: the latter has also been included in the said RDPP which has been recently approved. It also provides budget to develop and implement a pilot for an ICT (Information and Communications Technology) remote monitoring system. The approval of the Amended Contract is now in process. The Employer has approved the Extension of Time (EOT) for the Consultancy Services for **"Detail Design, Construction Supervision and Project Management Support"** Contract No. CEIP-1/B2, B3 & C1/S-2 up to June 30, 2022 with the condition that no claim will be acceptable due to this Extension of Time which is communicated to the Team Leader of the Consultants by the Project Director vide Memo No. CEIP-1/S-21/130 dated: 28th January, 2021. It is noted that Addendum of Contract should be approved and signed soon because Consultants are now already fully pre-financing, a significant amount of money for continuation of the Services since August 2020;

4. The Consultants supported the PMU with various reports and recommendations and attended various video call meetings with World Bank and other stakeholders as and whenever required.

1.4 Key challenges and risks and recommendations

1.4.1 Key challenges and risks

The key challenges and risks are listed below:

- The weather conditions at the last part of May, 2021 were not favourable for construction of Civil Works including the works of embankment re-sectioning but due to the poor planning and management constrains and cash flow problem the Contractors have failed to achieve the targeted progress of revised Work Program;
- 2. Risks related to the site situations with respect to availability of lands in some cases has improved in some cases.; all stakeholders, including the Client, Client's Local Offices, DC's, Contractor and Consultants, are applying their utmost efforts to organise this in a practical and pragmatic manner. It is Consultant's view that the progress is possible to be made only by the joint efforts of BWDB & Consultants in the interest of the CEIP-1 Project. This is an area which requires continued highest attention of all concerned;
- 3. The global Corona virus is hampering and limiting and, in some cases, stopped the movement of Staff of both the Contractors of Package-W/01 and W/02 and the Consultants. Consultants are following the international developments closely and adhering to travel guidance of e.g., World Health Organisation and Bangladesh Authorities. Restrictions have been imposed on travellers from outside Bangladesh and as a result this has impact on the progress of the Works. Also, the lock-down and cancelation of international flights is not improving the situation;
- 4. Although a draft Amended Contract for DDCS&PMS Consultants Services was already prepared in 2020, it has yet to be approved by the Competent Authorities and signed. As a result, Consultants do not have an updated Contract in place to continue their services;
- 5. Extension of CEIP-1 Contract W/01 should be finalised in the month of June 2021;
- 6. The Additional Bank Protection Works should commence soon and to this end necessary administration should be finalised in the month of June 2021.

1.4.2 Recommendations

The following recommendations are being furnished:

- When there would be a land availability issue, joint efforts of Contractors, Engineer and Employer should be enhanced to solve the issues at stake. It is highly appreciated that the Employer plays a vital role here and increased efforts should continue; rooms for improvement are less reporting and more resolving on the spot;
- In view of the delays, Engineer will continue pushing the Contractors and making them aware of their contractual obligations;
- Engineer has started to intensify the frequency of progress review meetings with the Contractors after the availability of the Polder Managers in place from the month of March, 2021. The Project Director is also participating in these meetings. The PMU has also started 2-weekly progress review meeting which is being very effective to monitor the progress of works.

1.5 Contractual Tasks of DDCS & PMS Consultants

The specific objectives of the CEIP-1 Consultancy Services are described by the following tasks:

- Task A : Review and update the designs bidding documents and related environmental and social plans (EIAs, EMPs, and RAPs) already prepared;
- Task B : Prepare detailed designs for all remaining polders and works that would be included in the project, including the Engineering and Environment and Social studies (i.e. preparation of EIA, EMP and RAP for each remaining polders);
- Task C : Supervise construction of all works under the Project, and do the contract management as "The Engineer", according to FIDIC rules and regulations and the World Bank Guidelines and its standard bidding documents;
- Task D : Provide overall project management support to the BWDB and Project Management Unit (PMU).

The Construction Works will be executed by BWDB as Employer and the Consultant will function as the Engineer of the Civil Works contracts as per FIDIC. The Consultant will administer the Civil Works contracts and ensure that the project works are implemented in accordance with the provision of the Contracts. The Consultant nominated Engineer's representative for 4 and 6 Polders in Package-1 & 2 respectively under each respective Works Contract.

2. Summary of Key Achievements during the reporting month

2.1 Package-1

| No. | Item | Key Achievements during the month – Package-1 |
|-----|--|---|
| 1 | Works | Construction / Re-Sectioning of Embankment: 0.00 Km (Full) & 1.929 Km (Part); |
| | | Excavation / Re-Excavation of Drainage Channel: 0.00 Km; |
| | | Construction of Drainage Sluice: 38 nos. Completed; |
| | | Repair of Drainage Sluice: 2 nos. completed; |
| | | Construction of Flushing Inlet: 29 nos. Completed; |
| | | Repair of Flushing Inlet: 14 nos. completed; |
| | | Embankment Slope Protection Works: 0.207 Km; |
| | | River Bank Protection Works: 0.00 Km; |
| | | > Nalian Closure Dam: Overall Physical progress 100%. Completed. |
| 2 | Contractor Resources | Updated by Contractor Package-1 in terms of labour and equipment. |
| 3 | RAP and status of resettlement Payment | 6127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in August-December 2015 of whom 820 on private land (titled) and 4633 on government land non-titled EPs (Squatters) and among 4633 EPs, 448 tenants and 226 were wage labourers. |
| | | The numbers of entities as of May, 2021 stands at 5373 of whom 4645 non-titled (Squatters), 448 tenants and 280 as wage labours. BDT 6,094.67lac has been paid to the 4338 non-titled EPs (squatters) including 174 numbers tenant and 137 numbers wedge labours as compensation/resettlement benefit against their affected residential, fish gher, commercial, tress. Moreover, the compensation has been paid for Social Forestry (27 nos. for CPR) is BDT 16.12lac and for removing 76nos. electric poles an amount of BDT 25.48lac. Total 6,136.27lac has been compensated against Package-1 up to May, 2021. |
| 4 | Status of Land Acquisition | • 132.47ha land was programmed for acquisition (LA) in 4 Polders of Package-1. Land acquisition proposal (LAP) were submitted to DC, Khulna and Bagerhat accordingly. A total 1.11 ha land was omitted from proposal in polder 32 (0.63 ha) and 35/3 (0.48 ha). Now, as per possession received and gazette notification a total land becomes 131.36 ha for acquisition. |
| | | 131.36 ha of land is programmed for acquisition (Polder-32 = 50.60 ha, Polder-33 = 14.28ha, Polder-35/1 = 41.47ha& Polder-35/3 = 25.01 ha.). |
| | | A total 131.36 ha of land finally approved by MoL and DC for acquisition. |
| | | Possession received a total 125.64 ha of land (Polder-32 = 50.02 ha, Polder-33 =14.28ha, Polder-35/1 = 37.01ha & Polder-35/3 = 24.33 ha.) |
| | | A total of 5.72 ha lands are yet to be received are pending for procession (0.58ha for Polder no. 32, 4.46ha of Polder 35/1 against three mouzas (Sharankhola Mouza-0.13ha, Rayenda-2.57ha, Kumarkhali-1.76ha.) and 0.68ha land for Polder 35/3. |
| | | DC office Khulna & Bagerhat has paid a total BDT 7,679.11lac against 3695nos. of awardees among Titled EPs (1215 nos. of |

| No. | Item | Key Achievements during the month – Package-1 |
|-----|-----------------------------------|---|
| | | Polder-32, 565 nos. of Polder-33, 1453 nos. of Polder-35/1, 462nos. of Polder-35/3). During May, 2021 CUL has been paid to 25nos. EPS only. |
| 5 | Relocation | 98.66% of paid EPs have already been relocated. 50.12% EPs have relocated on their own land; 10.58% on newly purchased land; 16.09% EP has replaced to their relatives or others' land; 11.66% have relocated temporarily at nearby area 1.01% and 2.03% have relocated respectively in Market & Group Relocation In addition wage labour 3.16% and tenant 4.01% are relocated. 1.34% of the paid EPs are yet to be relocated from the ROW. |
| 6 | Grievances | 178 complaints/grievances have received up to May, 2021 by GRC. 43 complaints/grievances have been resolved at the entry level; while 134 cases have been resolved through investigations and formal hearing by GRC, total 177 cases have been resolved and 1 no is under more investigation. All records of GRC preserved according to the guidelines of RAP policy. |
| 7 | Environment | The Contractor is carrying out the EHS compliances, which is improving with time through monitoring and learning. They are improving the EHS compliance in the light of the latest field visit of the World Bank Senior Environmental Specialist. They are also involved in translation of approved EHS risk assessment and C-ESMP into Bangla and Chinese languages for easy understanding for implementation. The Contractors also prepared Guidelines Tool to avoid/check infection from COVID-19 and other infectious diseases with reference to "COVID-19 OHS Protocols" provided by the World Bank. The report prepared by the Contractor; Package-1 has been approved by the World Bank. The Contractor, Package-2 has prepared similar report which has been submitted to the World Bank for approval. The Environmental issues are discussed in the World Bank Environmental monthly meeting started from April, 2021, where environment and COVID 19 related issues discussed for further improvement, that also facilitate understanding of the situation by all concerned. |
| 8 | Value of Physical Work Done | The total value of physical work done up to May, 2021 is BDT 6,386.60 million and during May, 2021 is BDT 18.88 million. |
| 9 | Finance | Total expenditure incurred up to IPC-24 is BDT 5,975.11 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 660.89 million has been recovered from the advance payment of BDT 660.89 million . |

2.2 Package-2

| No. | Item | Key Achievements during the month – Package-2 |
|------|--|---|
| 1 | Surveys and Design | The pre-sections surveys for the remaining sections of the Polders are conducting during FY 2020-2021 subsequently shop drawings are being prepared before execution of Physical works. |
| 2 | Works | Construction / Re-sectioning of Embankment: 4.030 Km (F) & 17.537 Km (Partially); Drainage Channel Excavation/Re-excavation: 1.900 km completed; Construction of Drainage Sluices: 0 no. completed & 39 nos. (Partially) total 4 nos. completed up to May, 2021; Repair of Drainage Sluices: 2 nos. (Partially); Construction of Flushing Inlets: 0 no. completed & 22 nos. (Partially); total 2 nos. completed up to May, 2021. Repair of Flushing Inlets: 0 no. completed & 16 nos. (Partially); total 1 no. completed up to May, 2021. Embankment Slope Protection Work: 0.00 km completed. River Bank Protections: 0.120 Km completed; Construction of Closure Dam: 11.13% completed Foundation Construction of Closure. |
| 3 | RAP and status of resettlement Payment | A total of 6778 entities have been identified of whom 1777 entities are titled and 4747 are non-titled on Government land (squatters) which fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises; BDT 3,259.65 lac has been paid to 2,915 non-titled (squatter) as compensation/resettlement benefits against affected residential and commercial structures. An amount of BDT 16.50lac paid for shifting of electric poles from Polder no- 39/2C, 40/2 and 43/2C. The total 3,276.15 lac has been compensated up to May, 2021 no payment. |
| 4 | Preparation of LAP | 163.79ha land was programmed for Land Acquisition (LA) in six Polders of Package-2. In polder 39.2C (Pirojpur District) 4.84 ha land is eroded due to river erosion, that area is omitted from the program. In February 2021 a new proposal of 13.67 ha of land has submitted to DC Pirojpur (12.97 ha.) and Jhalakati (0.70 ha.) for acquisition. Now the program of land acquisition in Package-2 becomes 172.62 ha. The lands Acquisition Proposal (LAP) for six Polders under Package -2 were submitted to concern DC (Pirojpur, Jhalokathi, Barguna and Patuakhali) for acquisition. 134.92 ha land has been approved by MoL for Polder 39/2C, 40/2, 41/1, 43/2C, 47/2 & 48 out of 172.62 ha. BWDB has placed fund against final estimate of CUL to DC, Barguna for Polder-40/2 and Polder-41/1, DC, Pirojpur & Jhalokathi for 39/2C, & DC, Patuakhali for Polder-43/2C (Part), 47/2 & 48. Fund placed against final estimate to DC Pirojpur for 105.91 ha of land and DC, Jhalokathi for 10.18 ha of land. Notices U/S-7 has been served for 27 mouzas in Polder-39/2C (Pirojpur district- 22mouzas and Jhalokathi District- 5 mouzas). Payment of CUL is going on. Possession received a total of 134.60 ha land (Polder 39/2C- 111.25 |
| CEID | | ha, in Polder 40/2- 11.68 ha, for Polder 41/1- 8.29 ha, Polder 47/2- |

|-----|---|---|
| | | 2.31 ha & Polder 48- 1.07 ha). DLAC approved 23.20 ha of land against 11 mouzas under polder no-43/2C.Already placement of fund by BWDB to DC for one mouza (0.06 ha).The issuances of notices U/S-4 and JVS are completed for 10 mouzas (area 23.14 ha) and submission to MoL for final approval. Payment of CUL is going on in Polder-39/2C, 40/2, 41/1, 47/2 & 48. As of May, 2021. DC Office Pirojpur, Jhalokathi, Barguna and Patuakhali have paid a total BDT 2,916.98 Lac to 1,986 Awardees. Payment of CUL is stopped due to lock down. |
| 5 | Relocation | 45.82% EPs have relocated on their own land; 09.25% on newly purchased land; 14.60% EPs have relocated to relative's or others' land; 18.47% have relocated temporarily at nearby area. 05.24% made group relocation. 6.61% of the paid EPs are yet to be relocated from the ROW. |
| 6 | Grievance Redress Management (GRM) | A total number of 51 complaints/grievances have been received up to May 2021 by GRC. All of them have been resolved in the entry level by the field investigation |
| 7 | Environment | The Contractor is carrying out the EHS compliances, which is improving with time through monitoring and learning. They are improving the EHS compliance in the light of the latest field visit of the World Bank Senior Environmental Specialist. They are also involved in translation of approved EHS risk assessment and C-ESMP into Bangla and Chinese languages for easy understanding for implementation. The Contractors also prepared Guidelines Tool to avoid/check infection from COVID-19 and other infectious diseases with reference to "COVID-19 OHS Protocols" provided by the World Bank. The report prepared by the Contractor; Package-1 has been approved by the World Bank. The Contractor, Package-2 has prepared similar report which has been submitted to the World Bank for approval. The Environmental issues are discussed in the World Bank Environmental monthly meeting started from April, 2021, where environment and COVID 19 related issues discussed for further improvement, that also facilitate understanding of the situation by all concerned. |
| 8 | Value of Physical Work Done | The total value of physical work done up to May, 2021 is BDT 6,651.76 million and during May, 2021 is BDT 133.68 million. |
| 9 | Finance | Total expenditure incurred up to IPC-16 is BDT 5,765.90 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 382.16 million has been recovered against the advance payment of BDT 1,028.40 million . |
| 10 | Contract Administration | The Variation Order No. 3 for construction of Rest House cum Office Building at Bhandaria was submitted to the PMU after recasting the same as per observations of the PMU vide Engineer's letter RDCOR_BC5883-100_L002586_JHL_MAR dated: 28 th May, 2020 in the name of Variation Order No.02. The Engineer has not yet received any response in this respect from the employer. |

2.3 Package-3

| No. | Item | Key Achievements during the Month – Package-3 |
|-----|-----------------------|---|
| 1 | Surveys and Design | The detailed design of all the infrastructures like Embankment, Drainage Channels, Drainage Regulators, Flushing Regulators, Slope Protection works, Bank Protections works etc. were submitted to the concerned design office of BWDB within June, 2019. By this time the detailed Design of all the infrastructures had been approved by the concerned Design Circle of BWDB. The design of 209.98 km of Embankment Design of 167.37 km of Excavation/ Re-excavation of Drainage Channels, design of 52 nos. Drainage Regulators & 19 nos. Flushing Regulators have been approved by the BWDB Design Circle-5. The typical Mechanical Design for Flap Gates & Vertical lift gates for the D/S & F/S of Package-3 have already been approved by the Mechanical design Circle of BWDB. |
| 2 | Bid Documents | The Draft Bidding Documents was prepared based on preliminary design and submitted to PMU vide Consultant's reference: RDCOR-BE5883-100-L002255_MHR_MAR dated: 17 th October, 2019. As per Aide-Memoire of the WB Implementation Support Review Mission, the submitted Bid Documents are to be updated based on the approved design of the related works and to be submitted to the PMU by May, 2021. The preparation of Bidding Documents based on approved design is in progress and expected to be completed by August, 2021. |
| 3 | RAP | The original RAP was prepared based on original LAP. Meanwhile, the crest width of the embankment has been increased by BWDB from 4.50 to 6.00 m based on which the LAP is being updated. Hence, the original RAP has also to be updated based on updated LAP. Following the updated LAP, the LAP/RAP team has to revise the Households (HHs) numbering and Inventory of Losses (IoL) survey in all 5 Polders under Package-3 of CEIP-1. |
| 4 | LAP | The draft LAP was prepared for all Polders, but as per latest decision, the LAP has to be revised based on revised crest width of embankment 6.00m instead of 4.50 m. The process of updating of LAP is in progress. |
| 5 | Environment | World Bank thorough final review has agreed to finalize the EIA report of Polder-14/1 along with few additional responses, which will be carried out. The EIA reports of the remaining 6 Polders under Package- 3 will follow subsequently. |

2.4 DDCS & PMS Consultancy Services

| No. | Item | Key Achievements upto this Month – Consultant |
|-----|--|--|
| 1 | Construction Supervision Systems/Tools | Package-1 physical progress is 91.91% (4 Polders); Package-2 physical progress is 64.58% (6 Polders); Package-3 no works contract, hence no physical progress (7 Polders). |

Royal HaskoningDHV Enhancing Society Together Leading Teday for Tomorrow

CEIP-1 Progress Report No. 73 – May 2021

3. Project Progress

3.1 Task A: Review and updated the designs bidding documents and related environmental and social plans (EIAs, EMPs and RAPs) already prepared,

3.1.1 Review and update of Design of Package-1

The approved designs were reviewed and updated at the time of commencement of Implementation of the Civil Works. At present the works are being going on accordingly.

3.1.2 RAP Implementation Package-1

3.1.2.1 Implementation Activities

RAP Implementation for Polders-32, 33, 35/1 and 35/3 under Package-1 is going on. Individual entitlement has been calculated based on Inventory of Losses (IoL) survey and as per PAVC recommended rate of the structures and other assets. A total of **6,127** entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in August-October 2015 of whom 820 on private land (titled) and 4633 on government land non-titled EPs (Squatters). Among 4633 EPs, 448 tenants and 226 wage labourers were identified.

The Polder-wise non-titled EPs and payment of compensation as resettlement benefit is reflected in Table 3-1 below.

| | Non-title | d EP's (Sq | uatters) | | Non-titled Squatters) | | Tota | D _id | Total | Paid | | Total | Amount |

3.1.6 Implementation of RAP for Package-2

3.1.7 Implementation Activities

The RAP for Package-2 was prepared and cleared by the World Bank in March 2017, later on updated to incorporating some changes of land acquisition and resettlement issues. This updated RAP-2 was cleared by World Bank in December, 2018. As per updated a total of 6,778 entities have been identified of whom 1,777 entities are titled and 4747 are non-titled on Government land (squatters) which may fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises.

3.1.8 Payment of Compensation / Resettlement Benefits for Package-2

Payment for Compensation and resettlement benefits for non-titled EPs (Squatters) has been started from October 2018. A total of 2918 EPs have been paid amounting BDT 3259.65lac and shifting of electric poles 16.50lac total amounting of 3,276.15lac. The detail of the payment of compensation is shown in Table 3-7:

| | Non-titl | | | Total | | | | | | | | | |

| | | Total = | 51 | 51 | 0 |

Table 3-10: The status of complaints/cases received and resolved by GRC

3.1.12 Preparation of EIA of Package-1

The EIA of 4 Polders under Package-1 were completed during the study period and duly been approved by the competent authorities including World Bank.

3.2 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package-2 Polders

3.2.1 Data processing and reviewing the shop drawings

Immediately after the completion of each day's survey work, the raw data is submitted to the DRE. Then the raw data is processed to check the quality by using the field log sheet. The shop drawings of embankment and khals are also verified with the received raw data/field log sheet and reviewing the proposed alignment before giving final approval.

3.2.2 Design status of Package-2

All the Detailed Designs of Package-2 were completed and duly been approved by the respective Design Circle of BWDB.

3.2.3 Preparation of EIA of Package-2

The EIA of 6 Polders under Package-2 were completed and duly been approved by the competent authorities including World Bank.

The period involves the starting of working season and thus the Contractors getting involved in carrying out new works along with continuation of the previously involved activities. The environmental activities related to Environment, Health and Safety (EHS) including COVID measures and others as carried out during the month of May, 2021 are as follows:

3.2.4 Preparation of Monthly Progress Report (MPR) of Environmental issues for the month of May, 2021

The period involves the working season and thus the Contractors are getting involved in carrying out various new activities along with the continuation of the previously incomplete activities, although continuation of COVID-19 created some restriction to the work progress. The environmental activities related to Environment, Health and Safety (EHS) and others as carried out during the month of May, 2021 are described as follows:

3.2.5 Holding of virtual meeting with World Bank and Environmental Safeguard team of CEIP-1

The World Bank carried out the monthly follow-up meeting with CEIP-1 PMU, DDCS& PMS Consultants and Third party M&E Environmental Safeguard Team on 03.05.2021 to update the latest status of the environmental activities. Various environmental issues were discussed in the meeting including environmental works which are being carried out along with various issues requiring further improvement and some new activities required to be complied by the Contractor in CEIP-1. Accordingly, the Contractors of CEIP-1 were asked to perform various environmental requirements.

The Contractor, Package-2 have carried out some activities for improving the EHS status as discussed in the meeting and according to the issues discussed in the EHS meeting on 24.3.2021. Moreover, many others environmental issues have been improved by the Environmental and social teams of CEIP-1 during the reporting period. Details of various related improvement are mentioned in the following Table:

| SI. No. | Action | By whom | When | Remarks |
|------------|--|--|---|---|
| 1. | Submission of RAP for second phase | Draft RAP report for second phase has been prepared by KMC | The draft RAP report has been submitted to TL, DDCS&PMS Consultants on 26.5.2021 | The draft report is under review by DDCS&PMS Consultants for submission to PMU |
| 2. | Submission of EIAs of Package-3 for second phase. | • | The EIA reports submitted to PMU on 30.5.2021 | |
| 3 | Progress of placement of generators on paved surface at sites in Package-2. | on paved surfaces have | The works have been carried out by 15.5.2021 | According to the Contractor, Package-2, works of most of the D/S and F/S are on verge of completion, where there is no need for generator use |

Table 3-11: Status of Environmental performance according to the monthly environmental meeting on 03.05.2021

| SI. No. | Action | By whom | When | Remarks |
|------------|--|---|--|---|
| 4. | Progress of increasing of Grievance Collection Boxes (GCB) at sites | 1 new GCB box has been placed in Polder 43/2C (By the Contractor Package-2) | The works have been carried out by first week of May, 2021 | The numbers of GCB boxes will be further increased along with increase of workers when their number will increase with improvement of Corona situation. |
| 5 | Submission of report on current status of the vulnerable conditions of the Embankment at different locations in package-1. | A report on current status of the Emergency River protection works at vulnerable locations of the embankment in Package-1 has been submitted by DDCS&PMS Consultants | Submitted on 27.05.2021 | |
| 6. | Submission of damage assessment report including Environmental consequences due to Amphan cyclone, 2020. | It has been submitted in the monthly progress report of April, 2021(prepared and submitted by the DDCS&PMS Consultants) | Submitted along with the monthly progress report of April, 2021 | |
| 7. | Progress of fishery activities including preparation of release of threatened fish fingerlings as per recommendations of the Fishery Committee in Package-1 | Progress of fishery activities slowed by the Contractor. | | According to the Contractor, Package-1, the progress of Fishery activities has been slowed down due to lack of availability of Fishery Specialist during COVID- 19 situation mainly. However, DDCS&PMS Consultants have instructed the Contractor to gear up the Fishery activities of Package-1 Contractor as per recommendation of the fishery committee |
| 8. | EHS committee meeting on 24 March, 2021 in Package-2 | The Contractor, Package-2 made some progress in EHS compliance (including COVID-19) as mentioned below: Placement of 4 generators on paved surfaces in Polders 39/2C and 40/2 Supply of safe drinking water in various working locations of Polders Erection of signboards for awareness of COVID-19 at various camp sites and work sites. Improved the drainage system of Nadmula automated C.C. camp, Polder, 39/2C Set precautionary signs/ measures for embankment works. Started fencing of various work sites for safety of community people passing across the work sites. | The Contractor complied the mentioned activities during the whole month of May, 2021. | The Contractor, Package-2 has also been suggested for compliance of other EHS issues like placement of all other generators on paved surfaces, checking validity of fire extinguishers, ensuring use of PPE and for the workers and provision of fence at different working areas etc. which they agreed to follow. |
| 9. | Slow progress of afforestation activities | | | |

| SI. No. | Action | By whom | When | Remarks |
|------------|--|---|---|---------|
| 10. | Close and continuous monitoring of the environmental mitigation activities | Activities of environmental mitigation measures performed by the Contractor is monitored by the Environmental Specialists of PMU and DDCS&PMS Consultants, as per suggestion | During and after Contractors' performance | |
| 11. | Conduct of Fishery improvement activities in Package-2, CEIP-1 | The Contractor, Package-2 has been instructed by DDCS&PMS Consultants for carrying out the plan for Fishery improvement activities | The work is expected to be carried out soon by the Contractor, Package-2 | |
| 12. | The World Bank has requested DDCS&PMS Consultants to keep close contact with the Contractor and keep PMU updated accordingly for communicating to the World Bank | The DDCS&PMS Consultants acting accordingly for improvement of environment/EHS qualities | Continuous | |

3.2.6 Environment-related information, Package-1

The Contractor, Package-1 has submitted some information related to environment for the month of May, 2021 as part of the regular exercise. The Contractor recruits no under-aged worker and workers' age is verified through cross checking their National ID Cards. The related information are provided in the following Table 3-12:

| Locatio ns | No. of total workers in 4 Polders in this month | | No. of Env. training and trainees in this month | | No. of total accidents took | No. of env. grievanc e | No. of problem faced for env. | Comments |
|---------------------------|--|---------------------------|--|--------------------|--------------------------------------|---------------------------------|--|---------------------------|

3.2.7 Information of working areas, no. of workers involved (both local and expatriate) and steps taken by the Contractor, Package-1 on COVID-19 pandemic

The Contractor of Package-1 has been involved in various construction /civil activities where a number of local and expatriate workers/ staffs are involved. The works were continued at various work sites during the month of May, 2021 in the Pandemic situation, which is aggravating fast. The Contractors took some emergency measures like provision of PPE, mask, hand gloves, hand sanitizer (containing 75% alcohol), checking of workers' temperature, disinfection of camp and work sites and imposition of some restrictions including social/personal distancing and preparation of isolation areas. Information on workers and work sites along with safety issues provided by the contractor during the reporting period are as follows Table 3-13:

Table 3-13: Information on locations of various work sites, involved number of workers and safety issues followed in Package-1 areas

| SI. No. | Location, Polder No. Work site | Type of work | invol 01.0 31. | of workers ved during 05.2010 to 05.2021 | Expected date of work completion | Comments |

3.2.8 Novel coronavirus response, Package-1

Contractor, Package-1 adopted following measures to combat Coronavirus situation:

- All personnel shall take temperature every day and arrange special personnel to take temperature and check, including office, camp, local construction, sluice and slope protection construction;
- All personnel shall wear surgical masks during operation and shall be provided masks before going to work every day;
- Keep hands clean with hand sanitizer and disinfectant to avoid spreading of the COVID-19 virus;
- Thorough disinfection drive is conducted every Friday, including office areas, camps, prefabrication plants, construction vehicles and motor vehicles;
- Provision of PPE like surgical masks, medical gloves, eye mask to supporting staff (such as gate guard, police);
- Provision of training and awareness on prevention and safety issues related to Corona virus infection during tool box talking;
- Workers are not allowed any leave during work and leaving work site is forbidden strictly.

3.2.9 Noise measurement of Package-1

None of the automated CC block manufacturing plants of Package-1 was in operation during the month of May, 2021. Moreover, no generator was in operation during the whole month. Thus, noise level was not measured at work sites of Package-1.

3.2.10 Environment-related information, Package-2

The Contractor, Package-2 has submitted some information related to environment for the month of May, 2021 as part of the regular exercise. The Contractor recruited no under-aged worker and workers' age is verified cross checking their National ID Cards. The related information are provided in Table as follows tables.

| suo | No. of Total Workers in 6 Polders this Month | | No. of environm ental | No. of total accidents | No. of total environme | No. of problem faced for environme | | |
|-----------------|--|------------------------|------------------------------|-----------------------------------|---------------------------------------|---|---|--|
| Locations | Local Worke rs | Expatriat e workers | trainees in this month | took place in this month | ntal grievance in this month | ntal compliance in this month | Comment | |
| Polder 39/2C | 140 | 15 | 135 | 1 | 0 | 0 | One slight leg injury while stacking templates, the worker was sent to local clinic and got cure | |
| Polder 40/2 | 234 | 8 | 219 | 1 | 0 | 0 | One slight finger injury, which was treated with first aid facilities. | |
| Polder 41/1 | 162 | 7 | 148 | 0 | 0 | 0 | Have no injury this month | |

Table 3-14: Environmental-related Information, Package-2 for May, 2021

| Patuakhal i office | 5 | 6 | | 0 | 0 | 0 | |
| Total | 859 | 54 | 779 | 2 | 0 | 0 | |

3.2.11 Information of working areas, no. of workers involved (both local and expatriate) and steps taken by the Contractor, Package-2 on COVID-19 pandemic

The Contractor of Package-2 has been involved in various construction /civil activities, where local and expatriate workers/ staffs are involved, although works have been affected due to COVID-19 situations. Most of the workers continued at various work sites during the month of May, 2021 in the prevailing COVID-19 pandemic situation as provided in the following Table 3-15.

| Table 3-15: Work site information of Package 2, CEIP-1 during the period from 1.5.2021 to | | | | | | |

| SI. No. | Location, Polder No. Type of work Work site | | involv 01.5 | f workers ved during 5.2021 to 5.2021 | Expected date of work completion | Comments |
|------------|---|---|----------------|--|--|---|
| | | | Local | Expatriate | - | |
| 4 | 43/2C | CC Block Manufactured work Embankment work at Km 2-3 Embankment work at Km 8-9 Casting the concrete for ds2 Inlet -outlet Formwork for DS2 and fs-10 Formwork for DS-2 | 193 | 6 | 30 June 2021 | Workers use mask and hand sanitizer |
| 5 | 47/2 | 1. Dumping CC Block | 29 | 0 | 30 June 2021 | Workers use mask and hand sanitizer |
| 6 | 48 | CC Block manufactured; Slope Protection work For KM 30+800-31+450 | 177 | 6 | 30 June 2021 | Workers use mask and hand sanitizer |
| 7. | Dhaka office | Administration and Supervisory works | 8 | 6 | | |
| 8. | Patuakhali office | Administration and Supervisory works | 6 | 6 | | |
| | | Total workers= | 947 | 55 | | |

Note: During this period, contractor has always provided the protective tools to workers, such as Mask, Hand Sanitizer minimum 75% of alcohol, most important is we check workers` temperature everyday with Temperature measuring gun. And also, isolation area prepared in every Polders` camp site.

3.2.12 Noise Measurement, Package-2

The automated CC manufacturing plants of Polder 39/2C are closed during the month of May, 2021 However, noise have been measured as caused by operation of generator mainly, used for various project related activities operated in Polders 39/2C, 40/2, 41/1,43/2C and 48 during the month of May, 2021. The noise levels of different work sites of these Polders are provided in Tables 16 to 19 as follow:

3.2.13 Information on Grievance Collection Box (GCB)

According to the existing information the present status of GCBs in Package-1 and Package-2 are as follows:

In Package-1, Polder 32 there are 2 nos. of grievance collection boxes (both at camp sites) and Polder 35/1 has 3 nos. (around automated CC block manufacturing site) of GCBs.

In Package-2 Polder wise GCBs are, in Polder 39/2C there are 3 nos. (at and around automated CC block manufacturing plants), in Polder 40/2 there are 2 nos. (1 at camp site and 1 at mechanical room), in Polder 41/1 there are 2 nos. (1 at gate and 1 at camp site), 43/2C has 2 (1 at camp site and another new placed in mechanical workshop site), 48 has 3 nos. (1 outside store room, 1 outside generator room and 1 outside mechanical room). It is to be mentioned

here that the numbers of GCB boxes will be increased whenever the number of work location and workers will be increased which is expected with the improvement COVID 19 situation.

3.2.14 Recording of Workers' History

The Contractor, Package-2 is keeping/ maintaining various records of their workers specially information on their age, gender, medical history, contact details of next of kin to notify in case of accident and emergency. The recording is monitored by the Environmentalists of PMU, DDCS&PMS Consultants and Third-party M&E Consultants during their visits at field level.

3.2.15 EAP/C-ESMP Monitoring

Monitoring of key EHS risk management according to EAP/C-ESMP in Package-1 and Package-2 have been carried out during the Month of May, 2021 are as follows:

3.2.16 Key EHS compliance Issues (Package-1)

Various key EHS measures complied based on EHS risk management in the light of EAP (in Package-1) during the month of May, 2021 are presented in table below:

| SI. no. | Polder/site | Specific individual area | EHS Risk issues | Measures taken to mitigate the risk issues | Remarks |
|------------|--|--|--|--|---------|
| 1 | Polder 32 & 35/1 Re-sectioning of Embankment | Starting and ending of working length | May occur accident, top soil disruption | Demarcated all work sites clearly Installed cautionary/informative signals to indicate the entry and exits of vehicles and movement of construction equipment in the working area. Disposed of the excess soil at site with no objection from local authority. Conducted regular toolbox talk before starting the work Informed the community before the start of work Provided PPE to the workers during conduct of work Erected the wire up to enough height before starting and ending of the work Checked the physical condition of excavator regularly Checked the physical condition of truck regularly Checked the physical condition of truck regularly Conducted training on driving safety at regular interval Borrow area of earth was fixed on agreement with land owners Documented all borrow agreements approximation and the safe distance from embankment as per technical specification. | |
| 2 | Precautionary bank protection works at Polder 32 & 35/1 | | | The workers were provided with EHS requirements along with COVID-19 issues | |

Table 3-21: Measures taken on EHS Risk Management and EAP for Package-1

Page 32 of 104

| SI. no. | Polder/site | Specific individual area | EHS Risk issues | Measures taken to mitigate the risk issues | Remarks |
|------------|---|--|---|---|---------|
| | | | | Documented all borrow agreements Complied barrow area excavation with safe distance from embankment as per technical specification. | |
| | | | Stockpile area | Sprayed water at regular intervals Maintained safe height of the stockpile Provided coverage of stockpiled materials | |
| | | | Electric firing | Checked the switch board and wire system regularly Provided fire extinguisher and sand at strategic locations | |
| 2.1 | Polders 40/2,41/1, 43/2C, 47/2 and 48 Manufacturing of CC block (by mixer machine) in | | Fuel Storage | Established fuel storage shed Paved the fuel storage area Provided firefighting equipment and checked the expiration date of hydrants Avoided underground storage of fuel Maintained minimum distance during fueling and re-fueling Made available of fuel absorbent | |
| | | | Waste storage and disposal | facility at site Provided separate collection bins for different waste types Installed designated dumping area Installed decanting boxes Established facility for collection of industrial waste Ensured safe waste disposal | |
| 3. | Polder 40/2, 41/1, 43/2C& 48 Re-sectioning of Embankment and slope protection works of Polders 40/2 and Polder 48 | Starting and ending of working length | May occur accident, top soil disruption | Installed cautionary/informative signals to indicate the entry and exits of vehicles and safe movement of construction equipment in the working area. Disposed of excess soil at site with no objection from local authority. Erected the wire up to enough height before starting and ending of the work Checked the physical condition of excavator regularly Checked the physical condition of compaction vehicle regularly Checked the physical condition of truck regularly Conducted training on driving safety at regular interval Borrow area of earth was fixed on agreement with land owners Documented all borrow agreements Complied barrow area excavation with safe distance from embankment as per technical specification. | |
| 4. | All Polders under Package-2 | Covid-19 crisis | Infection and Spreading of the germ of novel corona virus | Checking of body temperature of workers by experienced personnel at all work sites before entrance. Reduce the work load Make arrangement for hand washing/hand sanitizer Maintaining the required distance to avoid infection Provided additional PPE regard to Covid-19 situation Improvement of workers' awareness on control of outbreak and spread of COVID-19 | |

CEIP-1 Progress Report No. 73 – May 2021 Page 33 of 104

3.2.17 Progress of Mechanical Works

With regard to mechanical aspects the following activities were performed.

Package-1

The fabrication of all New Gates & Hoisting devices has been completed and already been carried to the site and installation of the devices is going on.

Package-2

Shop Drawings of Gates and Hoists approved and sent to the Contractor to start fabrication work in China. Pre-Fabrication material test was done at BUET and found in order. Gates and Hoists are being fabricated in China. Already 102 sets of gates and hoists have been arrived at site up to May, 2021. Inspection and testing of these Gates have already been done. Contractor has been advised to install these Gates as early as possible. In total 85 sets of gates have been installed in the completed structures out of which 66 sets in Drainage Sluices and 19 sets in Flushing Sluices. The Contractor has been advised to bring the remaining Gates and hoists at the earliest possible time to complete the Drainage and Flushing Sluices in all respect to make them functional.

Package-3

Remaining Design of Flushing cum Drainage Regulators for Package-3 has got approval from BWDB Design Office. With this all the mechanical Design works in connection with Package-3, CEIP-1 has been completed.

3.3 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for Package-3 Polders

3.3.1 Design

The detailed information with regard to status of preparation and approval of the design of different items of works of Package-3 has been shown in the Table 3-23 below:

3.3.2 Bidding Document of Package-3

Preparation of the Bidding Documents based on estimate prepared on the basis of draft design submitted to the concerned design office for approval had been completed and submitted to PMU on 17th October, 2019. As per Aide-Memoire of the WB Implementation Support Review Mission during 16th August, 2020 to 20th August, 2020, the submitted Bid Documents are to be updated based on the approved design of the related works and was schedule to submit to the PMU by March, 2021 but due to delay in the approval of design it could not be submitted within the schedule time. It is in the process of preparation and will be submitted at the earliest possible time.

3.3.3 Preparation of EIA of Package-3

The World Bank, after final review, has agreed to finalize the EIA report of Polder-14/1 along with few additional responses, which will be carried out. The EIA reports of the remaining 6 Polders under Package-3 will follow subsequently.

3.3.4 RAP Preparation of Package-3

The design crest level has been increased from 4.50 m to 6.00 m with the instruction of BWDB and the design of embankment was approved accordingly. At present, the LAP has already been updated in accordance with the approved design of embankment. The RAP has also been updated based on updated LAP which will be submitted to the competent authority by May,2021.

3.3.5 LAP Preparation for Package-3

BWDB had decided to change the design of embankment providing the crest width 6.00m instead of 4.50 m. At the present context, the designs of embankment have been approved by the Design Circle-5, BWDB considering the crest width 6.00 m. The Works of Package-3 proposes to acquire 85.95 ha land for improvement of Seven Polders. The 3rd Package is likely to displace 4,785 households (HH) and other units. But all these activities will require updated in accordance with the revised LAP already submitted to the competent authority.

3.4 Task C: Supervise Construction & Administer Contract of Package-1

3.4.1 Introduction

The Progress report covers the events up to 31st May, 2021. The Contract for Package-1 was signed on 1st November, 2015 for the execution of Rehabilitation/ Reconstruction and Upgrading of Polder-32; Polder-33; Polder 35/1 and 35/3 under Package-1. The date of formal commencement of work was on 26th January, 2016.

Construction of all the thirty-eight (38) Drainage Sluices (DS) are completed including installation of new hoisting devices per revised design drawing. Construction of one Drainage Sluice (DS-18) was dropped in Polder 35/1 due to erosion of the proposed alignment by the Baleshwar River in November 2016. Construction of all the twenty-Nine (29) Flushing Sluices (FS) are completed and repairing of all the fourteen (14) Flushing Sluices are also completed.

Total nos. of Flushing sluice to be repaired as per contract was 30 nos. out of which 16 nos. has been dropped and those are reflected in detailed in Table 3-35 and Table 3-36 below.

| SI No. | Name of Polder | Total Nos. as per Contract | Current Status | Total Dropped | Remarks |
|-----------|-------------------|-------------------------------|-------------------|------------------|--|
| 01. | Polder-32 | 20 nos. | 6 Nos. | 14 Nos. | Mostly fallen outside of the retired embankment. |
| 02. | Polder-33 | 5 Nos. | 3 Nos. | 2 Nos. | As those were constructed by the local shrimp culture owners |
| 03. | Polder-35/1 | 3 Nos. | 3 Nos. | 0 | |
| 04. | Polder-35/3 | 2 Nos. | 2 Nos. | 0 | |
| | Total = | 30 Nos. | 14 Nos. | 16 Nos. | |

Table 3-35: Information regarding Repair of Flushing Sluices and Drainage Sluices

Remaining (30-16) = 14 nos. of Flushing Sluices under repair were in the program, the works of which have already been completed. Total 2 nos. of Drainage Sluices under repair were in program, the work of which have already been completed.

Table 3-36: List of Flushing Sluices Dropped from the repairing Program

| Flushing Sluices | Reasons for dropping |
|---------------------|---|
| Polder 32 | |
| FFDFR-01 | Not repairable |
| FS-04 | Not repairable |
| FM-01 | Not repairable |
| FM-02 | Sluice is now in no use. |
| FM-07 | No need to repair, connected with the private pond. |
| FM-11 | No need to repair, connected with the private pond. |
| FM-12 | Sluice could not be identified. |

Page 50 of 104

Figure 3-17: Revised S-Curve of Package-1

3.4.6 Emergency Works in Package-CEIP-1/W-01

The emergency works under this Package have taken up to close the breaching of existing embankment at some vulnerable locations. The main target of these emergency works was to stop the intrusion of saline water into the Polders to save the crops. In the Contract, there was a provision for an amount under Environmental Mitigation Works (Specified Provisional Sum). After exhaustion of the above-mentioned amount to meet up the cost of the rest emergency works, the expenditures are being meet up from the Physical & Price Contingencies. The status of expenditure up to May, 2021 are shown below.

Table 3-40: Summary of Emergency works under the head of "Environmental Mitigation Works"

| SI. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|-----|----------------|--------------|---------------------------|
| 01 | Polder-32 | 4.187 | 21,314,699 |
| 02 | Polder-33 | 1.454 | 8,616,598 |
| 03 | Polder-35/1 | 0.941 | 7,981,316 |
| 04 | Polder-35/3 | 1.04 | 2,078,530 |
| | Total = | 7.622 | 39,991,142 |

Total available budget as per contract: BDT: 40,000,000

Table 3-41: Summary of Emergency works under the head of "Physical & Price Contingency"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|---------|----------------|--------------|---------------------------|
| 01 | Polder-32 | 5.723 | 33,140,046 |
| 02 | Polder-33 | 1.671 | 13,399,272 |
| 03 | Polder-35/1 | 3.216 | 32,609,736 |
| 04 | Polder-35/3 | 2.919 | 8,887,288 |
| | Total = | 13.529 | 88,036,342 |

◆ Total available budget for Physical & Price Contingency as per contract is BDT: 300,000,000

3.5 Task C: Supervise Construction & Administer Contract of Package-2

3.5.1 Introduction

The MPR covers all major site activities executed in each of the six Polders up to 31st May, 2021. The Contract was signed on 8th March 2017 for the execution of Rehabilitation/Reconstruction and upgrading of six (6) Polders in total, namely Polder 39/2C, 40/2, 41/1, 43/2C, 47/2 and Polder 48 under CEIP-1 (Contract No: CEIP-1/W-02).

3.5.5 Plans for execution of works please replace the above figure by a new good one either by D/S or F/S

Program for Month of June, 2021

Polder 39/2C:

CC Block Manufacturing Yard1: (A) Nadmulla

No program

CC Block Manufacturing Yard2: (A2) Charkhali

• To manufacture monthly scheduled of 20,000 Nos. blocks (40x40x30 cm)

CC block manufacturing yard 3: (B) Telikhali

• To manufactured monthly schedule of 20,000 nos. (40x40x40 cm)

Other Construction Activities

- Construction of approach dyke of DS-8, 10, 11 & DS-12;
- Start the construction work of FS-13, 15 & DS-9;
- Start of dumping work & end termination work at Telekhali & Charkhali;
- To Progress the construction of embankment work;
- Speed up the manufacturing of CC blocks;
- To Progress the work of DS-2, 4, 6, 13 & FS-11;
- To close the river closure near DS-12.

Polder 40/2:

- Construction of approach dyke of FS-4/1, FS-9, FS-10, DS-4/5, DS-7A, DS-10;
- To continue the manufacture CC Blocks;
- To progress the re-sectioning work of embankment;
- To progress the slope protection work from Km 13.7450 to Km 13.960 & other location;
- To progress the construction work of DS-1, 8 & 9;
- To start the construction work of DS-7 & 10A;

Polder-41/1:

- To continue manufacturing of CC Blocks at Gulbunia & other sluices locations;
- Construction of approach dyke of DS-1, DS-5, DS-7, DS-8, DS-9, FS-1, FS-3 & FS-8.
- Construction of approach dyke & opening of diversion channel of DS-6, FS-9 & FS-15
- To progress the construction/re-sectioning work of embankment.
- To re-start the dumping work at Gulbunia site.

Polder 43/2C

- To engaged more equipment & manpower for the re-sectioning work of embankment;
- Complete the construction work of FS-1 (A), DS-1, DS-2, & DS-4;
- Construction of approach dyke in DS-3, DS-5, FS-8, FS-10.
- To progress the manufacturing of CC blocks for river bank protection work;
- To Progress the repair works of flushing sluices;
- To continue the dumping work of bank protection work.

Polder-47/2

- Bring the gates in operation in DS-1, DS-2, DS-3, DS-4, FS-1, FS-6 & FS-7 with opening of diversion channel.
- To progress the construction work of Retired Embankment.
- To progress and complete the River Bank Protection Works.

Polder-48:

- To increase the production rate of manufacturing CC Blocks.
- Make substantial progress with the slope protection work of sea dyke at Kuakata Beach.
- Install gates in DS-3/3, & placing of CC blocks in apron.

Roval

HaskoningDHV

Page 76 of 104

- Complete the repair work of Drainage Sluice DS-5 & DS-3/1.
- Make progress the re-sectioning works of embankment.

Other structures and embankment works are planned to be started very soon. Site activities on all structures will go through first, second, third fourth dry season. The majority of the sites works are scheduled during these four main dry seasons.

3.5.6 Construction of Regional Office Building at Patuakhali, Kalapara and Pathorghata,

Regional Office Building at Patuakhali: Contractor prepared a detailed design of the Regional Office Building at Patuakhali which was submitted to Project Director, CEIP-1, PMU, and was approved. Approved detailed design was sent to the contractor to start the building at Patuakhali. The contractor started the work on 17 April 2019 and building work is in progress. The overall progress is about 92%.

Vertical Extension of BWDB's Existing Office Building at Kalapara, Patuakhali: The Building has been completed and handed over to the competent authority.

Rest house Re-construction at Pathorghata, Barguna: Re-construction work of Rest House at Pathorghata has been dropped as per decision of the employer and the money saved will be used to construct the Office Building cum Rest House at Bhandaria, Pirojpur District. The variation order for the construction of the Office Building cum Rest House at Bhandaria is in process.

Boundary Wall at Pathorghata BWDB Colony: The boundary wall has been 100% completed.

Laboratory Building at Patuakhali: The building has been completed and handed over.

3.5.7 Emergency works in different Polders

The Summary as well as the details of the emergency works in different Polders are reflected in the following tables here below.

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) | | | |
|---------|----------------|--------------|---------------------------|--|--|--|
| 01 | Polder-39/2C | 0.177 | 1,666,992.00 | | | |
| 02 | Polder-40/2 | 0.35 | 2,795,174.46 | | | |
| 03 | Polder-41/1 | 0.0509 | 560,125.89 | | | |
| 04 | Polder-43/2C | 0 | 0.00 | | | |
| 05 | Polder-47/2 | 0.848 | 6,872,990.26 | | | |
| 06 | Polder-48 | 0 | 0.00 | | | |
| | Total = | 1.426 | 11,895,283 | | | |

Table 3-57: Summary of Emergency works under the head of "Environmental Mitigation Works"

Total available budget as per Contract is BDT: 12,000,000.00

Table 3-58: Summary of Emergency works under the head of "Physical & Price Contingency"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) | | |

3.5.8 Finance (Invoices) Contractor Package-2

IPC-01 of Contractor Package-2 concerned the first instalment of the 5% Advanced payment and was paid on 28 June 2017;

IPC-02 concerned the second instalment of the 5% Advanced payment which was recommended by the Engineer and was paid by the Employer on June 2018;

IPC-3 was recommended by the Engineer and paid by the Employer on 20 June 2018;

IPC-4 was submitted to the Employer on 29th October 2018 by the Engineer with recommendation for payment and paid by the Employer on 19 December 2018;

IPC-5 was submitted to the Engineer on 27 December 2019 and it was sent by the Engineer to the Employer on10 January 2019 with recommendation for payment and paid by the Employer on 30 January 2019;

IPC-6 was submitted to the Engineer on 28 February 2019 and the IPC was sent by the Engineer to the Employer on 14 March 2019 with recommendation for payment and paid by the Employer on 28 March 2019;

IPC-7 was submitted to the Engineer on 28 April 2019 and the IPC was sent by the Engineer to the Employer on 05 May 2019 with recommendation for payment and paid by the Employer on 22 May 2019;

IPC-8 was submitted to the Engineer on 25 June 2019 and the IPC was sent by the Engineer to the Employer on 27 June 2019 with recommendation for payment and paid by the Employer on 27 June 2019;

IPC-9 was submitted to the Engineer on 29 June 2019 and the IPC was sent by the Engineer to the Employer on 30 June 2019 with recommendation for payment and paid by the Employer on 30 June 2019;

IPC-10 was submitted to the Engineer on 22 October 2019 and the IPC was sent by the Engineer to the Employer on 05 November 2019 with recommendation for payment and paid by the Employer on 22 December 2019;

IPC-11 was submitted to the Engineer on 04 February 2020 and the IPC was sent by the Engineer to the Employer on 06 February 2020 with recommendation for payment and paid by the Employer on 19 February 2020;

IPC-12 was submitted to the Engineer on 04 March 2020 and the IPC was sent by the Engineer to the Employer on 07 March 2020 with recommendation for payment and paid by the Employer on 24 March 2020;

IPC-13 was submitted to the Engineer on 25 April 2020 and the IPC was sent by the Engineer to the Employer on 18 May 2020 with recommendation for payment;

IPC-14 was submitted to the Engineer on 28 June 2020 and the IPC was sent by the Engineer to the Employer on 30 June, 2020 with recommendation for payment and paid by the Employer on 30 June, 2020.

IPC-15 was submitted to the Engineer on 14 March, 2021 and the IPC was sent by the Engineer to the Employer on 22 March, 2021 with recommendation for payment.

IPC-16 was submitted to the Engineer on 22 May, 2021 and the IPC was sent by the Engineer to the Employer on 24 May, 2021 with recommendation for payment.

3.5.9 Contract Modifications

The variation order for the construction of the Office Building cum Rest House at Bhandaria has been prepared following the instructions of the Project Director and submitted to PMU vide Engineer's Ref. No. RDCOR_BC5883-100_L002586_JHL_MAR dated; 28th May, 2020. The Engineer has not yet received any instruction in this respect from the Project Director, CEIP-1.

The Contractor was requested to submit an Updated Revised Work Program considering the Completion date of the Contract is 30th June, 2022 receiving a verbal consent from the Competent Authority. Accordingly, the Contractor submitted an Updated Revised Work Program and that was reviewed by the Engineer and submitted to the PMU vide Consultant's letter No. RDCOR_BC5883-100_L002900 _JHL_MAR dated: 20th January, 2021.The Contractor submitted the S-curve based on the Revised Updated Work Program and that has been reviewed by the Consultants and incorporated in the Monthly Progress Report of May, 2021.

• The Contractor submitted a Claim for Extension of Time and the Claim was evaluated by the Engineer and the Claim evaluation report was submitted to PMU vide Engineer's Ref. No. RDCOR_BC5883-100_L002759_JHL_MAR dated; 25th October, 2020. The submitted evaluation report was reviewed by the PMU and provided some observations on the report. Accordingly, the report was corrected and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002844_JHL_MAR dated: 27th December, 2020. The Employer informed that the notice for formal Extension of Time could not be issued till the validity period of Performance Security is extended. Accordingly, the Contractor has been requested to extend the validity period of Performance Certificate up to 28th July, 2023. The Contractor has extended the validity period of Performance Certificate up to 28th July, 2023 and submitted to the Engineer's office which has been submitted to the PMU vide Engineer's ref.no. RDCOR_BC5883-100_L003057 dated: 15th April, 2021.

3.5.10 Tentative Forecast of Payment of Package-W-2:

| IPC No. | Month of Submission | Forecast Value of IPC in BDT | Remark |
|-----------|------------------------|---------------------------------|---|
| IPC No.15 | March, 2021 | 191,962,165.00 | IPC No. 15 has been submitted by the Contractor with a value of BDT 191,962,165.12 and the IPC has been sent by the Engineer to the Employer on 22 March, 2021 with recommendation for payment. |
| IPC No.16 | May, 2021 | 551,538,260.00 | IPC No. 16 has been submitted by the Contractor with a value of BDT 503,029,978.33 and the IPC has been sent by the Engineer to the Employer on 24 May, 2021 with recommendation for payment. |
| IPC No.17 | June, 2021 | 827,307,390.00 | |
| | Total= | 1,570,807,815.00 | |

Table 3-61: Revised Tentative forecast of Payment for FY 2020-21 of Package-2

3.6 Task D: Project Management Support Services

3.6.1 Financial Projection

Disbursements of funds for IPCs are well-known and the planned future disbursements depend on the work plan works scheduling. IPC is submitted when the monetary value of the works done over a new period reaches a threshold value (percentage of the contract value). In general, during a good construction season, each IPC amount of every month to be minimum US\$ 16.30 Million and US\$ 5.57 Million for Package-1 & Package-2 respectively considering the completion date up to June, 2021 for Package-1 and June, 2022 for Package-2. The Contractor of Package-1 has submitted IPC No.24 and the Contractor of Package-2 has submitted IPC No. 16 in the month of May, 2021. The next IPCs are, however, expected by June, 2021 for both the Packages.

3.6.2 Modification of Consultancy Contract

The Modified Contract No.03 of DDCS & PMS Consultants has been signed by the Project Director and the Consultants on 15th December, 2019. Addendum No. 1 of DDCS & PMS Consultancy Services has been submitted to PMU vide Engineer's Ref. No. RDCOR_BC5883-100_L002743_JHL_AAM dated; 12th October, 2020. The approval of the Addendum No. 1 is in process. However, the Employer has approved the Extension of Time (EOT) for the Consultancy Services for "Detail Design, Construction Supervision and Project Management Support" Contract No. CEIP-1/B2, B3 & C1/S-2 up to June 30, 2022 with the condition that no claim will be acceptable due to this Extension of Time which is communicated to the Team Leader of the Consultants by the Project Director vide Memo No. CEIP-1/S-21/130 dated: 28th January, 2021.

CEIP-1 Progress Report No. 73 – May 2021 Page 89 of 104

Annex 2: Labour Influx Report

Initial information on labour influx risks, requirements and implication for work package W-01 under CEIP-1

| | | 1. PROJECT DATA |
|-----|--|---|
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (P128276) |
| 1.2 | Contract Package | Package-1 |
| 1.3 | Date of Commencement | January 2016 |
| 1.4 | Date of Completion | June 2021 |
| 1.5 | Location | Polder-32 and Polder-33 under Khulna district; & Polder-35/1; Polder-35/3 under Bagerhat District |
| 1.6 | Name and Contact Information (email/phone) of Contractor | CHWE, mainland China |
| 1.7 | Name and Contact Information (email/phone) of all sub- Contractors | Project Manager Mr. Sun Huaxin; No sub-contractors; about 56 Chinese and skilled workers influx; 01 Indian worker; local labour and foremen about 610 persons; |
| 1.8 | Type of Works (single site, linear, clustered and construction duration) | Civil engineering/hydraulic works: earthen embankment; water control sluices; river bank protection works; embankment slope protection works; closure dam; offices and site buildings; excavation of sediment internal channels (khals); social re-afforestation; single and localized sites, stand-alone site for construction of one structure or one stretch of embankment etc; These are the standard engineering interventions in a typical coastal polder in Bangladesh, since 'time immemorial'; no rocket science; a lot of manual labour work activities, for men and women both; |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|--|--|
| 2.1 | Will the project potentially involve an influx of migrant workers? If yes, are there also foreign labourers mobilized on site? | construction sites; foreign labourers yes, Chinese & Indian, around 56 persons including middle technicians and Master of Science level engineers; |
| 2.2 | Is the influx of non-local workforce significant for the local community? | Not significant because there are many stand-alone construction sites and the number of Chinese/foreign workers per stand-alone site is about 3 to 5 Chinese men; this is not disruptive for the social cohesion of the local site; local stand-alone construction sites are mostly far away from community centres (rural setting, remote sites; sluices are not located inside a community); In the camp site, there have a separate place for their living, dining. Also police from local Thana/authority provide the security for the safety of Chinese workers. There have two or three local translator; if any problem arises they will arrange communication with local people. Even now there is no complain from local people, mentioned that in camp site also have a register to note down to take proper action within appropriate time. |

Page 90 of 104

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|--|---|
| | | At least certain percentage of local people would have been mobilized in civil work that would be beneficial for the local people. |
| 2.3 | What are the opportunities for local laborers? | Of course there were opportunities for local worker in civil work. Local residents are poor people with virtually no mobility or transport facilities and are employed in agriculture, aquaculture and civil construction works such as road, buildings etc. in 'urban' areas, mostly intermittent job contracts. There is some small business such as small shops, chicken and duck breeding/farm, aquaculture, and motorbike repair workshops etc which do not employ many people; e.g. Polder-35/1 is located 100 km away from the city of Khulna, hence not much influx from Khulna to Polder-35/1; due to few numbers of small rudimentary road tracks, there is hardly any economic traffic to the 4 Polders; one needs to cross many rivers with (small) ferries; labour market is non-existent for local laborers; Recently for polder-32, 206 local workers engaged for construction workers; P-33, 80 local workers; P-35/1, 207 local workers; P-35/3, 70 local workers. There are no women because, for heavy civil work women are not suitable. By negotiating we fixed the salary, so there is no unsatisfactory and no complain. |
| 2.4 | Frequency of outsider's visit | Chinese labourers are generally permanently stationed and working; they live together inside a fenced compound, with professional security guards; Non-local labours are regular, but they have the seasonal vacation during rainy season. |
| 2.5 | Environmental sensitivity of the project site | |
| 2.6 | Community experience with similar projects? | Much community experience yes as all 139 coastal polders were built back in the 1970s and 1980s and had undergone many subsequent small and big interventions, emergency works, repair and recovery after huge flood disaster events etc.; local labourers are fully familiar with similar types of civil engineering works; And also familiar with the similar movement of non-local labour because in coast region in different time different improvement work have done throughout the specific period. |

| | 3. | SOCIO-ECONOMIC CONSIDERATIONS |
|-----|--|-------------------------------|
| 3.1 | How similar are local and migrant labour backgrounds? (cultural, religious and demographic considerations) | |

Royal HaskoningDHV Enhancing Society Together Leading Today for Tomerrow

| | | Group means not like two separate parts. Both local and non-local workers are working as a part of the project as like a team work. |
|-----|---|---|
| 3.2 | Are there increased competitions for resources (e.g. accommodation, water, food, fuel) with the local | Absolutely not; |
| | community? | |
| 3.3 | Given local community characteristics any specific | No adverse impact is anticipated at the moment; |
| | adverse impacts anticipated? | |

| | 4. LOCAL CO | MMUNITY (Please provide Pol | der wise description of Facil | ities) | | |
|-----|--|---|--------------------------------|---|--|--|
| 4.1 | Size of Local Population | Bangladesh is highly densely populated country but the project area has lesser density. It is found from the RAP document that inside the Polder-32, 33, 35/1 and 35/3 the total population amounts to 38397, 62305, 99182 and 33075 respectively. | | | | |
| 4.2 | Working age population and capacity (education, skills, experience) | The labour force (age between 15 and 59 year), the actual number of people available for work is 61%. The labour force includes both the employed and the unemployed. According to BBS, 30% of the people fall in the age group 1-15 year. The literacy rate in the project area roams around 58% whereas the national figure is 51.8%. The livelihood of 66.1% of people depends on agriculture activities; | | | | |
| 4.3 | Working age population capacity | <i>Education</i> No information is available | <i>Skill</i> No information | Experience No information | | |
| 4.4 | Local capacity for infrastructure, services, utilities, health (please provide a short brief) | Inside the 4 Polders, both earthen and pucca roads are available and there are waterways also. There are academic institution, market, religious institution, local government offices, providing necessary public services to the local people. Motor bikes play important role to communicate in project areas. Auto rickshaw is main transportation vehicle; No there is no impact of these facility due to the inflow of chines people. | | | | |
| 4.5 | Availability of accommodation, food, water (please provide a short brief) | Contractor provides adequ workers; | | and food, protective sheds etc to their | | |
| 4.6 | Are there any security considerations? | Not from the local governments; Contractor is now paying for the security force mainly in work site cum residential sites. | | | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic, indigenous- communities? | Some marginalized and vul but there are no ethnic and | | oject side like other places of the country | | |

| | 5. MAINTENANCE OF OTHER LABOR RECORDS | | | | | |
|-----|--|--|--|--|--|--|
| 5.1 | s a copy of photo ID of each labourer kept Yes. NID for local workers and visa copy for chinese workers; no sub-contractors; | | | | | |
| | with the Contractor/ Sub-contractor? | | | | | |
| 5.2 | Is contact information of labour's next-of-kin | Yes. Family members are mostly close-by. Chinese contractor recruits mainly from the locality; | | | | |
| | kept for each labourer? | | | | | |

Royal HaskoningDHV Enhancing Society Together Leading Today for Tomerrow

6. LABOR PROFILE (Please provide Polder wise information)

This data is to be collected for each Polder where civil works has commenced, and cover the regular labour, temporary labour, labour hired through subcontractors or labour contractors / groups.

| 6.1 | Number of laborers by sex | Male | | Femal | Total | | |
|----------------------------------|-----------------------------|---------------------|--------------------------------|--------------|---------------|----------|-------|
| | | 252 | | 2 | 254 | | |
| 6.2 | Number of laborers by skill | Skilled | Semi-skil | Semi-skilled | | nskilled | Total |
| | | 184 | 58 | | 12 | | 254 |
| 6.3 Number of laborers by origin | | Local (same or | Local (same or Other districts | | Other Country | | Total |
| | | adjoining district) | | | | | 254 |
| | | 203 | 28 | | 23 | | |
| 6.4 | Number of laborers by age | 18-2 | 25 | 25-50 | | Above 50 | Total |
| | | 118 | 3 | 124 | | 12 | 254 |
| 6.5 | Source of labour | Contractor | Subcontractor | Indepe | endent | Other | Total |
| | | 254 | 0 | 0 | | 0 | 254 |

| | 7. FACILITIES (Please provide Polder wise description of Facilities) | | | | | | |
|------|---|-------------------|--|--------------------------|--|--|--|
| 7.1 | Details of labour camps | Number | Permanent/Temp. | Location | Distance from nearest village/habitation | | |
| | | 2 | Permanent | Every CC blocks | Almost within 100m | | |
| | | 4 | Temporary | yard and every work site | | | |
| 7.2 | Type of housing in labour camp on leased land (temporary shelters / kuchha /pukka) | Work site have te | mporary shelter but cc | block yard has puk | ka house | | |
| 7.3 | Is there any housing on public land like No. Only housing exist inside the constructional premises. roadsides, open fields and other spaces? | | | | | | |
| 7.4 | Is there any housing in rented accommodation Yes, for the Chinese and Bangladeshi senior staff. Contractor rents the buildings themselves in residential areas? If so, who is it rented by? | | | | or rents the buildings themselves | | |
| 7.5 | How many laborers have families on/near worksite? | | ers do not live with the local worker mostly | | ne their family member visit here for ily | | |
| 7.6 | Likelihood of family members accompanying (visiting) | | he project side. Labour | | mes close by; daily transport is done | | |
| 7.7 | Is drinking water available on site and at the campsite? | Yes | | | | | |
| 7.8 | Are latrines and urinals provided on site and at the campsite? | Yes | | | | | |
| 7.9 | Are First Aid facilities provided on site? | Yes | | | | | |
| 7.10 | Does a doctor visit the worksite / campsite | Yes | | | | | |

Page 93 of 104

| | regularly? | |
|------|--|--|
| 7.11 | Is there a tie-up with a hospital or dispensary near the worksite / campsite | Yes |
| 7.12 | Is there a facility for cooking / canteen facility for all labour? | Yes |
| 7.13 | Are leisure activities / facilities available for all labour | Yes |
| 7.14 | Is transport to and from the worksite provided to labour? | Yes, for migrant labourer but no provision for unskilled local labourer. |

| | | 8. SUPERVISION BY LABOR OFFICIALS |
|-----|--|--|
| 8.1 | Has the worksite / campsite been inspected by a labour official? | In 20-22 November, 2017 and 04-06 February, 2018 WB team visited the work area of CEIP-1, |
| 8.2 | How many times has the worksite / campsite been inspected by a labour official since commencement of work? | Six times since commencement from WB. From the part of PMU and BEDB, visited the woks site frequently, as per the need basis. |
| 8.3 | What documents were inspected by labour officials? | Accident /injury register, salary sheet/record |
| 8.4 | What documents were maintained and which ones were not? | Safety training record, accident register, safety guideline document, compliance register, GRM system notice. Nothing missing, if anything required please give us the valuables suggestion. We will ensure it in work site. |
| 8.5 | What directions were given by labour officials? | About personal health and safety |
| 8.6 | What is the mode of compliance with such directions? | Action taken in field level as soon as possible |
| 8.7 | Are you facing any legal proceedings on labour issues in Labour Court/ Other? | None; |

| | 9. ACCIDENTS, EMERGENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) | | | | | |
|-----|--|---|--|--|--|--|
| 9.1 | What is the nature of accidents / emergencies No accident so far has been taken place | | | | | |
| | usually occurring at a worksite like yours? | | | | | |
| 9.2 | Is a functioning First Aid available at the | Yes | | | | |
| | campsite / worksite? | | | | | |
| 9.3 | Is functioning fire-fighting equipment available | Yes | | | | |
| | at the campsite / worksite? | | | | | |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Within some kilometres, alert by mobile phone of which the number is known to all Chinese | | | | |
| | | people (Chinese medical doctor available); doctor covers the four Polders | | | | |
| 9.5 | Which is the nearest hospital? | The nearest hospital is situated at Upazila head quarter. But there some clinic or satellite clinic | | | | |

Page 94 of 104

CEIP-1

| | 9. ACCIDENTS, EMERGE | NCIES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|------|---|---|
| | | inside the polder. If any worker required critical services then he/she refer to Khulna or Dhaka. The contractor have own car for every camp site and CC block manufacturing site to transport he/she to Khulna or Dhaka. |
| 9.6 | Which is the nearest Police Station? | In any Polder, there is Police office close-by, within 10 km range. On the other hand, a team of 2-3 nos. police available in work camp site and cc block manufacturing site cum residential site. If required they will help us. But even no situations arise to do this. |
| 9.7 | Are details of nearest doctor / clinic / dispensary / hospital / Police station available and prominently displayed at worksite / campsite? | Yes |
| 9.8 | What is the system of informing next of kin? | For the migrant worker, there is focal person to deal with the issue. The contact numbers of all workers are well documented. For the local worker, the system is same. Bengali senior staff employed by the Chinese contractor. |
| 9.9 | What is your familiarity with accident reporting procedures? | Chinese Contractor holds regular drills on procedures and protocols to enact in case of accidents |
| 9.10 | What is your familiarity with police reporting procedures? | We are well familiar to local police reporting system and we have their contact number and relation. So far, no such incident whereby Police is to be called upon. It is worthy to mention that Contractor site camps are secured by police protection permanently. |
| 9.11 | Is there any mechanism to address the work place Sexual Harassment of Women at the project sites? | Yes (sanctions are known to Chinese workers and their bosses). Mechanism is there. We have gender policy. There is complaint system to mitigate sexual harassment. Finally, legal step can be applied where necessary; |

Initial information on labour influx risks, requirements and implication for work package W-02 under CEIP-1

| | 10. PROJECT DATA | | | | |

| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (CEIP-1) | | | |
| 1.2 | Contract Package | Package-2 | | | |
| 1.3 | Date of Commencement | 12 th July, 2017 | | | |
| 1.4 | Date of Completion | 30 th June, 2022 | | | |
| 1.5 | Location | Polder-39/2C, Polder-40/2, Polder-41/1, Polder-43/2C, Polder-47/2 & Polder-48 | | | |
| 1.6 | Name and Contact Information | Chongqing International Construction Corporation | | | |
| | (email/phone) of Contractor | cicobangladesh@gmail.com/+8801917264485 | | | |
| 1.7 | Name and Contact Information | None | | | |
| | (email/phone) of all sub-Contractors | | | | |
| 1.8 | Type of Works (single site, linear, | | | | |
| | clustered and construction duration) | 2. Excavation and re-excavation of drainage channels in the Polders with a total length of about 188km; | | | |
| | | 3. Construction of 50 drainage sluices; | | | |
| | | 4. Repairing of 6 drainage sluices; | | | |
| | | 5. Construction of 73 flushing sluices; | | | |
| | | 6. Repairing of 8 flushing sluices; | | | |
| | | 7. Construction of embankment slope protection works with a total length of some 9.5km; | | | |
| | | 8. Construction of river bank protection works with a total length of 5.40 km; | | | |
| | | 9. Construction of 8 Khal Closing Closures with varying widths between 35m to 60m; | | | |
| | | 10. Dismantling of 36 drainage sluices, 70 flushing sluices and road pavement for about 50 km; | | | |
| | | 11. Construction of RCC Flood wall with a length of about 17km; | | | |
| | | 12. Construction of Road Pavement with a length of about 51km. | | | |
| | | Construction duration: 42 months | | | |

| | 11. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS | | | | | |
|-----|---|---|--|--|--|--|
| 2.1 | Will the project potentially involves an influx of migrant workers? If yes, are there also foreign laborers mobilized on site? | Yes, scattering all over the construction sites. There are no foreign labours mobilized onsite. | | | | |
| 2.2 | Is the influx of non-local workforce significant for the local community? | Yes, these benefits are typically related to economic opportunities through employment and/or training by the project, or through selling goods and services. Other benefits include the provision of local infrastructure (e.g., access roads, power or water connection) which is developed for the project and which serves the community beyond the project duration. | | | | |
| 2.3 | What are the opportunities for local laborers? | It will bring more employment opportunities to the local labours. It will improve the education status because of workers' training. | | | | |
| 2.4 | Frequency of outsider's visit | Normal | | | | |
| 2.5 | Environmental sensitivity of the project site | Fuel supply for cooking and heating, fuel storage area, by-pass road construction, sanitation, water supply and construction work. | | | | |

Page 96 of 104

| 8.7 | Are you facing any legal proceedings on labour issues in | No |
| | Labour Court/ Other? | |

| | 18. ACCIDENTS, EN | IERGENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|------|---|--|
| 9.1 | What is the nature of accidents / emergencies usually occurring at a worksite like yours? | Drowning, Injury from machine |
| 9.2 | Is a functioning First Aid available at the campsite / worksite? | Yes |
| 9.3 | Is functioning fire-fighting equipment available at the campsite / worksite? | Yes |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Polder-39/2C: Digital X-ray Clinic, 5 minutes by car away from the campsite, 01717-997-914, Kamrunnasar Polder-41/1: DR.Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic-sharif x-ray clinic, Dispensary mouir medical hall. Polder-47/2: 1 km from our working site to the nearest dispensary Polder-48: 100 m from our temporary camps to the nearest dispensary but the doctor and clinic are 1 km away. |
| 9.5 | Which is the nearest hospital? | Polder-39/2C: Upazila Health Complex, 5 minutes by car away from the campsite, 01735-950-462, Fakrel Islam. Polder-41/1: Barguna sader hospital Polder-47/2: 10 km from our working site to the nearest hospital. Polder-48: the nearest hospital is 3 km towards the seaside. |
| 9.6 | Which is the nearest Police Station? | Polder-39/2C: Bhandaria Police station, 5 minutes by car away from the campsite, 01713-374-337, Kamruzzaman. Polder-41/1: Barguna sader police station. Polder-47/2: 8 km from our working site to the nearest police station. Polder-48: the nearest police station is 3 km approximately around the third bridge. |
| 9.7 | Are details of nearest doctor / clinic / dispensary / hospital / Police station available and prominently displayed at worksite / campsite? | Polder-39/2C: Yes, such information shall be printed on paper and displayed at the site office. Polder-41/1: DR.Abudus salam M.B.B.S Ex-medical officer of Barguna general hospital, clinic-sharif x-ray clinic, Disppensary mouir medical hall, Barguna sader hospital, Barguna sader police station, above mentioned details information is true and they are able to respond within short period and mentioned location is very nearest to our worksite. Polder-47/2: Yes. Such, information shall be printed on paper and displayed at the site office. Polder-48: Yes, such information shall be printed on paper and displayed at the site office. |
| 9.8 | What is the system of informing next of kin? | A phone number chat including all the Chinese people has been distributed to all working site/ campsite, anything happening at site will be reported immediately to the person who is in charge of corresponding issue. |
| 9.9 | What is your familiarity with accident reporting procedures? | For any accident happened at site, the foreman shall report to the site office and site manager immediately, and site office shall write on the accident log book for records. Then site office shall report to the corresponded local government office. |
| 9.10 | What is your familiarity with police reporting procedures? | So far, no such incident whereby Police is to be called upon. The Contractor camps are secured by police. |
| 9.11 | Is there any mechanism to address the work place Sexual Harassment of Women at the project sites? | No, because all male workers at the project working at sites and the working place for female staff are limited in the camp and office. |
