Executive Summary 1.

1.1 **General**

This Monthly Progress Report (MPR) is over the month of June 2021. The Executive Summary Chapter will highlight the various developments and issues at stake in a qualitative manner whereas the remaining Chapters will provide more quantitative information and details on the activities and progress of the month of June 2021.

The Executive Summary will first focus on the implementation of the 2 (two) Construction Contracts for Package W/01 and Package W/02. In this section, the Consultants activities are also addressed. Activities and issues of a more general nature will be addressed thereafter.

Implementation of Works under Package W/01 and Package W/02 1.2

In the current phases of the CEIP-1 Project, Consultant's focus is on the progress of the construction of Civil Works for Package W/01 and Package W/02. Other Consultant's tasks are summarised separately in this Chapter. Compared to previous months, poor progress is achieved during June, 2021 due to early start of rain. The progress was hampered in previous months due to insufficient Contractor's field staff which was caused by visa applications which became stricter as imposed by the Bangladesh Embassy in Beijing and as such hampered the travelling of Chinese Staff to Bangladesh. Also, the impact of the pandemic of Corona Virus was not positively contributing to the progress of the Works, rather the impact of the pandemic of Corona Virus has been aggravated from the last week of March 2021 together with associated lock-down for a longer time in Bangladesh.

1.2.1 Package W/01 implementation

The key issues for the month of June, 2021 regarding Package-1 are summarised below as follows:

- The physical progress up to June 2021 is 95.69% against the revised target of 100%. The Revised Work Program was finalized based on the extension of time of the Contract up to 30th June, 2021 by the Employer. They started the works during this dry season from mid-December, 2020. The progress of the works in this month is achieved 3.78% and it is mainly due to calculate the progress based on the actual required quantity of CC Blocks in related BoQ items of works. The physical works could not be executed as per program in this month due to rain in most of the day and the progress is also hampered to a great extent due to the pandemic of Corona Virus. The overall progress up to June, 2021 is lagging by 4.31% in respect of the revised target. Delays are also caused by cash flow issues of the Contractor and unwillingness to increase staff and equipment.
- In addition to the aforementioned issues, the Contract was initially extended up to 30th June, 2020 but due to, amongst others, mismanagement of the Contractor and the pandemic of Corona Virus the Contractor could not complete all the works within the extended time. The Contractor submitted a Claim for Extension of Time with detailed report and supporting documents. After detailed assessment, the Employer approved the Extension of Time for execution of the works of this Contract up to 30th June, 2021 vide Memo No. CEIP-1/W-01/534 dated 30th June, 2020 with the condition that no claim will be acceptable due to this Extension of Time;
- The Contractor has completed 38 nos. Drainage Sluices and 29 nos. Flushing Sluices up to June, 2021 and has been working together with the Engineer on the handing over procedures. As per assessment of the Engineer, the Works of Polder 33 and 35/3 have been substantially completed and accordingly, Taking-Over Certificates for Polder 33 and 35/3 have been issued as per GCC Sub-Clause 10.1 (a) and 11.1.

Progress Report No. 74 - June 2021

HaskoningDHV

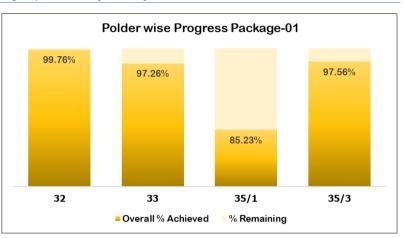

Figure 1-1: Polder Wise Progress of Package-1

- As per requirement of the World Bank Mission during 22nd February, 2021 to 8th March, 2021 on the environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist;
- In the Contract, there was a provision for repairing works of 30 nos. Flushing Sluices out of which 16 nos. have been dropped (for falling the structures outside the alignment of retired embankment or not repairable). Out of the remaining 14 nos. of repairing of Flushing Sluices 14 nos. have already been completed. There was a provision for repairing works of 2 nos. Drainage Sluices which were already been completed.
 - The Engineer requested the Contractor to implement Additional Bank Protection works which are urgently needed to safeguard the embankments of Polder-32 against riverbank erosion. The Engineer has provided the terms and conditions as per Works Contract and accordingly, the Contractor has submitted a draft Variation Proposal including Bill of Quantities. Contractor and Engineer had various meetings and negotiated a cost estimate and submitted to PMU vide letter no. RDCOR_BC5883-100_L02825_JHL_AAM dated 15th December, 2020 soliciting the permission to finalise a draft Variation Order based on the negotiated cost for the interest of the Project. Employer reviewed the cost estimate and provided some observations and requested for further negotiation based on the observations. As per advice of the Employer the Engineer further negotiated with the Contractor as per observations of the Employer and negotiated a cost estimate and submitted to the PMU vide letter no. RDCOR_BC5883-100_L02901_JHL_MAR dated 20th January, 2021 soliciting the permission to prepare a draft Variation Order based on the negotiated cost for the interest of the Project. Due to delay in the latter process the Engineer proposed a phased implementation of these Works, considering first implementing "precautionary" Emergency works like dumping of geo-bags which will be thereafter integrated with the permanent Works consisting of `amongst others, CC blocks dumping. According to this proposal the Project Director CEIP-1 accompanying Team Leader and Deputy Team Leader of DDCS & PMS Consultants, inspected the vulnerable locations of Polder 32 on 10th March, 2021 and after threadbare discussion in a meeting held on 10th March 2021 at Khulna, the Project Director, CEIP-1 gave the decision to take necessary measures to combat the ongoing erosion of the vulnerable locations immediately through Precautionary Emergency Works by dumping 250 kg Geo-bags as per design and drawings. It was also decided in the meeting that the existing working Contractor is to be engaged to execute this Precautionary Emergency Riverbank Protection Works. Accordingly, the existing working Contractor was instructed to do the bathymetric surveys of the identified vulnerable locations and provide the site plan & design data of each location. The Contractor has supplied the site plan and design data of all identified vulnerable

Report No. 74 - June 2021 Royal HaskoningDHV

Dev Con Leading Today For Tomerrow

locations. The draft design and drawings have been prepared by the DDCS & PMS Consultants based on the supplied site plan and design data. The draft design and drawings with the detailed estimates have been submitted to the Project Director for further action from his kind end. Subsequently the Engineer has sent the draft design and drawings with the detailed estimates to the Contractor with request to take action based on the draft design and drawings to protect the breaching of the embankment and ultimately to save the properties and lives of the people living in the Polder. The Contractor has started the Precautionary Emergency Works based on the instruction of the Project Director, CEIP-1 and Engineer through several digital meeting though the approval of the designs and estimates are yet pending to the competent authority. The approval of the design and estimates are urgently required to issue the work orders to the Contractor. The progress of precautionary emergency works is very slow due to unwillingness of the Contractor undertaking these Works. As said, detailed designs are yet to be approved by the Competent Authorities. Later on, the Project Director informed vide memo no. CEIP-1/W-01/647 dated: 7th June 2021 in response to Engineer's reference no. RDCOR_BC5883-100_L02901 dated: 20th January 2021 that they don't agree to the proposition of the Engineer to provide new rates for the items that are included in the BoQ and suggested that the rates of those items should be valued pursuant to GCC Sub-Clause 12.3. The Project Director also advised to take up the matter again with the Contractor and finalize the issue following Contract Conditions. The Engineer has held several meetings and several correspondences with the Contractor to negotiate as per advice of the Project Director but the Contractor has informed vide their ref.no. CHWE/CEIP-1/EN/0486 dated: 28th June 2021 that they are not in a position to lower the cost than the already mutually agreed cost estimate on 20th January 2021. The latest updated information regarding Additional Bank Protection works of Polder-32 have been conveyed to the Project Director vide Engineer's reference no. RDCOR BC5883-100 L003224 dated: 3rd July 2021.

The Consultant will prepare a risk assessment of possible delays which could occur and would require a possible extension beyond June 2021. The latter have been assessed and found that it will not be possible to complete the works of Polders 32 and 35/1 within 30th June, 2021 the date of completion of Contract. However, the Contractor assessed their outstanding works and submit a Notice of Extension of Time for outstanding works vide their ref. no. CHWE/CEIP-1/EN/0472 dated: 2nd June 2021 and subsequently they submitted a Notice of Intention to Claim vide ref.no. CHWE/CEIP-1/EN/0484 dated: 15th June 2021. Later on, the Engineer recommended to the Employer vide Engineer's reference no. RDCOR_BC5883-100_L003207 dated: 29th June 2021 to consider the Notice of Extension of Time and to grant the Contractor a conditional Extension of Time for 9 months with zero cost implications. Based on the recommendation of the Engineer, the Employer requested the World Bank memo no. CEIP-1/W-01/869 dated: 29th June 2021 to review the issue of Extension of Time and provide concurrence to the conditional Extension of Time for 9 months with zero cost implications. The World Bank has given NoL to conditional time extension of works package W-01 (with zero cost implication) up to March 31,2022 (9 months) vide email dated: 6th July 2021. The Contractor is in the process of submitting a detailed claim for Extension of Time

1.2.2 Package W/02 implementation

The key issues for the month of June, 2021 regarding Package-2 are summarised below as follows:

The physical progress up to June, 2021 is 65.40% against the updated revised target of 73.94%. The Updated Revised Work Program has been finalized based on the assurance of the Competent Authority that the completion date of this Contract will be extended up to 30th June, 2022 and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-

Progress Report No. 74 - June 2021

HaskoningDHV

- 100_L002900_JHL_MAR dated: 20th January, 2021. The overall progress is lagging by 8.53% compared to the updated revised target.
- Due to 'amongst others' land acquisition problems in some Polders and the pandemic of Corona Virus, it was not being possible by the Contractor to complete all the works of this Contract within the original Contract period. Based on this, the Contractor submitted a Claim for Extension of Time with a detailed report and supporting documents. It is noted that mismanagement on the chain of commands within the team of the Contractor also caused delays and hence land acquisition problems are not the only reason for the delays. The Claim for Extension of Time was evaluated by the Engineer and submitted the evaluation report to the PMU vide Engineer's letter no. RDCOR BC5883-100 L002759 JHL MAR dated: 25th October, 2020. The submitted evaluation report was reviewed by the PMU and provided some observations on the report. Accordingly, the report has been revised and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002844_JHL_MAR dated: 27th December, 2020. The Employer informed that the notice for formal Extension of Time could not be issued till the validity period of Performance Security is extended. Accordingly, the Contractor was requested to extend the validity period of Performance Security up to 28th July, 2023. The Contractor has extended the validity period of Performance Certificate up to 28th July, 2023 and submitted to the Engineer's office which has been submitted to the PMU vide Engineer's ref.no. RDCOR BC5883-100 L003057 dated: 15th April, 2021. However, the Extension of Time (EoT) for Contract No. CEIP-1/W-02 has been approved by the competent authority up to June 30, 2022 which is informed by the Project Director vide memo no. CEIP-1/W-02/695 dated: 14th June, 2021.
- As per requirement of the World Bank Mission of 22nd February,2021 to 8th March, 2021 on the environmental aspects of the CEIP-1 Project, the Contractor is undertaking various steps required for improving the EHS issues through the training and motivation of Environment Specialists of the Project in the light as desired by the World Bank's Environmental Specialist;

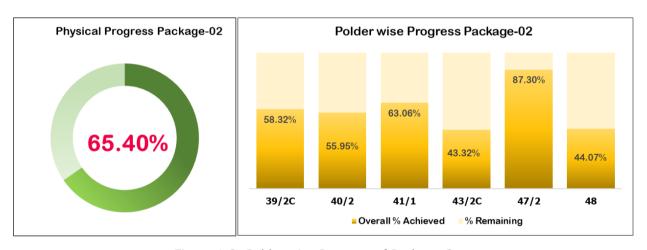

Figure 1-2: Polder wise Progress of Package-2

• The month was not at all favourable for construction works. Though most of the proposed Chinese Staffs of the Contractor has returned back to Bangladesh by this time but they could not yet achieve the targeted progress of works as per the latest revised Work Program due to their poor planning and management and cash flow problem and on the other hand due to the pandemic of Corona Virus the progress of works is affecting. The Engineer and the Employer are providing all types of possible supports so that they can pick up the works up to the satisfactory scale. At the same time, the Engineer is advising the Contractor to revise the plan of activities so that they can cope up the lagging target of the progress and engage

Report No. 74 - June 2021
Royal
HaskoningDHV

IWM

Bangladeshi Staffs where possible to cope up with the absence of Chinese Staff. The Contractor has submitted a revised work plan which is under review by the Consultants;

The Consultant prepared a risk assessment of possible delays which could occur and would require a possible extension beyond June 2022. The latter will be further assessed when actual progress made in the month of December, 2021 is available.

1.3 Other tasks of Consultants

The key issues for the month of June, 2021 regarding the other tasks of Consultants are summarised below:

- 1. As per latest development, the review of the Polder 14/1 has been carried out as per World Bank comments and has been submitted to PMU. Similarly, the EIA reports of the remaining 6 (six) Polders (Polder-15,16,17/1,17/2,23 and 34/3) have already been reviewed in accordance with the EIA reports of Polder-14/1 incorporating the comments of the World Bank and submitted to the PMU for onward transmission to the World Bank;
- 2. Activities also involved the development of a Web based system for tracking of land acquisition, GRM and various video call meetings were conducted to this end with World Bank and the Project Director; this task is nearly completed and awaiting the finalisation of the user acceptance test (UAT). To speed up this process, a dedicated server can be purchased or alternatively a cloud-based server can be utilised.
- 3. Consultants, in consultation with the Project Director have prepared a draft Addendum of Contract for the Consultancy Services. The latter allows for an extension until June, 2022 and provides additional consultancy services to cope up with the extension of Works Contracts for Packages 1 and 2. The Addendum of Contract will increase the cost of original Consultancy Agreement: the latter has also been included in the said RDPP which has been recently approved. It also provides budget to develop and implement a pilot for an ICT (Information and Communications Technology) remote monitoring system. The approval of the Amended Contract is now in process. The Employer has approved the Extension of Time (EOT) for the Consultancy Services for "Detail Design, Construction Supervision and Project Management Support" Contract No. CEIP-1/B2, B3 & C1/S-2 up to June 30, 2022 with the condition that no claim will be acceptable due to this Extension of Time which is communicated to the Team Leader of the Consultants by the Project Director vide Memo No. CEIP-1/S-21/130 dated: 28 January, 2021. It is noted that Addendum of Contract should be approved and signed soon because Consultants are now already pre-financing, a significant amount of money for continuation of the Services since January, 2021.
- 4. The Consultants supported the PMU with various reports and recommendations and attended various video call meetings with World Bank and other stakeholders as and whenever required.

1.4 Key challenges and risks and recommendations

1.4.1 Key challenges and risks

The key challenges and risks are listed below:

- 1. The weather conditions of June , 2021 were not favourable for construction of Civil Works including the works of embankment re-sectioning but due to the poor planning and management constrains and cash flow problem the Contractors have failed to achieve the targeted progress of revised Work Program;
- 2. Risks related to the site situations with respect to availability of lands in some cases has improved in some cases.; all stakeholders, including the Client, Client's Local Offices, DC's,

HaskoningDHV

Contractor and Consultants, are applying their utmost efforts to organise this in a practical and pragmatic manner. It is Consultant's view that the progress is possible to be made only by the joint efforts of BWDB & Consultants in the interest of the CEIP-1 Project. This is an area which requires continued highest attention of all concerned.

- 3. The global Corona virus is hampering and limiting and, in some cases, stopped the movement of Staff of both the Contractors of Package-W/01 and W/02 and the Consultants. Consultants are following the international developments closely and adhering to travel guidance of e.g., World Health Organisation and Bangladesh Authorities. Restrictions have been imposed on travellers from outside Bangladesh and as a result this has impact on the progress of the Works. Also, the lock-down and cancelation of international flights is not improving the situation;
- 4. Although a draft Amended Contract for DDCS&PMS Consultants Services was already prepared in 2020, it has yet to be approved by the Competent Authorities and signed. As a result, Consultants do not have an updated Contract in place to continue their services;
- 5. The Additional Bank Protection Works should commence soon and to this end Consultants are discussing the way forward with the Project Director. .

1.4.2 Recommendations

The following recommendations are being furnished:

- When there would be a land availability issue, joint efforts of Contractors, Engineer and Employer should be enhanced to solve the issues at stake. It is highly appreciated that the Employer plays a vital role here and increased efforts should continue; rooms for improvement are less reporting and more resolving on the spot.
- In view of the delays, Engineer will continue pushing the Contractors and making them aware of their contractual obligations;
- Engineer has started to intensify the frequency of progress review meetings with the Contractors after the availability of the Polder Managers in place from the month of March, 2021. The Project Director is also participating in these meetings. The PMU has also started 2-weekly progress review meeting which is being very effective to monitor the progress of works.

Contractual Tasks of DDCS & PMS Consultants

The specific objectives of the CEIP-1 Consultancy Services are described by the following tasks:

- Review and update the designs bidding documents and related environmental and Task A social plans (EIAs, EMPs, and RAPs) already prepared;
- Prepare detailed designs for all remaining polders and works that would be Task B included in the project, including the Engineering and Environment and Social studies (i.e. preparation of EIA, EMP and RAP for each remaining polders);
- Supervise construction of all works under the Project, and do the contract Task C management as "The Engineer", according to FIDIC rules and regulations and the World Bank Guidelines and its standard bidding documents;
- Provide overall project management support to the BWDB and Project Management Task D : Unit (PMU).

The Construction Works will be executed by BWDB as Employer and the Consultant will function as the Engineer of the Civil Works contracts as per FIDIC. The Consultant will administer the Civil Works contracts and ensure that the project works are implemented in accordance with the provision of the Contracts. The Consultant nominated Engineer's representative for 4 and 6 Polders in Package-1 & 2 respectively under each respective Works Contract.

HaskoningDHV

2. Summary of Key Achievements during the reporting month

2.1 Package-1

| No. | Item | Key Achievements during the month - Package-1 |
|-----|--|---|
| 1 | Works | Construction / Re-Sectioning of Embankment: 0.650 Km (Full) & 0.955 Km (Part); |
| | | Excavation / Re-Excavation of Drainage Channel: 0.00 Km; |
| | | Construction of Drainage Sluice: 38 nos. Completed; |
| | | Repair of Drainage Sluice: 2 nos. Completed. |
| | | Construction of Flushing Inlet: 29 nos. Completed; |
| | | Repair of Flushing Inlet: 14 nos. Completed; |
| | | > Embankment Slope Protection Works: 0.140 Km; |
| | | River Bank Protection Works: 0.00 Km; |
| | | > Nalian Closure Dam: Overall Physical progress 100%. Completed. |
| 2 | Contractor Resources | Updated by Contractor Package-1 in terms of labour and equipment. |
| 3 | RAP and status of resettlement Payment | • 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in August-December 2015 of whom 820 on private land (titled) and 4,633 on government land non-titled EPs (Squatters) and among 4,633 EPs, 448 tenants and 226 were wage labourers. |
| | | • The numbers of entities as of June, 2021 stands at 5373 of whom 4645 non-titled (Squatters), 448 tenants and 280 as wage labours. |
| | | • BDT 6,094.67lac has been paid to the 4,338 non-titled EPs (squatters) including 174 numbers tenant and 137 numbers wedge labours as compensation/resettlement benefit against their affected residential, fish gher, commercial, tress. Moreover, the compensation has been paid for Social Forestry (27 nos. for CPR) is BDT 16.12lac and for removing 76nos. electric poles an amount of BDT 25.48lac. Total 6,136.27lac has been compensated /as resettlement benefit in Package-1 up to June, 2021. |
| 4 | Status of Land Acquisition | • 132.47ha land was programmed for acquisition (LA) in 4 Polders of Package-1. Land acquisition proposal (LAP) were submitted to DC, Khulna and Bagerhat accordingly. A total 1.11ha land was omitted from proposal in Polder 32 (0.63ha) and 35/3 (0.48ha). Now, as per possession received and gazette notification a total land becomes 131.36ha for acquisition. |
| | | • 131.36 ha of land is programmed for acquisition (Polder-32 = 50.60 ha, Polder-33 = 14.28ha, Polder-35/1 = 41.47ha & Polder-35/3 = 25.01 ha.). |
| | | • A total 131.36 ha of land finally approved by MoL and DC for acquisition. |
| | | Possession received a total 130.65 ha of land (Polder-32 = 50.02 ha, Polder-33 = 14.28ha, Polder-35/1 = 41.34ha & Polder-35/3 = 25.01 ha.) |
| | | • A total of 0.71ha lands are yet to be received are pending for procession (0.58ha for Polder no. 32 as Sreenagor Kalinagor Mouza and 0.13ha of Polder 35/1 of Sharankhola Mouza). |
| | | • DC office Khulna & Bagerhat has paid a total BDT 8,797.75 lac against 3,734 nos. of awardees among Titled EPs (1215 nos. of Polder-32, 565 nos. of Polder-33, 1,477 nos. of Polder-35/1, 477 |

CEIP-1 Progress Report No. 74 - June 2021

| No | Itom | Key Achievements during the month - Dackage-1 |
|-----|-----------------------------------|--|
| No. | Item | Key Achievements during the month – Package-1 nos. of Polder-35/3). During June, 2021 CUL has been paid to 39 |
| | | nos. EPS only. |
| 5 | Relocation | 98.66% of paid EPs have already been relocated. 50.12% EPs have relocated on their own land; 10.58% on newly purchased land; 16.09% EP has replaced to their relatives or others' land; 11.66% have relocated temporarily at nearby area 1.01% and 2.03% have relocated respectively in Market & Group Relocation In addition wage labour 3.16% and tenant 4.01% are relocated. 1.34% of the paid EPs are yet to be relocated from the ROW. |
| 6 | Grievances | 178 complaints/grievances have received up to June 2021 by GRC. 43 complaints/grievances have been resolved at the entry level; while 134 cases have been resolved through investigations and formal hearing by GRC, total 177 cases have been resolved and 1 no is under more investigation. All records of GRC preserved according to the guidelines of RAP policy. |
| 7 | Environment | The Contractor is carrying out the EHS compliances, which is improving with time through monitoring and learning. They are improving the EHS compliance in the light of the latest field visit of the World Bank Senior Environmental Specialist. They are also involved in translation of approved EHS risk assessment and C-ESMP into Bangla and Chinese languages for easy understanding for implementation. The Contractors also prepared Guidelines Tool to avoid/check infection from COVID-19 and other infectious diseases with reference to "COVID-19 OHS Protocols" provided by the World Bank. The report prepared by the Contractor; Package-1 has been approved by the World Bank. The Contractor, Package-2 has prepared similar report which has been submitted to the World Bank for approval. The Environmental issues are discussed in the World Bank Environmental monthly meeting started from April, 2021, where environment and COVID 19 related issues discussed for further improvement, that also facilitate understanding of the situation by all concerned. |
| 8 | Value of Physical Work done | The total value of physical work done up to June, 2021 is BDT 6,635.91 million and during June, 2021 is BDT 249.30 million. |
| 9 | Finance | Total expenditure incurred up to IPC-26 is BDT 6,173.39 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 660.89 million has been recovered from the advance payment of BDT 660.89 million . |

2.2 Package-2

| No. | Item | Key Achievements during the month - Package-2 |
|-----|--|--|
| 1 | Surveys and Design | The pre-sections surveys for the remaining sections of the Polders are conducting during FY 2020-2021 subsequently shop drawings are being prepared before execution of Physical works. |
| 2 | Works | Construction / Re-sectioning of Embankment: 0.00 Km (F) & 18.447 Km (Partially); Drainage Channel Excavation/Re-excavation: 1.950 km completed; |
| | | Construction of Drainage Sluices: 14 nos. completed & 25 nos. (Partially); |
| | | ➤ Repair of Drainage Sluices: 2 nos. (Partially); |
| | | Construction of Flushing Inlets: 10 nos. completed & 12 nos. (Partially); |
| | | Repair of Flushing Inlets: 0 no. completed & 17 nos. (Partially); total 1 no. completed up to June, 2021. |
| | | ➤ Embankment Slope Protection Work: 0.300 km completed. |
| | | River Bank Protections: 0.005 Km completed; |
| | | Construction of Closure Dam: 12.50% completed Foundation Construction of Closure. |
| 3 | RAP and status of resettlement Payment | A total of 6,778 entities have been identified of whom 1,777 entities are titled and 4747 are non-titled on Government land (squatters) which fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises; BDT 3,286.80 lac has been paid to 2,933 non-titled (squatter) as compensation/resettlement benefits against affected residential and commercial structures. An amount of BDT 16.50lac paid for shifting of electric poles from Polder no- 39/2C, 40/2 and 43/2C. The total 3,303.30 lac has been compensated / as resettlement assistance up to June, 2021 no payment. |
| 4 | Preparation of LAP | 163.79ha land was programmed for Land Acquisition (LA) in six Polders of Package-2. In polder 39.2C (Pirojpur District) 4.84ha land is eroded due to river erosion, that area is omitted from the program. In February, 2021 a new proposal of 13.67ha of land has submitted to DC Pirojpur (12.97ha.) and Jhalakati (0.70ha.) for acquisition. Now the program of land acquisition in Package-2 becomes 172.34ha. The lands Acquisition Proposal (LAP) for six Polders under Package -2 were submitted to concern DC (Pirojpur, Jhalokathi, Barguna and Patuakhali) for acquisition. 158.18ha land has been approved by MoL for Polder 39/2C, 40/2, 41/1, 43/2C, 47/2 & 48 out of 172.34ha. BWDB has placed fund against final estimate of CUL for 134.92 ha. of land to DC, Barguna for Polder-40/2 and Polder-41/1, DC, Pirojpur&Jhalokathi for 39/2C, & DC, Patuakhali for Polder-43/2C (Part), 47/2 & 48. Possession received a total of 134.60ha land (Polder 39/2C- 111.25ha, in Polder 40/2- 11.68ha, for Polder 41/1- 8.29ha, Polder 47/2-2.31ha & Polder 48- 1.07ha). |
| | | • A total 37.74 ha. of land is pending with DCs (Pirojpur 12.97 ha., |

| No. | Item | Key Achievements during the month - Package-2 |
|-----|---|--|
| | | Jhalakati-0.70 ha., Bargun-0.61 ha. and Patuakhali-23.46 ha). • Payment of CUL is going on in Polder-39/2C, 40/2, 41/1, 47/2 & 48. As of June, 2021. DC Office Pirojpur, Jhalokathi, Barguna and Patuakhali have paid a total BDT 3,268.13 Lac to 2,399 upto June, 2021. |
| 5 | Relocation | 45.92% EPs have relocated on their own land; 9.25% on newly purchased land; 14.60% EPs have relocated to relative's or others' land; 18.54% have relocated temporarily at nearby area. 5.24% made group relocation 6.44 % of the paid EPs are yet to be relocated from the ROW. |
| 6 | Grievance Redress Management (GRM) | A total number of 51 complaints/grievances have been received up to June 2021 by GRC. All of them have been resolved in the entry level by the field investigation. Some of the application / complaints have been received by Project (Not applied to GRC) related to land acquisition, civil works etc. which have resolved through concerned (D.C. Office, DDCS & PMS Consultants and Contractor). |
| 7 | Environment | The Contractor is carrying out the EHS compliances, which is improving with time through monitoring and learning. They are improving the EHS compliance in the light of the latest field visit of the World Bank Senior Environmental Specialist. They are also involved in translation of approved EHS risk assessment and C-ESMP into Bangla and Chinese languages for easy understanding for implementation. The Contractors also prepared Guidelines Tool to avoid/check infection from COVID-19 and other infectious diseases with reference to "COVID-19 OHS Protocols" provided by the World Bank. The report prepared by the Contractor; Package-1 has been approved by the World Bank. The Contractor, Package-2 has prepared similar report which has been submitted to the World Bank for approval. The Environmental issues are discussed in the World Bank Environmental monthly meeting started from April, 2021, where environment and COVID 19 related issues discussed for further improvement, that also facilitate understanding of the situation by all concerned. |
| 8 | Value of Physical Work Done | The total value of physical work done up to June, 2021 is BDT 6,735.02 million and during June, 2021 is BDT 83.26 million. |
| 9 | Finance | Total expenditure incurred up to IPC-17 is BDT 6,218.85 million including Adjustment for Changes in Legislation (VAT & IT) & Adjustment for Changes in Cost. An amount of BDT 450.10 million has been recovered against the advance payment of BDT 1,028.40 million . |
| 10 | Contract Administration | The Variation Order No. 3 for construction of Rest House cum Office Building at Bhandaria was submitted to the PMU after recasting the same as per observations of the PMU vide Engineer's letter RDCOR_BC5883-100_L002586_JHL_MAR dated: 28 th May, 2020 in the name of Variation Order No.02. The Engineer has not yet received any response in this respect from the employer. |

2.3 Package-3

| No. | Item | Key Achievements during the Month - Package-3 |
|-----|-----------------------|--|
| 1 | Surveys and Design | The detailed design of all the infrastructures like Embankment, Drainage Channels, Drainage Regulators, Flushing Regulators, Slope Protection works, Bank Protections works etc. were submitted to the concerned design office of BWDB within June, 2019. By this time the detailed Design of all the infrastructures had been approved by the concerned Design Circle of BWDB. The design of 209.98 km of Embankment Design of 167.37 km of Excavation/ Re-excavation of Drainage Channels, design of 52 nos. Drainage Regulators & 19 nos. Flushing Regulators have been approved by the BWDB Design Circle-5. The typical Mechanical Design for Flap Gates & Vertical lift gates for the D/S & F/S of Package-3 have already been approved by the Mechanical design Circle of BWDB. |
| 2 | Bid Documents | The Draft Bidding Documents was prepared based on preliminary design and submitted to PMU vide Consultant's reference: RDCOR-BE5883-100-L002255_MHR_MAR dated: 17 th October, 2019. As per Aide-Memoire of the WB Implementation Support Review Mission, the submitted Bid Documents are to be updated based on the approved design of the related works and to be submitted to the PMU by May, 2021. The preparation of Bidding Documents based on approved design is in progress and expected to be completed by September, 2021. |
| 3 | RAP | The original RAP was prepared based on original LAP. Meanwhile, the crest width of the embankment has been increased by BWDB from 4.50 to 6.00 m based on which the LAP is being updated. Hence, the original RAP has also to be updated based on updated LAP. Following the updated LAP, the LAP/RAP team has to revise the Households (HHs) numbering and Inventory of Losses (IoL) survey in 5 Polders under Package-3 of CEIP-1. As per decision of the PMU, Preparation of updated RAP with 7 Polders is under process. |
| 4 | LAP | The draft LAP was prepared for all Polders, but as per latest decision, the LAP has to be revised based on revised crest width of embankment 6.00m instead of 4.50m. The draft updated LAP has been prepared for 5 Polders, which will be finalized after proper verification in the field. The process of updating of Lap 2 Polders (14/1 & 15) is in progress. |
| 5 | Environment | World Bank thorough final review has agreed to finalize the EIA report of Polder-14/1 along with few additional responses, which will be carried out. The EIA reports of the remaining 6 Polders under Package-3 will follow subsequently. |

2.4 **DDCS & PMS Consultancy Services**

| No. | Item | Key Achievements upto this Month - Consultant |
|-----|------------------------------|--|
| 1 | Construction | Package-1 physical progress is 95.69% (4 Polders); |
| | Supervision Systems/Tools | Package-2 physical progress is 65.40% (6 Polders); |
| | | Package-3 no works contract, hence no physical progress (7 Polders). |

CEIP-1 Progress Report No. 74 - June 2021

Project Progress 3.

Task A: Review and updated the designs bidding documents and related environmental and social plans (EIAs, EMPs and RAPs) already prepared,

3.1.1 Review and update of Design of Package-1

The approved designs were reviewed and updated at the time of commencement of Implementation of the Civil Works. At present, the works are being going on accordingly.

RAP Implementation Package-1 3.1.2

3.1.2.1 Implementation Activities

RAP Implementation for Polders-32, 33, 35/1 and 35/3 under Package-1 is going on. Individual entitlement has been calculated based on Inventory of Losses (IoL) survey and as per PAVC recommended rate of the structures and other assets. A total of 6,127 entities (residential HHs, commercial premises and common property structures) were identified during updating of Inventory of Losses (IoL) in August-October 2015 of whom 820 on private land (titled) and 4633 on government land non-titled EPs (Squatters). Among 4,633 EPs, 448 tenants and 226 wage labourers were identified.

The Polder-wise non-titled EPs and payment of compensation as resettlement benefit is reflected in Table 3-1 below.

| | Non-titled EP's (Squatters) | | | Paid Non-titled EP's (Squatters) | | | Tota | Paid | Total | Paid | | Total | Amount |
|---|----------------------------------|-----------------------------------|--------------------------|-------------------------------------|-----------------------------------|----------------------------------|------------------|------------|-----------------------|----------------|-------------------|---------------------------|-------------------------|
| Polder | Reside nce (Squat ters) | Comm ercial (Squat ters) | Total (Squa tters) | Residen ce (Squatt ers) | Comm ercial (Squat ters) | Total Paid (Squat ters) | I Tena nts | Ten ant | Wage Labou rers | wage labour | Total Entities | Total Paid Entities | paid in BDT (Lac) |
| 1 | 2 | 3 | 4=(2+3) | 5 | 6 | 7=(5+6) | 8 | 9 | 10 | 11 | 12=(4+8+10) | 13= (7+9+11) | 14 |

Implementation of RAP for Package-2 3.1.6

3.1.7 **Implementation Activities**

The RAP for Package-2 was prepared and cleared by the World Bank in March 2017, later on updated to incorporating some changes of land acquisition and resettlement issues. This updated RAP-2 was cleared by World Bank in December, 2018. As per updated a total of 6778 entities have been identified of whom 1777 entities are titled and 4747 are non-titled on Government land (squatters) which may fluctuate, 135 units are identified as community properties and 119 as other institutions will be affected. A total of 814 tenants have been identified among them 751 are commercial and 63 are residential HHs. Moreover, 328 wage labours have also been identified as affected in commercial premises.

Payment of Compensation / Resettlement Benefits for Package-2

Payment for Compensation and resettlement benefits for non-titled EPs (Squatters) has been started from October 2018. A total of 2,933 EPs have been paid amounting BDT 3,286.80 lac and shifting of electric poles 16.50lac total amounting of 3303.30 lac. The detail of the payment of compensation is shown in Table 3-7:

3.1.12 Preparation of EIA of Package-1

The EIA of 4 Polders under Package-1 were completed during the study period and duly been approved by the competent authorities including World Bank.

3.2 Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for **Package-2 Polders**

3.2.1 Data processing and reviewing the shop drawings

Immediately after the completion of each day's survey work, the raw data is submitted to the DRE. Then the raw data is processed to check the quality by using the field log sheet. The shop drawings of embankment and khals are also verified with the received raw data/field log sheet and reviewing the proposed alignment before giving final approval.

Progress Report No. 74 - June 2021

Design status of Package-2

All the Detailed Designs of Package-2 were completed and duly been approved by the respective Design Circle of BWDB.

3.2.3 Preparation of EIA of Package-2

The EIA of 6 Polders under Package-2 were completed and duly been approved by the competent authorities including World Bank.

The period involves the starting of working season and thus the Contractors getting involved in carrying out new works along with continuation of the previously involved activities. The environmental activities related to Environment, Health and Safety (EHS) including COVID measures and others as carried out during the month of June, 2021 are as follows:

3.2.4 Preparation of Monthly Progress Report (MPR) of Environmental issues for the month of June, 2021

The period involves the partly working season due to the onset and continuation of rainy season and thus the Contractors are getting involved in carrying out various works related to the continuation of the previously incomplete activities mainly. Continuation and present spiking of COVID-19 created various restrictions to the work progress. In spite of crucial pandemic situation prevailing all over the country, the environmental activities related to Environment, Health and Safety (EHS) and others as carried out during the month of June, 2021 are described as follows:

3.2.5 Holding of virtual meeting with World Bank and Environmental Safeguard team of CEIP-1

The World Bank carried out the monthly follow-up meeting with CEIP-1 PMU, DDCS& PMS Consultants Team on 07.06.2021 to update the latest status of the environmental activities. In the meeting the important environmental issues discussed and their progress are briefed as follows:

a. Project Director's concern on non-compliance of EHS issues:

Project Director, CEIP-1 expressed concern on non-compliance of some EHS items such as not wearing PPE which he experienced during last field visit. The Concerned Contractor was immediately communicated the issues and instructed to take immediate action their rectification. The issues are also strictly monitored by Environmental Specialist, DDCS&PMS Consultants and PMU Field Environmental Specialist.

b. Finalization and submission of RAP report

Finalization of RAP report for Package-3 was supposed to be completed earlier and submitted. But according to the concerned Social Specialists, draft RAP report has been prepared for 5 Polders, excluding 2 Polders of Package-2, according to previous understanding. But according to the latest modification RAP has to be prepared for total 7 Polders under Package-3. This will need collection of social field data and preparation of Land Acquisition Proposal (LAP) for the remaining 2 Polders. The issue will require some time, which may be extended due to the present COVID-19 situation.

c. Compliance of COVID 19 issues

The Contractors are following the COVID 19 issues following the related Manual, approved by the World Bank. They follow the measures including hand washing with sanitizer or soap, using mask, following personal distancing and regular temperature checking of the worker. Erection of cautionary signboards at work sites have also been done for awareness building of workers. Moreover, disinfecting of work sites are also been carried out by the Contractors. It is also important to note, the Contractor carry out COVID 19 test of workers on routine basis follow

Progress Report No. 74 - June 2021

HaskoningDHV

CEIP-1

ading Teday for Tomerrow

the instruction of the Manual, if any worker found to be detected Corona positive, they arrange for isolation of that particular worker.

d. Improvement of EHS compliance by Contractor, Package-2

As suggested by the Environmental Specialists of PMU and DDCS&PMS Consultants, the Contractor, Package-2 has improved various EHS compliance levels at various work sites. They have placed the generators on paved surfaces to check pollution of soil and ground water through leakage of fuels and lubricants, erected cautionary signboards for awareness building of workers, verified the validity of fire extinguishers and replaced the expired ones. They have also started improvement of toilets established for the workers at different work sites.

e. Fishery related activities in Package-2

The Contractor, Package-2 has to take preparation of their fishery related activities and the Contractor has been suggested by DDCS&PMS Consultants to proceed on with appointment of Fishery Specialist, who will make assessment of the related various activities to be carried out. The Contractor is trying proceed accordingly, although the present COVID 19 situation is restricting the progress in this regards.

3.2.6 Holding of Monthly EHS meeting in Package W-01

Environment, Health and Safety meeting for the month of June, 2021 has been carried out on 13th of June, 2021. The meeting was presided by Mr. Md. Asraful Alam, Executive Engineer, CEIP-1, BWDB, Khulna, the minutes of the meeting has been circulated to the all concerns. The EHS issues discussed in the meeting are briefed as follows:

a. Release of fish further fingerlings and appointment of Fishery Specialist in Package W-01

According to Senior Environmental Specialist, PMU, Contractor, Package-W-01 released 20,000 fish fingerlings in 4 Polders. As per recommendation of the Fishery committee, the Contractor requires to appoint one Fishery Specialist and they also need to plan for release of further 100,000 fish fingerlings. In addition, they also need to prepare plan for nourishment of the fish fingerlings ahead of releasing of further fish fingerlings. DDCS&PMS Consultants will take necessary step for action of the Contractor on the issue.

b. Follow up Environmental code during Decommissioning

Since the works of Package-W-01 is on the completion stage, decommissioning of the completed sites are important from environmental point of view. The Contractor needs to follow the environmental code of conduct during decommissioning. Contractor's representative was instructed to prepare a decommissioning plan and submit to DDCS&PMS Consultants for its finalisation and approval, to be followed by the Contractor during decommissioning.

c. Provision of Safeguards requirement in Emergency & Slope protection works

At present emergency and slope protection works are in progress, where there is inadequate provision of PPE, potable water and first aid facilities hampering the EHS qualities. The Contractor's representative was asked to supply these EHS requirements adequately for assured quality EHS provision, which was agreed.

d. Follow up instruction of COVID-19 Measures

The Contractors of Package W-01 and W-02 are following the instruction of COVID 19 manual and following the compliance like hand washing with sanitizers or soap/detergent, using mask, maintaining safe distance. COVID 19 safety signboards have been erected to aware the workers about Corona virus safety measures.

Progress Report No. 74 - June 2021

HaskoningDHV

e. Implementation of Recommendations of 5th Environmental annual Audit report

The 5th Annual Environmental Audit report has been forwarded to both the Contractors, CEIP-1 with instruction to follow and implement the non-complied EHS issues mentioned in the report and the Contractor, W-01 agreed to follow them as instructed.

f. Supply of Potable water and maintenance of Toilet facilities

The representative of the Contractor was suggested to supply safe drinking water at all working sites adequately for maintaining health qualities of the workers. In addition, provision of hygienic toilet with supply of water and soap/detergent for washing to be ensured for workers health, which the Contractor's representative agreed to provide.

3.2.7 Formulation of report on Lessons learned on Safeguards compliance from CEIP-1

A report on lessons learned from safeguards compliance from CEIP-1 has been prepared, which can be considered for the next phases of CEIP for improved and smooth continuation. The report has been forwarded to World Bank for their appraisal.

Environment-related information, Package-1 3.2.8

The Contractor, Package-1 has submitted some information related to environment for the month of June, 2021 as a part of the regular exercise. The Contractor recruits no under-aged worker and workers' age are verified through cross checking their National ID Cards. The related information are provided in the following Table 3-11:

| Locations | work Polde | of total ers in 4 rs in this onth | trainir trainee | f Env. ng and s in this nth | of total cidents place in month | of env. evance corded month | roblem aced for env. mpliance in this | Comments |

Table 3-11: Information for the month of June, 2021

3.2.9 Information of working areas, no. of workers involved (both local and expatriate) and steps taken by the Contractor, Package-1 on COVID-19 pandemic

The Contractor of Package-1 has been involved in various construction /civil activities where a number of local and expatriate workers/ staffs are involved. The works were continued at few work sites during the month of June, 2021 in the Pandemic situation, which is aggravating fast. The Contractors took some emergency measures like provision of PPE, mask, hand gloves, hand sanitizer (containing 75% alcohol), checking of workers' temperature, disinfection of

HaskoningDHV

Dev Con Leading Teday for Temerrow

camp and work sites and imposition of some restrictions including social/personal distancing and preparation of isolation areas. Information on workers and work sites along with safety issues provided by the contractor during the reporting period are as follows Table 3-12:

Table 3-12: Information on locations of various work sites, involved number of workers and safety issues followed in Package-1 areas during the month of June, 2021

| SI. No. | Location, Polder No. Work site | Type of work | invol 01.0 | of workers ved during 06.2021 to .06.2021 | Expected date of work completion | Comments |

| | | Total workers | 198 | 29 | | |

3.2.10 Novel coronavirus response, Package-1

Contractor, Package-1 conducts the following practices as response to COVID 19 Manual

- Temperature of all personnel taken every day and arrange experienced personnel to take temperature and check, including office, camp, local construction, sluice and slope protection construction.
- · All personnel wear surgical masks during operation and are provided masks before going to work every day
- Keep hands clean with hand sanitizer and disinfectant to avoid spreading of the virus

- Thorough disinfection drive is conducted every Friday (Holiday), including office areas, camps, prefabrication plants, construction vehicles and motor vehicles
- Provision of PPE like surgical masks, medical gloves, eye mask to supporting staff (such as gate guard, police)
- Provision of training and awareness on prevention and safety issues related to Corona virus infection during tool box talking.
- Workers are not allowed any leave during work and leaving work site is forbidden strictly.

3.2.11 Noise measurement of Package-1

None of the automated CC block manufacturing plants of Package-1 was in operation during the month of June, 2021. Moreover, no generator was in operation during the whole month. Thus, noise level was not measured at work sites of Package-1.

3.2.12 Environment-related information, Package-2

The Contractor, Package-2 has submitted some information related to environment for the month of June, 2021 as part of the regular exercise. The Contractor recruited no under-aged worker and workers' age is verified cross checking their National ID Cards. The related information are provided in Table as follows tables:

environmental trainees in this month environmental grievance in this month problem accidents took place in this No. of Total environmenta compliance in this month No. of total of total for Workers in 6 Locations month οŧ **Polders this Month** faced 1 Comment of Local ģ **Expatriat** Worke ġ e workers rs slight leg iniurv Polder while stacking templates, 18 289 0 0 312 0 39/2C the worker was sent to local clinic and got cure One slight finger injury, Polder 155 8 135 0 0 0 which was treated with 40/2 first aid facilities. 3.2.13 Information of working areas, no. of workers involved (both local and expatriate) and steps taken by the Contractor, Package-2 on COVID-19 pandemic

The Contractor of Package-2 has been involved in various construction /civil activities, where local and expatriate workers/ staffs are involved, although works have been affected due to COVID-19 situations. Most of the workers continued at various work sites during the month of June, 2021 in the prevailing COVID-19 pandemic situation as provided in the following Table 3-14.

Progress Report No. 74 - June 2021

HaskoningDHV

Table 3-14: Work site information of Package 2, CEIP-1 during the period from 1.6.2021 to 30.6.2021

| SI. No. | Location, Polder No. Work site | Type of work | No of workers involved during 01.5.2021 to 31.5.2021 | | Expected date of work completion | Comments |
|------------|--------------------------------------|--|---|------------|--|----------|
| | | | Local | Expatriate | | |
| 1 | 39/2C | CC Block Manufactured work Steel Bar binding work for Ds-2 Steel Bar binding work for Ds-6 | 312 | 18 | 30 December 2021 | |
| 2 | 40/2 | CC Block Manufactured work Construction work for D/S-10 Sand filling work for DS-1 Slop protection work for KM13+184-13+577 Steel Bar binding work for FS-16 | 155 | 8 | 30 December 2021 | |

| 4 | 43/2C | 1. CC Block Manufactured work | 94 | 4 | CC Block Manufacturing work always continue | |
| 6 | 48 | 1. CC Block manufactured; 2. Slope Protection work For KM 30+800-31+450 | 121 | 5 | 30 June 2021 | |
| 7. | Dhaka office | Administration and Supervisory works | 8 | 6 | | |
| 8. | Patuakhali office | Administration and Supervisory works | 6 | 6 | | |
| | | Total workers= | 795 | 54 | | |

Note: During this period, contractor has always provided the protective tools to workers, such as Mask, Hand Sanitizer and the 75% of alcohol, most important is we check workers` temperature everyday with Temperature measuring gun. And also, every Polders` camp has prepared the isolation area.

3.2.14 Noise Measurement, Package-2

The automated CC manufacturing plants of Polder 39/2C are closed during the month of June, 2021 However, noise have been measured as caused by operation of generator mainly, used for various project related activities operated in Polders 39/2C, 40/2, 41/1,43/2C and 48 during the month of June, 2021. The noise levels of different work sites of these Polders are provided in Tables 16 to 19 as follows:

3.2.15 Information on Grievance Collection Box (GCB)

According to the existing information the present status of GCBs in Package-1 and Package-2 are as follows:

In Package-1, Polder 32 there are 2 nos. of grievance collection boxes (both at camp sites) and Polder 35/1 has 3 nos. (in and around automated CC block manufacturing site) of GCBs.

In Package-2 Polder wise GCBs are, in Polder 39/2C there are 3 nos. (at and around automated CC block manufacturing plants), in Polder 40/2 there are 2 nos(1 at camp site and 1 at mechanical room), in Polder 41/1 there are 2 nos. (1 at gate and 1 at camp site), 43/2C has 2 (1 at camp site and another placed in mechanical workshop site), 48 has 3 nos. (1 outside store room, 1 outside generator room and 1 outside mechanical room). It is to be mentioned here that in the present COVID 19 situation lesser number of workers are involved in works. The numbers of GCB boxes will be increased whenever the number of work location and workers will be increased which is expected with the improvement of COVID 19 situation.

HaskoningDHV

3.2.16 Recording of Workers' History

The Contractors, Package-1 and Package-2 are keeping/ maintaining various records of their workers specially information on their age, gender, medical history, contact details of next of kin to notify in case of accident and emergency. The recording is monitored by the Environmentalists of PMU, DDCS&PMS Consultants and Third-party M&E Consultants during their visits at field level.

3.2.17 EAP/C-ESMP Monitoring

Monitoring of key EHS risk management according to EAP/C-ESMP in Package-1 and Package-2 have been carried out during the Month of June, 2021 are as follows:

3.2.18 Key EHS compliance Issues (Package-1)

Various key EHS measures complied based on EHS risk management in the light of EAP (in Package-1) during the month of June, 2021 are presented in table below:

Table 3-20: Measures taken on EHS Risk Management and EAP for Package-1

| SI. no. | Polder/site | Specific individual area | EHS Risk issues | Measures taken to mitigate the risk issues | Remarks |
|------------|---|--|--|---|---------|
| 1 | Polder 32 & 35/1 Re-sectioning of Embankment | Starting and ending of working length | May occur accident, top soil disruption | Demarcated all work sites clearly Installed cautionary/informative signals to indicate the entry and exits of vehicles and movement of construction equipment in the working area. Disposed of the excess soil at site with no objection from local authority. Conducted regular toolbox talk before starting the work Informed the community before the start of work Provided PPE to the workers during conduct of work Erected the wire up to enough height before starting and ending of the work Checked the physical condition of excavator regularly Checked the physical condition of compaction vehicle regularly Checked the physical condition of truck regularly Conducted training on driving safety at regular interval Borrow area of earth was fixed on agreement with land owners Documented all borrow agreements Complied barrow area excavation with safe distance from embankment as per technical specification. | |

3.2.19 Progress of Mechanical Works

With regard to mechanical aspects the following activities were performed.

Package-1

The fabrication of all New Gates & Hoisting devices had been completed and installation of the devices has already been completed.

Package-2

Shop Drawings of Gates and Hoists approved and sent to the Contractor to start fabrication work in China. Pre-Fabrication material test was done at BUET and found in order. Gates and Hoists are being fabricated in China. Already 102 sets of gates and hoists have been arrived at site up to June, 2021. Inspection and testing of these Gates have already been done. Contractor has been advised to install these Gates as early as possible. In total 96 sets of gates have been installed in the completed structures out of which 76 sets in Drainage Sluices and 20 sets in Flushing Sluices. The Contractor has been advised to bring the remaining Gates and hoists at the earliest possible time to complete the Drainage and Flushing Sluices in all respect to make them functional.

Package-3

Remaining Design of Flushing cum Drainage Regulators for Package-3 has got approval from BWDB Design Office. With this all the mechanical Design works in connection with Package-3, CEIP-1 has been completed.

Task B: Prepare Design, Bid Documents, EIAs, RAP, etc. for 3.3 Package-3 Polders

3.3.1 Design

The detailed information with regard to status of preparation and approval of the design of different items of works of Package-3 has been shown in the Table 3-22 below:

3.3.2 **Bidding Document of Package-3**

Preparation of the Bidding Documents based on estimate prepared on the basis of draft design submitted to the concerned design office for approval had been completed and submitted to PMU on 17th October, 2019. As per Aide-Memoire of the WB Implementation Support Review Mission during 16th August, 2020 to 20th August, 2020, the submitted Bid Documents are to be updated based on the approved design of the related works and was schedule to submit to the PMU by March, 2021 but due to delay in the approval of design it could not be submitted within the schedule time. It is in the process of preparation and will be submitted at the earliest possible time.

3.3.3 Preparation of EIA of Package-3

The World Bank, after final review, has agreed to finalize the EIA report of Polder-14/1 along with few additional responses, which will be carried out. The EIA reports of the remaining 6 Polders under Package-3 will follow subsequently.

3.3.4 RAP Preparation of Package-3

After the accomplishment of the map of alignment fixing by the concern of BWDB and Consultants, the LAP/RAP team has completed the Household (HH) numbering and IoL survey in 5 (five) Polders (Polder-16, 17/1, 17/2, 23 and 34/3) under Package-3 of CEIP-1. A total of 20 community consultation meetings were conducted in 15 different locations in Polders of Package-3. Resettlement Action Plan (RAP) for Package-3 was prepared and submitted to the World Bank. Meanwhile, the design crest level has been increased from 4.50 m to 6.00 m with the instruction of BWDB and the design of embankment was approved accordingly. At present, the LAP is being updated in accordance with the approved design of embankment. However, the RAP submitted earlier has also to be updated based on updated LAP.

CEIP-1 Progress Report No. 74 - June 2021

HaskoningDHV

LAP Preparation for Package-3

The Land Acquisition Plan (LAP) of Package-3 has been prepared on the basis of original design of embankment where the crest width of the embankment was 4.50m. Meanwhile, BWDB had decided to change the design of embankment providing the crest width 6.00m instead of 4.50 m. At the present context, the designs of embankment have been approved by the Design Circle-5, BWDB considering the crest width 6.00m. The LAP/RAP team has collected records and information on previously acquired land for five Polders (Polder- 16, 17/1, 17/2, 23 and 34/3) from concerned O&M Divisions of BWDB and the concerned DC offices (Khulna, Shatkhira and Bagerhat). Mouza Maps have also been collected from the office of Director, Land Records, Tejgaon, Dhaka and the DC office Khulna, Satkhira and Bagerhat. The works of Package-3 proposes to acquire 73.09ha land for improvement of Five Polders. The 3rd Package is likely to displace 2809 house hold (HH) and other units. But all these activities will require updated in accordance with the revised LAP and RAP.

3.4 Task C: Supervise Construction & Administer Contract of Package-1

3.4.1 **Introduction**

The Progress report covers the events up to 30th June, 2021. The Contract for Package-1 was signed on 1st November, 2015 for the execution of Rehabilitation/ Reconstruction and Upgrading of Polder-32; Polder-33; Polder 35/1 and 35/3 under Package-1. The date of formal commencement of work was on 26th January, 2016.

Of the total 200.617 kilometres of embankment upgrading in the four Polders, about 181.659 kilometres are fully completed (excluding some dressing & turfing works) and 0.955 kilometre is partially done. Of the remaining 18.003 kilometre, around 17.699 kilometres are paved road. Of these, 17.699 kilometres, 10.65 km in Polder 35/1 and 1.95 km in Polder 35/3, in Bagerhat District and km 5.099 km in Polder 33, Khulna District. The most lengths of the paved roads are in good condition with crest levels around 40 to 50 cm lower than the CEIP-1 design crest levels. The crest widths are also close to CEIP-1 design crest width of 4.50 m. The local people are very much against dismantling these paved roads as they pass through built up areas with squatters on both sides. However, to keep the target length of embankment unchanged, side slopes would be developed particularly on the countryside of these paved roads. The Contractor has been instructed to carry out these slope development early in the next dry season (October - December 2021).

Of the total 151.210 km of Drainage Channel re-excavation, 136.799 Km lengths (86.45%) are completed. The re-excavation of Kumar Khali Khali (12.50 km) and Satghorer Khali (1.00 km) in Polder 35/1 and Care Khal (0.911 km) in Polder 35/3, are not needed as the channel has adequate section with enough conveyance capacity and the local people do not want these channels to be re-excavated. To fulfil the target length in the Result Framework, further discussions would be held with local beneficiaries in Polder 35/1 to find out alternate drainage channels that might need re-excavation for efficient drainage of the Polder.

There is provision for 19.766 Km of embankment slope protection works in the four Polders of which 16.803 km are completed as of 30th June 2021. Of the balance 2.963 km length, around 2.00 km is located from km 23.500 to 25.500 in Bogi area where the embankment is yet to be completed. The works for the remaining 0.963 km is in progress at Fashiatala (km 2.000 to km 2.300 & km 4.500 to km 4.650) and at Rayenda market area (km 13.500 - km 14.000).

The total length of 4.25 km River Bank Protection Works in the four Polders were completed during the last work season by June 2020.

Page 35 of 107

Precautionary Emergency Bank Protection Works (Polder 32)

Around 49.67 km of embankments in Polder 32 under CEIP-1, Contract Package-1 was fully completed by June 2020 excluding the newly proposed retired embankment at Jaliakhali area which was to be retired due to river bank erosion from km 16+400 to 16+800 (400 m). But the completed embankments were under the threat of bank erosion by the Mighty Shibsha & Dhaki Rivers at several locations. These locations were earlier identified for Additional Bank Protection Works.

During a field inspection by the Project Director, PMU, CEIP-1, BWDB on 10th March 2021, total length of about 3,220 meter was identified for Precautionary Emergency Bank Protection Works in nine (9) locations along the Shibsha and Dhaki Rivers to protect the Polder from flooding by embankment damage. In the meeting on the same night in Khulna, Project Director, CEIP-1, advised DDCS&PMS Consultants to carry out bathymetric survey and detail designs for the precautionary emergency bank protection works. Accordingly, the working Contractor, CHWE (The First Engineering Bureau of Henan Water Conservancy), was instructed to conduct bathymetric surveys. The Contractor completed the survey cross sections and the survey data were sent to the Engineer (Team Leader) by the last week of March 2021. Detailed designs were prepared by the design team of DDCS&PMS Consultants in the Office of the Engineer, and draft designs were submitted to the Project Management Unit (PMU), CEIP-1, BWDB, between April 01 - 12, 2021 for approval by Competent Authority with copy endorsed to the Contractor to start mobilization and dumping of Geo-bags.

The Contractor, CHWE, (The First Engineering Bureau of Henan Water Conservancy), on instruction from the Engineer, started to mobilize specified Geo-bags and started dumping in good faith at the most vulnerable six locations in the Polder jointly identified by BWDB Committee, Engineer's Representative and the Contractor's Project Manager to protect the Polder pending approval of the designs by competent authority and issuance of Work Order by the Engineer. The dumping status up to 30TH June 2021 at these six locations of Polder 32 and one location of Polder-35/1 are attached in Table 3-23 below:

Table 3-23: Precautionary Emergency Bank Protection Works in Polder 32 - Dumping Status in Most Vulnerable Reaches (As on 30 June 2021)

Figure 3-16: DS-6 of Polder-35/3 (Completed)

Total nos. of Flushing sluice to be repaired as per contract was 30 nos. out of which 16 nos. has been dropped and those are reflected in detailed in Table 3-35 and Table 3-36 below.

Table 3-35: Information regarding Repair of Flushing Sluices and Drainage Sluices

| SI No. | Name of Polder | Total Nos. as per Contract | Current Status | Total Dropped | Remarks |
|-----------|----------------|-------------------------------|-------------------|------------------|--|
| 01. | Polder-32 | 20 nos. | 6 Nos. | 14 Nos. | Mostly fallen outside of the retired embankment. |
| 02. | Polder-33 | 5 Nos. | 3 Nos. | 2 Nos. | As those were constructed by the local shrimp culture owners |
| 03. | Polder-35/1 | 3 Nos. | 3 Nos. | 0 | |
| 04. | Polder-35/3 | 2 Nos. | 2 Nos. | 0 | |
| | Total = | 30 Nos. | 14 Nos. | 16 Nos. | |

Remaining (30-16) = 14 nos. of Flushing Sluices under repair were in the program, the works of which have already been completed. Total 2 nos. of Drainage Sluices under repair were in program, the work of which have already been completed.

Table 3-36: List of Flushing Sluices Dropped from the repairing Program

| Flushing Sluices | Reasons for dropping |
|---------------------|---|
| Polder 32 | |
| FFDFR-01 | Not repairable |
| FS-04 | Not repairable |
| FM-01 | Not repairable |
| FM-02 | Sluice is now in no use. |
| FM-07 | No need to repair, connected with the private pond. |
| FM-11 | No need to repair, connected with the private pond. |
| FM-12 | Sluice could not be identified. |

| Flushing Sluices | Reasons for dropping |
|---------------------|---|
| FO-02 | Outside the Rtd. Embankment |
| FO-03 | Not repairable |
| FO-04 | Outside the Rtd. Embankment |
| FO-05 | Outside the Rtd. Embankment |
| FO-06 | Outside the Rtd. Embankment |
| FH-09 | Engulfed into the river due to river erosion. |
| FH-18 | Private structure |
| Polder 33 | |
| FS-02 | Private structure, repair not needed. |
| FS-18 | Private structure, repair not needed. |

3.4.3 Staffing

In Table 3-37 below man power deployment for Contract Package-1 is listed and sample check has been done by the Consultants.

Dev Con Leading Today for Tomorrow

3.4.6 **Emergency Works in Package-CEIP-1/W-01**

The emergency works under this Package have taken up to close the breaching of existing embankment at some vulnerable locations. The main target of these emergency works was to stop the intrusion of saline water into the Polders to save the crops. In the Contract, there was a provision for an amount under Environmental Mitigation Works (Specified Provisional Sum). After exhaustion of the above-mentioned amount to meet up the cost of the rest emergency works, the expenditures are being meet up from the Physical & Price Contingencies. The status of expenditure up to June, 2021 are shown below.

Table 3-40: Summary of Emergency works under the head of "Environmental Mitigation Works"

| SI. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|-----|----------------|--------------|---------------------------|
| 01 | Polder-32 | 4.187 | 21,314,699 |
| 02 | Polder-33 | 1.454 | 8,616,598 |
| 03 | Polder-35/1 | 0.941 | 7,981,316 |
| 04 | Polder-35/3 | 1.04 | 2,078,530 |
| | Total = | 7.622 | 39,991,142 |

[❖] Total available budget as per contract: BDT: 40,000,000

Table 3-41: Summary of Emergency works under the head of "Physical & Price Contingency"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) | | | | |

3.5.5 Plans for execution of works

Program for Month of July, 2021

Polder 39/2C:

CC Block Manufacturing Yard1: (A) Nadmulla

To manufacture monthly scheduled of 80,000 Nos. blocks (40x40x30 cm)

CC Block Manufacturing Yard2: (A2) Charkhali

No Program

CC block manufacturing yard 3: (B) Telikhali

No Program

Other Construction Activities

- To complete the turfing work of completed embankment;
- To progress the work of DS-2,6 & 13;
- To complete the end termination work at Telekhali;
- To Progress the construction of embankment work;

Polder 40/2:

- To complete the turfing work of completed embankment;
- To continue the manufacturing of CC Blocks;
- To progress the slope protection work;
- To progress the construction work of DS-8, 9 & FS-16

Royal HaskoningDHV

Dev Con Leading Today for Tomorrow

Polder-41/1:

- To continue manufacturing of CC Blocks;
- To complete the turfing work of completed embankment.
- To progress the re-sectioning work of embankment.
- To continue the river bank protection work at Gulbunia site.

Polder 43/2C

- To continue manufacturing of CC Blocks;
- To progress the construction work of DS-2;
- To complete the turfing work of completed embankment;

Polder-47/2

- To complete the turfing work of completed embankment;
- To progress the construction work of retire embankment

Polder-48:

- To continue the manufacturing of CC Blocks:
- To continue the slope protection work of sea dyke at Kuakata Beach;
- To complete the turfing work of completed embankment;

Other structures and embankment works are planned to be started very soon. Site activities on all structures will go through first, second, third fourth dry season. The majority of the sites works are scheduled during these five main dry seasons.

3.5.6 Construction of Regional Office Building at Patuakhali, Kalapara and Pathorghata,

Regional Office Building at Patuakhali: Contractor prepared a detailed design of the Regional Office Building at Patuakhali which was submitted to Project Director, CEIP-1, PMU, and was approved. Approved detailed design was sent to the contractor to start the building at Patuakhali. The contractor started the work on 17 April 2019 and building work is in progress. The overall progress is about 92%.

Vertical Extension of BWDB's Existing Office Building at Kalapara, Patuakhali: The Building has been completed and handed over to the competent authority.

Rest house Re-construction at Pathorghata, Barguna: Re-construction work of Rest House at Pathorghata has been dropped as per decision of the employer and the money saved will be used to construct the Office Building cum Rest House at Bhandaria, Pirojpur District. The variation order for the construction of the Office Building cum Rest House at Bhandaria is in process.

Boundary Wall at Pathorghata BWDB Colony: The boundary wall has been 100% completed.

Laboratory Building at Patuakhali: The building has been completed and handed over.

Emergency works in different Polders 3.5.7

The Summary as well as the details of the emergency works in different Polders are reflected in the following tables here below.

Table 3-57: Summary of Emergency works under the head of "Environmental Mitigation Works"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|---------|----------------|--------------|---------------------------|
| 01 | Polder-39/2C | 0.177 | 1,666,992.00 |
| 02 | Polder-40/2 | 0.35 | 2,795,174.46 |
| 03 | Polder-41/1 | 0.0509 | 560,125.89 |
| 04 | Polder-43/2C | 0 | 0.00 |
| 05 | Polder-47/2 | 0.848 | 6,872,990.26 |
| 06 | Polder-48 | 0 | 0.00 |
| | Total = | 1.426 | 11,895,283 |

Total available budget as per Contract is BDT: 12,000,000.00

Table 3-58: Summary of Emergency works under the head of "Physical & Price Contingency"

| SI. No. | Name of Polder | Total Length | Total Cost Estimate (BDT) |
|---------|----------------|--------------|---------------------------|
| 01 | Polder-39/2C | 0.379 | 3,489,400 |
| 02 | Polder-40/2 | 0 | 0 |
| 03 | Polder-41/1 | 0.100 | 1,143,635 |

3.5.8 Finance (Invoices) Contractor Package-2

- IPC-01 of Contractor Package-2 concerned the first instalment of the 5% Advanced payment and was paid on 28 June 2017;
- IPC-02 concerned the second instalment of the 5% Advanced payment which was recommended by the Engineer and was paid by the Employer on June 2018;
- IPC-3 was recommended by the Engineer and paid by the Employer on 20 June 2018;
- IPC-4 was submitted to the Employer on 29th October 2018 by the Engineer with recommendation for payment and paid by the Employer on 19 December 2018;
- IPC-5 was submitted to the Engineer on 27 December 2019 and it was sent by the Engineer to the Employer on 10 January 2019 with recommendation for payment and paid by the Employer on 30 January 2019.
- IPC-6 was submitted to the Engineer on 28 February 2019 and the IPC was sent by the Engineer to the Employer on 14 March 2019 with recommendation for payment and paid by the Employer on 28 March 2019;
- IPC-7 was submitted to the Engineer on 28 April 2019 and the IPC was sent by the Engineer to the Employer on 05 May 2019 with recommendation for payment and paid by the Employer on 22 May 2019;
- IPC-8 was submitted to the Engineer on 25 June 2019 and the IPC was sent by the Engineer to the Employer on 27 June 2019 with recommendation for payment and paid by the Employer on 27 June 2019;
- IPC-9 was submitted to the Engineer on 29 June 2019 and the IPC was sent by the Engineer to the Employer on 30 June 2019 with recommendation for payment and paid by the Employer on 30 June 2019;
- IPC-10 was submitted to the Engineer on 22 October 2019 and the IPC was sent by the Engineer to the Employer on 05 November 2019 with recommendation for payment and paid by the Employer on 22 December 2019;
- IPC-11 was submitted to the Engineer on 04 February 2020 and the IPC was sent by the Engineer to the Employer on 06 February 2020 with recommendation for payment and paid by the Employer on 19 February 2020;
- IPC-12 was submitted to the Engineer on 04 March 2020 and the IPC was sent by the Engineer to the Employer on 07 March 2020 with recommendation for payment and paid by the Employer on 24 March 2020;
- IPC-13 was submitted to the Engineer on 25 April 2020 and the IPC was sent by the Engineer to the Employer on 18 May 2020 with recommendation for payment;
- IPC-14 was submitted to the Engineer on 28 June 2020 and the IPC was sent by the Engineer to the Employer on 30 June, 2020 with recommendation for payment and paid by the Employer on 30 June, 2020.
- IPC-15 was submitted to the Engineer on 14 March, 2021 and the IPC was sent by the Engineer to the Employer on 22 March, 2021 with recommendation for payment and paid by the Employer on 07th April, 2021.
- IPC-16 was submitted to the Engineer on 22nd May, 2021 and the IPC was sent by the Engineer to the Employer on 24th May, 2021 with recommendation for payment and paid by the Employer on 13th June, 2021.
- IPC-17 was submitted to the Engineer on 28th June, 2021 and the IPC was sent by the Engineer to the Employer on 30th June, 2021 with recommendation for payment and paid by the Employer on 30th June, 2021.

Progress Report No. 74 - June 2021

HaskoningDHV

3.5.9 **Contract Modifications**

The variation order for the construction of the Office Building cum Rest House at Bhandaria has been prepared following the instructions of the Project Director and submitted to PMU vide Engineer's Ref. No. RDCOR BC5883-100 L002586 JHL MAR dated; 28th May, 2020. The Engineer has not yet received any instruction in this respect from the Project Director, CEIP-1.

The Contractor was requested to submit an Updated Revised Work Program considering the Completion date of the Contract is 30th June, 2022 receiving a verbal consent from the Competent Authority. Accordingly, the Contractor submitted an Updated Revised Work Program and that was reviewed by the Engineer and submitted to the PMU vide Consultant's letter No. RDCOR_BC5883-100 L002900 JHL MAR dated: 20th January, 2021. The Contractor submitted the S-curve based on the Revised Updated Work Program and that has been reviewed by the Consultants and incorporated in the Monthly Progress Report of June, 2021.

The Contractor submitted a Claim for Extension of Time and the Claim was evaluated by the Engineer and the Claim evaluation report was submitted to PMU vide Engineer's Ref. No. RDCOR_BC5883-100_L002759_JHL_MAR dated; 25th October, 2020. The submitted evaluation report was reviewed by the PMU and provided some observations on the report. Accordingly, the report was corrected and submitted to the PMU vide Engineer's letter no. RDCOR_BC5883-100_L002844_JHL_MAR dated: 27th December, 2020. The Employer informed that the notice for formal Extension of Time could not be issued till the validity period of Performance Security is extended. Accordingly, the Contractor has been requested to extend the validity period of Performance Security up to 28th July, 2023. The Contractor has extended the validity period of Performance Certificate up to 28th July, 2023 and submitted to the Engineer's office which has been submitted to the PMU vide Engineer's ref.no. RDCOR_BC5883-100_L003057 dated: 15th April, 2021. However, the Extension of Time (EoT) for Contract No. CEIP-1/W-02 has been approved by the competent authority up to June 30, 2022 which is informed by the Project Director vide memo no. CEIP-1/W-02/695 dated: 14th June, 2021.

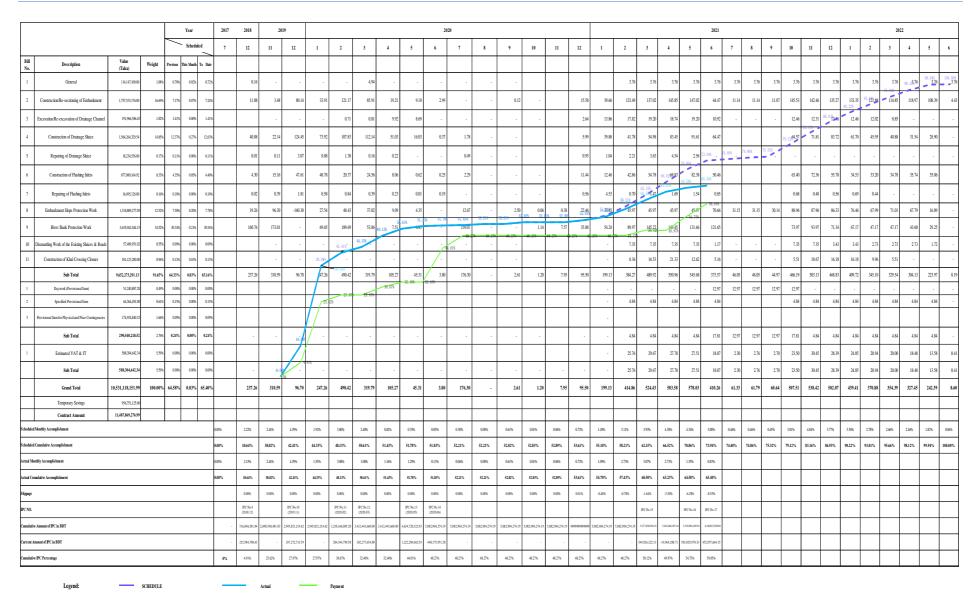

Figure 3-32: S-Curve for Package-2

3.5.10 Tentative Forecast of Payment of Package-W-2:

Table 3-61: Revised Tentative forecast of Payment for FY 2020-21 of Package-2

| IPC No. | Month of Submission | Forecast Value of IPC in BDT | Remark |
|-----------|------------------------|------------------------------|---|
| IPC No.15 | March, 2021 | 191,962,165.00 | IPC No. 15 was submitted by the Contractor with a value of BDT 191,962,165.12 and the IPC was reviewed and sent by the Engineer to the Employer on 22 March, 2021 with recommendation for payment. |
| IPC No.16 | May, 2021 | 551,538,260.00 | IPC No. 16 was submitted by the Contractor with a value of BDT 503,029,978.33 and the IPC was reviewed and sent by the Engineer to the Employer on 24 May, 2021 with recommendation for payment. |
| IPC No.17 | June, 2021 | 827,307,390.00 | IPC No. 17 has been submitted by the Contractor with a value of BDT 452,957,664.15 and the IPC has been reviewed and sent by the Engineer to the Employer on 30 June, 2021 with recommendation for payment. |
| | Total= | 1,570,807,815.00 | |

3.6 **Task D: Project Management Support Services**

3.6.1 **Financial Projection**

Disbursements of funds for IPCs are well-known and the planned future disbursements depend on the work plan works scheduling. IPC is submitted when the monetary value of the works done over a new period reaches a threshold value (percentage of the contract value). In general, during a good construction season, each IPC amount of every month to be minimum US\$ 1.53 Million and US\$ 5.56 Million for Package-1 & Package-2 respectively considering the completion date up to June, 2021 for Package-1 and June, 2022 for Package-2. The Contractor of Package-1 has submitted IPC No. 26 and the Contractor of Package-2 has submitted IPC No. 17 in the month of June, 2021. The next IPCs are, however, expected by October, 2021 for both the Packages.

3.6.2 **Modification of Consultancy Contract**

The Modified Contract No.03 of DDCS & PMS Consultants has been signed by the Project Director and the Consultants on 15th December, 2019. Addendum No. 1 of DDCS & PMS Consultancy been submitted to PMU vide Engineer's Ref. No. Services RDCOR BC5883-100_L002743_JHL_AAM dated; 12th October, 2020. The approval of the Addendum No. 1 is in process. However, the Employer has approved the Extension of Time (EOT) for the Consultancy Services for "Detail Design, Construction Supervision and Project Management Support" Contract No. CEIP-1/B2, B3 & C1/S-2 up to June 30, 2022 with the condition that no claim will be acceptable due to this Extension of Time which is communicated to the Team Leader of the Consultants by the Project Director vide Memo No. CEIP-1/S-21/130 dated: 28th January, 2021.

Annex 2: Labour Influx Report

Initial information on labour influx risks, requirements and implication for work package W-01 under CEIP-1

| | Tilitial illiottiation on labour lilliux risks, requirements and implication for work package w-of under CEIF-1 | | | | | | |
|-----|---|--|--|--|--|--|--|
| | | 1. PROJECT DATA | | | | | |
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (P128276) | | | | | |
| 1.2 | Contract Package | Package-1 | | | | | |
| 1.3 | Date of Commencement | January 2016 | | | | | |
| 1.4 | Date of Completion | June 2021 | | | | | |
| 1.5 | Location | Polder-32 and Polder-33 under Khulna district; & Polder-35/1; Polder-35/3 under Bagerhat District | | | | | |
| 1.6 | Name and Contact Information (email/phone) of Contractor | CHWE, mainland China | | | | | |
| 1.7 | Name and Contact Information (email/phone) of all sub- Contractors | Project Manager Mr. Sun Huaxin; No sub-contractors; about 56 Chinese and skilled workers influx; 01 Indian worker; local labour and foremen about 610 persons; | | | | | |
| 1.8 | Type of Works (single site, linear, clustered and construction duration) | Civil engineering/hydraulic works: earthen embankment; water control sluices; river bank protection works; embankment slope protection works; closure dam; offices and site buildings; excavation of sediment internal channels (khals); social re-afforestation; single and localized sites, stand-alone site for construction of one structure or one stretch of embankment etc; These are the standard engineering interventions in a typical coastal polder in Bangladesh, since 'time immemorial'; no rocket science; a lot of manual labour work activities, for men and women both; | | | | | |

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS | | | | |
|-----|--|--|--|--|--|--|
| 2.1 | | , | | | | |
| | involve an influx of migrant | construction sites; foreign labourers yes, Chinese & Indian, around 56 persons including middle technicians and | | | | |
| | workers? If yes, are there also | Master of Science level engineers; | | | | |
| | foreign labourers mobilized on | The mobilization of foreign worker started in November 2015 and on ward. | | | | |
| | site? | | | | | |
| 2.2 | Is the influx of non-local | Not significant because there are many stand-alone construction sites and the number of Chinese/foreign | | | | |
| | workforce significant for the | workers per stand-alone site is about 3 to 5 Chinese men; this is not disruptive for the social cohesion of the | | | | |
| | local community? | local site; local stand-alone construction sites are mostly far away from community centres (rural setting, remote sites; sluices are not located inside a community); | | | | |
| | | In the camp site, there have a separate place for their living, dining. Also police from local Thana/authority | | | | |
| | provide the security for the safety of Chinese workers. There have two or three local translator; if any problem arises they will arrange communication with local people. | | | | | |
| | Even now there is no complain from local people, mentioned that in camp site also have a register to note do | | | | | |
| | | to take proper action within appropriate time. | | | | |

Royal HaskoningDHV

Dev Con Leading Today for Tomerrow

| | | 2. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS |
|-----|--|---|
| | | At least certain percentage of local people would have been mobilized in civil work that would be beneficial for the local people. |
| 2.3 | What are the opportunities for local laborers? | Of course there were opportunities for local worker in civil work. Local residents are poor people with virtually no mobility or transport facilities and are employed in agriculture, aquaculture and civil construction works such as road, buildings etc. in 'urban' areas, mostly intermittent job contracts. There is some small business such as small shops, chicken and duck breeding/farm, aquaculture, and motorbike repair workshops etc which do not employ many people; e.g. Polder-35/1 is located 100 km away from the city of Khulna, hence not much influx from Khulna to Polder-35/1; due to few numbers of small rudimentary road tracks, there is hardly any economic traffic to the 4 Polders; one needs to cross many rivers with (small) ferries; labour market is non-existent for local laborers; Recently for polder-32, 206 local workers engaged for construction workers; P-33, 80 local workers; P-35/1, 207 local workers; P-35/3, 70 local workers. There are no women because, for heavy civil work women are not suitable. By negotiating we fixed the salary, so there is no unsatisfactory and no complain. |
| 2.4 | Frequency of outsider's visit | Chinese labourers are generally permanently stationed and working; they live together inside a fenced compound, with professional security guards; Non-local labours are regular, but they have the seasonal vacation during rainy season. |
| 2.5 | Environmental sensitivity of the project site | Refer to the four approved EIA Reports of the 4 Polders; in general, the close location of the border lines of the Sundarbans mangrove forest prompt the Chinese Contractor to take care/be alerted of the possible negative impacts on the water, noise, environment, biodiversity of the Sundarbans; |
| 2.6 | Community experience with similar projects? | Much community experience yes as all 139 coastal polders were built back in the 1970s and 1980s and had undergone many subsequent small and big interventions, emergency works, repair and recovery after huge flood disaster events etc.; local labourers are fully familiar with similar types of civil engineering works; And also familiar with the similar movement of non-local labour because in coast region in different time different improvement work have done throughout the specific period. |

| | 3. | SOCIO-ECONOMIC CONSIDERATIONS |
|-----|--|-------------------------------|
| 3.1 | How similar are local and migrant labour backgrounds? (cultural, religious and demographic considerations) | |

Progress Report No. 74 – June 2021

| 3.2 | Are there increased competitions for resources (e.g. | Group means not like two separate parts. Both local and non-local workers are working as a part of the project as like a team work. |
|-----|---|---|
| 3.2 | accommodation, water, food, fuel) with the local community? | |
| 3.3 | Given local community characteristics any specific adverse impacts anticipated? | No adverse impact is anticipated at the moment; |

| | 4. LOCAL COMMUNITY (Please provide Polder wise description of Facilities) | | | | | | | |
|-----|---|--|--------------------------------|---|--|--|--|--|
| 4.1 | Size of Local Population | Bangladesh is highly densely populated country but the project area has lesser density. It is found from the RAP document that inside the Polder-32, 33, 35/1 and 35/3 the total population amounts to 38397, 62305, 99182 and 33075 respectively. | | | | | | |
| 4.2 | Working age population and capacity (education, skills, experience) | The labour force (age between 15 and 59 year), the actual number of people available for work is 61%. The labour force includes both the employed and the unemployed. According to BBS, 30% of the people fall in the age group 1-15 year. The literacy rate in the project area roams around 58% whereas the national figure is 51.8%. The livelihood of 66.1% of people depends on agriculture activities; | | | | | | |
| 4.3 | Working age population capacity | Education | Skill | Experience | | | | |
| | | No information is available | No information | No information | | | | |
| 4.4 | Local capacity for infrastructure, services, utilities, health (please provide a short brief) | There are academic institu necessary public services t project areas. Auto ricksha | tion, market, religious instit | | | | | |
| 4.5 | Availability of accommodation, food, water (please provide a short brief) | Contractor provides adequate accommodation, water and food, protective sheds etc to their workers; Yes these facilities are easily available for rent and consumption | | | | | | |
| 4.6 | Are there any security considerations? | Not from the local governments; Contractor is now paying for the security force mainly in work site cum residential sites. | | | | | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic, indigenous- communities? | | Inerable people are in the pr | oject side like other places of the country | | | | |

| | | 5. MAINTENANCE OF OTHER LABOR RECORDS |
|-----|--|--|
| 5.1 | Is a copy of photo ID of each labourer kept | Yes. NID for local workers and visa copy for chinese workers; no sub-contractors; |
| | with the Contractor/ Sub-contractor? | |
| 5.2 | Is contact information of labour's next-of-kin | Yes. Family members are mostly close-by. Chinese contractor recruits mainly from the locality; |
| | kept for each labourer? | |

6. LABOR PROFILE (Please provide Polder wise information)

This data is to be collected for each Polder where civil works has commenced, and cover the regular labour, temporary labour, labour hired through sub-contractors or labour contractors / groups.

| 6.1 | Number of laborers by sex | Male | | Fema | Total | | | |
|-----|------------------------------|----------------------|---------------|---------------|----------------|------------|-------|--|
| | | 252 | | 2 | 227 | | | |

| | 7. FAC | ILITIES (Please pro | vide Polder wise descri | ption of Facilities) | | | | |
|------|--|--|--|--------------------------|---|--|--|--|
| 7.1 | Details of labour camps | Number | Permanent/Temp. | Location | Distance from nearest village/habitation | | | |
| | | 2 | Permanent | Every CC blocks | Almost within 100m | | | |
| | | 4 | Temporary | yard and every work site | | | | |
| 7.2 | Type of housing in labour camp on leased land (temporary shelters / kuchha /pukka) | Work site have ter | mporary shelter but cc | block yard has puk | ka house | | | |
| 7.3 | Is there any housing on public land like roadsides, open fields and other spaces? | No. Only housing exist inside the constructional premises. | | | | | | |
| 7.4 | Is there any housing in rented accommodation in residential areas? If so, who is it rented by? | Yes, for the Chinese and Bangladeshi senior staff. Contractor rents the buildings themselves | | | | | | |
| 7.5 | How many laborers have families on/near worksite? | | ers do not live with the he local worker mostly | | ne their family member visit here for ily | | | |
| 7.6 | Likelihood of family members accompanying (visiting) | | he project side. Labour by vehicles of Contract | | mes close by; daily transport is done | | | |
| 7.7 | Is drinking water available on site and at the campsite? | Yes | | | | | | |
| 7.8 | Are latrines and urinals provided on site and at the campsite? | Yes | | | | | | |
| 7.9 | Are First Aid facilities provided on site? | Yes | | | | | | |
| 7.10 | Does a doctor visit the worksite / campsite | Yes | | | | | | |

| | regularly? | |
|------|--|--|
| 7.11 | Is there a tie-up with a hospital or dispensary near the worksite / campsite | Yes |
| 7.12 | Is there a facility for cooking / canteen facility for all labour? | Yes |
| 7.13 | Are leisure activities / facilities available for all labour | Yes |
| 7.14 | Is transport to and from the worksite provided to labour? | Yes, for migrant labourer but no provision for unskilled local labourer. |

| | | 8. SUPERVISION BY LABOR OFFICIALS |
|-----|--|--|
| 8.1 | Has the worksite / campsite been inspected by a labour official? | In 20-22 November, 2017 and 04-06 February, 2018 WB team visited the work area of CEIP-1, |
| 8.2 | How many times has the worksite / campsite been inspected by a labour official since commencement of work? | Six times since commencement from WB. From the part of PMU and BEDB, visited the woks site frequently, as per the need basis. |
| 8.3 | What documents were inspected by labour officials? | Accident /injury register, salary sheet/record |
| 8.4 | What documents were maintained and which ones were not? | Safety training record, accident register, safety guideline document, compliance register, GRM system notice. Nothing missing, if anything required please give us the valuables suggestion. We will ensure it in work site. |
| 8.5 | What directions were given by labour officials? | About personal health and safety |
| 8.6 | What is the mode of compliance with such directions? | Action taken in field level as soon as possible |
| 8.7 | Are you facing any legal proceedings on labour issues in Labour Court/ Other? | None; |

| | 9. ACCIDENTS, EMERGENCIES AND INCIDENTS (Please provide Polder wise description of Facilities) | | | | | | | |
|-----|--|---|--|--|--|--|--|--|
| 9.1 | What is the nature of accidents / emergencies | No accident so far has been taken place | | | | | | |
| | usually occurring at a worksite like yours? | | | | | | | |
| 9.2 | Is a functioning First Aid available at the campsite / worksite? | Yes | | | | | | |
| 9.3 | Is functioning fire-fighting equipment available at the campsite / worksite? | Yes | | | | | | |
| 9.4 | Which is the nearest doctor / clinic / dispensary? | Within some kilometres, alert by mobile phone of which the number is known to all Chinese people (Chinese medical doctor available); doctor covers the four Polders | | | | | | |
| 9.5 | Which is the nearest hospital? | The nearest hospital is situated at Upazila head quarter. But there some clinic or satellite clinic | | | | | | |

74 – June 2021

| | 9. ACCIDENTS, EMERGE | NCIES AND INCIDENTS (Please provide Polder wise description of Facilities) |
|------|---|---|
| | | inside the polder. If any worker required critical services then he/she refer to Khulna or Dhaka. The contractor have own car for every camp site and CC block manufacturing site to transport he/she to Khulna or Dhaka. |
| 9.6 | Which is the nearest Police Station? | In any Polder, there is Police office close-by, within 10 km range. On the other hand, a team of 2-3 nos. police available in work camp site and cc block manufacturing site cum residential site. If required they will help us. But even no situations arise to do this. |
| 9.7 | Are details of nearest doctor / clinic / dispensary / hospital / Police station available and prominently displayed at worksite / campsite? | Yes |
| 9.8 | What is the system of informing next of kin? | For the migrant worker, there is focal person to deal with the issue. The contact numbers of all workers are well documented. For the local worker, the system is same. Bengali senior staff employed by the Chinese contractor. |
| 9.9 | What is your familiarity with accident reporting procedures? | Chinese Contractor holds regular drills on procedures and protocols to enact in case of accidents |
| 9.10 | What is your familiarity with police reporting procedures? | We are well familiar to local police reporting system and we have their contact number and relation. So far, no such incident whereby Police is to be called upon. It is worthy to mention that Contractor site camps are secured by police protection permanently. |
| 9.11 | Is there any mechanism to address the work place Sexual Harassment of Women at the project sites? | Yes (sanctions are known to Chinese workers and their bosses). Mechanism is there. We have gender policy. There is complaint system to mitigate sexual harassment. Finally, legal step can be applied where necessary; |

Initial information on labour influx risks, requirements and implication for work package W-02 under CEIP-1

| | | 10. PROJECT DATA |
|-----|--------------------------------------|---|
| 1.1 | Name of Project | Coastal Embankment Improvement Project - Phase I (CEIP-1) |
| 1.2 | Contract Package | Package-2 |
| 1.3 | Date of Commencement | 12 th July, 2017 |
| 1.4 | Date of Completion | 30 th June, 2022 |
| 1.5 | Location | Polder-39/2C, Polder-40/2, Polder-41/1, Polder-43/2C, Polder-47/2 & Polder-48 |
| 1.6 | Name and Contact Information | Chongqing International Construction Corporation |
| | (email/phone) of Contractor | cicobangladesh@gmail.com/+8801917264485 |
| 1.7 | Name and Contact Information | None |
| | (email/phone) of all sub-Contractors | |
| 1.8 | Type of Works (single site, linear, | 1. Upgrading via new construction and re-sectioning of embankments with a length of about 209km; |
| | clustered and construction duration) | 2. Excavation and re-excavation of drainage channels in the Polders with a total length of about 188km; |
| | | 3. Construction of 50 drainage sluices; |
| | | 4. Repairing of 6 drainage sluices; |
| | | 5. Construction of 73 flushing sluices; |
| | | 6. Repairing of 8 flushing sluices; |
| | | 7. Construction of embankment slope protection works with a total length of some 9.5km; |
| | | 8. Construction of river bank protection works with a total length of 5.40 km; |
| | | 9. Construction of 8 Khal Closing Closures with varying widths between 35m to 60m; |
| | | 10. Dismantling of 36 drainage sluices, 70 flushing sluices and road pavement for about 50 km; |
| | | 11. Construction of RCC Flood wall with a length of about 17km; |
| | | 12. Construction of Road Pavement with a length of about 51km. |
| | | Construction duration: 42 months |

| | 11. INITIAL SCREENING LABOR INFLUX REQUIREMENTS AND IMPLICATIONS | | | | | | |
|-----|---|---|--|--|--|--|--|
| 2.1 | Will the project potentially involves an influx of migrant workers? If yes, are | | | | | | |
| | there also foreign laborers mobilized on site? | | | | | | |
| 2.2 | Is the influx of non-local workforce significant for the local community? | Yes, these benefits are typically related to economic opportunities through employment and/or training by the project, or through selling goods and services. Other benefits include the provision of local infrastructure (e.g., access roads, power or water connection) which is developed for the project and which serves the community beyond the project duration. | | | | | |
| 2.3 | What are the opportunities for local laborers? | It will bring more employment opportunities to the local labours. It will improve the education status because of workers' training. | | | | | |
| 2.4 | Frequency of outsider's visit | Normal | | | | | |
| 2.5 | Environmental sensitivity of the project site | Fuel supply for cooking and heating, fuel storage area, by-pass road construction, sanitation, water supply and construction work. | | | | | |

| 2.6 | Community experience | with | similar | Embankment construction, Bridge construction and road pavement construction |
|-----|----------------------|------|---------|---|
| | projects? | | | |

| | 12. SOCIO-ECONOMIC CONSIDERATIONS | | | | | | |
|-----|--|--|--|--|--|--|--|
| 3.1 | How similar are local and migrant labour backgrounds? (cultural, religious and demographic considerations) | The labour no matter where they from are Bangladesh citizen. They almost have the same cultural and religious background. The demographics are shifted just from one region to another and there is no change on total demographics of Bangladesh. | | | | | |
| 3.2 | Are there increased competitions for resources (e.g. accommodation, water, food, fuel) with the local community? | More water, electricity, medical services, transport, education and social services will be required with the execution of works. | | | | | |
| 3.3 | Given local community characteristics any specific adverse impacts anticipated? | It will bring more influx of additional population and Increased pressure on accommodations and rents, Increase in traffic and related accidents | | | | | |

| | 13. LOCAL | COMMUNITY (Please provide Pole | der wise description of Facilities) | | | | |
|-----|--|---|-------------------------------------|---|--|--|--|
| 4.1 | Size of Local Population | Polder-39/2C: 84853, Polder-40 | /2: 41317, Polder 41/1: 41051, | Polder-43/2C: 14851, Polder-47/2: 5411, Polder- | | | |
| | | 48: 26260 | | | | | |
| 4.2 | Working age population and capacity (education, skills, | No information | | | | | |
| | experience) | | | | | | |
| 4.3 | Working age population capacity | Education | Skill | Experience | | | |
| | | No information | No information | No information | | | |
| 4.4 | Local capacity for infrastructure, services, utilities, health | alth The health centre and hospital are available in local place. | | | | | |
| | (please provide a short brief) | | | | | | |
| 4.5 | Availability of accommodation, food, water (please provide | Accommodation, water and food | is available to the local communit | ry. | | | |
| | a short brief) | | | | | | |
| 4.6 | Are there any security considerations? | Yes | | | | | |
| 4.7 | Are there any marginalized, vulnerable, ethnic, | No | | | | | |
| | indigenous- communities? | | | | | | |
| | | 14. MAINTENANCE OF OT | HER LABOR RECORDS | | | | |
| 5.1 | Is a copy of photo ID of each labourer kept with the | Yes | | | | | |
| | Contractor/ Sub-contractor? | | | | | | |
| 5.2 | Is contact information of labour's next-of-kin kept for | No | | | | | |
| | each labourer? | | | | | | |

15. LABOR PROFILE (Please provide Polder wise information)

This data is to be collected for each Polder where civil works has commenced, and cover the regular labour, temporary labour, labour hired through sub-contractors or labour contractors / groups.
